

ACCENT JR. CHILDREN'S FURNITURE CONSTRUCTION –

- Fully-welded frame is constructed of 14-gauge, 7/8" tubular powdercoated steel
- Contoured seat and back panels are constructed of laminated, high density hardwood veneers using an RF process and a UF resin with low off-gas emissions
- Foam contains environmentally-friendly bio-based materials, and is California TB117-2013 compliant
- Chair feet are plastic injection molded glides in a clear material to minimize floor marking

FEATURES –

- Fully welded design ensures long-term structural integrity
- Clear glides are non-marring to protect floors
- Double-stitch method increases durability of seams
- Collection includes coordinating activity tables

OPTIONS –

- Choice of upholstered or wood back
- Custom finishes
- Contrasting fabrics
- Moisture barrier
