

HermanMiller Collection

Nelson™ Daybed

**Designer**

George Nelson

Original Production Date

1949

Warranty

5 Years

The Nelson Daybed is a versatile combination of sofa and bed. While it offers a surface for a moment of relaxation during the day, it is ideal as a lean, comfortably cushioned bed with removable back or side bolsters. Designed by George Nelson in 1949, it brought a minimal and honest aesthetic to interiors then. Today, its slender, beveled edge wood frame fits effortlessly into contemporary homes and offices.
