A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table.

The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

General Information

This book is effective February 3, 2025, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

All prices are list prices. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest 1/8". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon  will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an  are on the assigned lead-time program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Product Information

Description

This frame accepts cladding on both sides to conceal the structure. It can be used mid-run or as end-of-run. Frame includes frame-to-frame brackets, interior light seals and all necessary hardware. Frame has no base options. Frame feet and appropriate end panels are ordered separately.

Notes

When frame is used as end-of-run, Commend loop leg (HQ540.) is required.
Order the following products separately:

- Commend frame feet (HQ125.)

Order the following optional products separately:

- Commend end panel (HQ500.)
- Commend change of height end panel (HQ505.)
- Commend seismic anchors (HQ140.)
- Commend floor anchors (HQ150.)
- Commend junction box (HQ790.)

Frames accept multiple junction boxes (HQ790.) based on frame width.

Order junction boxes separately.

Commend™ Corner Frame

HQ110.

Product Information
Description
This corner frame accepts cladding on both sides to conceal the structure. It can be used mid-run or as end-of-run. Frame includes corner protector, frame-to-frame brackets, interior light seals and all necessary hardware. Frame has no base options. Frame feet and appropriate end panels are ordered separately.
Notes
Corner protector is anodized and stands proud of exterior cladding to protect corner upon impact.
When no work surface is used, frame accepts Commend corner utility shelf (HQ411.), ordered separately.
Order the following products separately:
• Commend frame feet (HQ125.)
Order the following optional products separately:

Commend™ Corner Close Out Frame HQ120.

**Product Information****Description**

This corner closeout frame accepts cladding on both sides to conceal the structure. It is used as an end-of-run support. It allows for a larger work surface than the corner frame, giving the user 6" more usable surface. Frame includes corner protector, frame-to-frame brackets, interior light seals and all necessary hardware. Frame has no base options. Frame feet and appropriate end panels are ordered separately.

Notes

Only available in 42" height.

Handedness is determined from interior/user side of the application.

Corner protector is anodized and stands proud of exterior cladding to protect corner upon impact.

Order the following products separately:

- Commend frame feet (HQ125.)
- Commend end panel (HQ500.)

Order the following optional products separately:

- Commend seismic anchor bracket (HQ140.)
- Commend floor anchor bracket (HQ150.)
- Commend change of height end panel (HQ505.)
- Commend junction box (HQ790.)
- Commend cable trough (HQ791.)

Corner close out frame accepts up to 2 junction boxes (HQ790.), ordered separately.

Product Information

Description

This exterior cladding attaches to the approach side of the frame and conceals the structure. 1-piece or 2-piece cladding covers the overall frame height and comes in high-pressure laminate or Corian®. 2-piece cladding includes horizontal light seal for use between cladding pieces. Attachment hardware included.

Notes

Specify width and height of cladding to match width and height of frame.

When specifying 2-piece cladding (C2), both pieces will be the same material.

For Corian cladding in 6', 7', and 8' widths (06, 07, 08), 1-piece cladding is not available for 42"-high frames.

For solid color laminate, specify horizontal (HRG) grain direction.

Order the following products separately:

- Commend frame (HQ100.)
- Commend toe kick (HQ205.)

Product Information

Description

This corner exterior cladding attaches to the approach side of the corner frame or corner close out frame and conceals the structure. It comes with all necessary components to conceal both exterior sides of the corner frame. 1-piece or 2-piece cladding covers the overall frame height and comes in high-pressure laminate or Corian®. 2-piece cladding includes horizontal light seal for use between cladding pieces. Attachment hardware included.

Notes

- For solid color laminate, specify horizontal (HRG) grain direction.
- Order the following products separately:
- Commend corner frame (HQ110.)
 - Commend corner close out frame (HQ120.)
 - Commend corner toe kick (HQ215.)

Dimensions

----	---------------------	------

Product Information

Description

This interior cladding attaches to the user side of the frame and conceals the structure. 2-piece or 3-piece cladding covers the overall frame height. Interior cladding is metal and comes with standard power knockouts. Attachment hardware included.

Notes

Specify width and height of cladding to match width and height of frame.

30"-high cladding has 2 pieces to cover overall interior frame height.

42"-high cladding has 3 pieces to cover overall interior frame height.

For 42"-high frames with a work surface (HQ300.42xWS), mid-level cladding is inset 1" at each end to allow for installation of cantilevers.

For 42"-high frames with a utility shelf (HQ300.42xUS), mid-level cladding is flush at seams and does not allow for installation of cantilevers.

Receptacles for power access are field supplied.

Order the following products separately:

- Commend frame (HQ100.)
- Commend work surface (HQ400.) or Commend utility shelf (HQ401.)

Order optional products separately:

- Commend cable trough (HQ791.)
- Commend tackable fabric back panel (HQ305.)

Commend™ Corner Tackable Fabric Back Panel

HQ315.

Product Information

Description

These corner tackable fabric back panels are optional components that attach magnetically to the metal interior cladding above the work surface on a 42"-high corner frame. Product includes 2 panels, 1 for each interior side of the corner frame.

Notes

Order corner interior cladding (HQ310.) separately.

When specifying tackable fabric, horizontal (R) option, fabric direction is horizontal (railroaded). Specify all back panels within the workstation the same.

Corner tackable fabric back panels accept Customer's Own Material (COM). Yardage is estimated for nondirectional, 54"-wide fabrics.

For tackable fabric option (T):

Product Information

Description

This surface attaches to the frame and comes in laminate or Corian®. It includes frame attachment connectors and 1 work surface ganging plate to connect surfaces end-to-end. Work surfaces 4' wide and wider include a stiffener. Surface is 1" thick with a squared edge and is available with or without cutouts for Logic Mini power components, ordered separately.

Notes

Specify width and height of work surface to match width and height of frame. Work surfaces for use with 30"-high frames allow for 36" of usable surface depth.

Work surfaces for use with 42"-high frames allow for 30" of usable surface depth.

Grain direction on work surface runs the width of surface.

Cantilevers (FT290.) are required at every work surface-to-work surface connection. Order separately.

For surface widths greater than 4', cantilevers are necessary for mid-worksurface support. Order separately.

When cutouts are specified, Logic Mini Grommet (Y1412.1) is required. Order separately.

Surface does not allow clearance for Logic Mini Surface Clamp at the back edge of work surface.

Surface does not allow clearance for surface-clamp-mounted monitor arm assemblies. For monitor arm mounting use grommet mount or through-surface mount.

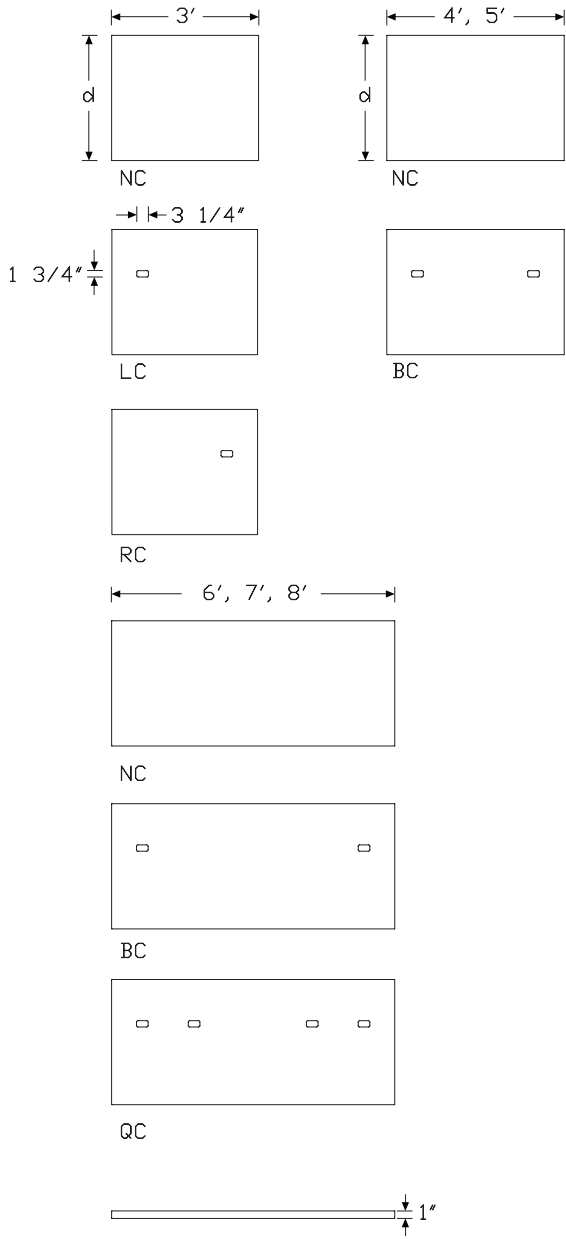

Order the following products separately:

- Surface cantilever (FT290.24)

Order the following optional products separately:

- Logic mini (Y1414.)
- Logic mini grommet (Y1412.1)

Product Information

Description

This surface attaches to the corner frame and comes in laminate or Corian®. It includes frame attachment connectors and 1 work surface ganging plate to connect surfaces end-to-end. Surface is 1" thick with a squared edge and is available with or without cutouts for Logic Mini power components, ordered separately.

Notes

Work surfaces for use with 30"-high frames allow for 36" of usable surface depth.

Work surfaces for use with 42"-high frames allow for 30" of usable surface depth.

Cantilevers (FT290.) are required at every work surface-to-work surface connection. Order separately.

When cutouts are specified, Logic Mini Grommet (Y1412.1) is required.

Order separately.

Surface does not allow clearance for Logic Mini Surface Clamp at the back edge of work surface.

Surface does not allow clearance for surface-clamp-mounted monitor arm assemblies. For monitor arm mounting use grommet mount or through-surface mount.

Order the following products separately:

- Surface cantilever (FT290.24)

Order the following optional products separately:

- Logic mini (Y1414.)
- Logic mini grommet (Y1412.1)

Commend™ Corner Close Out Work Surface HQ420.

Product Information

Description

This surface attaches to the corner close out frame and comes in laminate or Corian®. It includes frame attachment connectors and 1 work surface ganging plate to connect surfaces end-to-end. Surface is 1" thick with a squared edge and is available with or without cutouts for Logic Mini power components, ordered separately.

Notes

Corner close out work surface allows for 30"×36" of usable surface depth.

The corner close out frame comes in 42" height only.

Corner close out work surface provides 6" more usable surface than the corner work surface.

Handedness is determined from interior/user side of the application.

Cantilevers (FT290.) are required at every work surface-to-work surface connection. Order separately.

When cutouts are specified, Logic Mini Grommet (Y1412.1) is required.

Order separately.

Surface does not allow clearance for Logic Mini Surface Clamp at the back edge of work surface.

Surface does not allow clearance for surface-clamp-mounted monitor arm assemblies. For monitor arm mounting use grommet mount or through-surface mount.

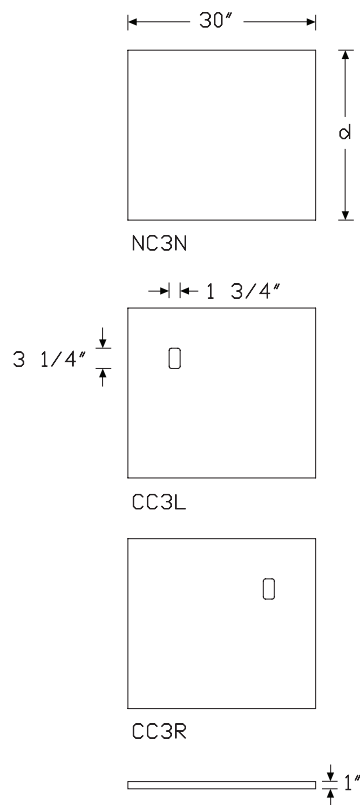

Order the following products separately:

- Surface cantilever (FT290.24)

Order the following optional products separately:

- Logic mini (Y1414.)
- Logic mini grommet (Y1412.1)

Commend™ Approach Peninsula Work Surface

HQ430.

Product Information

Description

This surface attaches to a frame at the end of a run. It is 1" thick with a squared edge and is available in laminate or Corian®. Surfaces 4' and 5' wide include a stiffener. Surface includes frame attachment connectors and 1 work surface ganging plate to connect peninsula surface to work surface.

Notes

3' wide surface does not require a stiffener.

Handedness is determined from interior/user side of the application.

5' wide surface only available in laminate.

Grain direction on peninsula surface runs the width of surface.

Order the following products separately:

- Commend loop leg (HQ540.)

Order the following optional products separately:

- Commend end panel (HQ500.)
- Commend peninsula modesty panel (HQ630.)

Commend™ Work Peninsula Surface HQ435.

Product Information

Description

This surface attaches perpendicularly to the width of a work surface. It is 1" thick with a squared edge and is available in laminate or Corian®. Surfaces 4' and 5' wide include a stiffener. Surface includes frame attachment connectors and 1 work surface ganging plate to connect peninsula surface to work surface.

Notes

3' wide surface does not require a stiffener.

Handedness is determined from interior/user side of the application.

5' wide surface only available in laminate.

Grain direction on peninsula surface runs the width of surface.

Order the following products separately:

- Commend loop leg (HQ540.)

Order the following optional products separately:

- Commend end panel (HQ500.)

Product Information

Description

This panel attaches at the end of a run to conceal the frame. It is available in high-pressure laminate or Corian®. Corian end panels are to be field cut to site-specific floor conditions to minimize gaps between bottom of panel and floor. Laminate end panel condition from bottom of panel to floor to be adjusted with structural glides. End panel attachment hardware included.

Notes

36"-deep end panel that caps frame and extends full depth of work surface (FS, FT) is only available in Corian.

36"-deep end panels (FS, FT) require loop leg (HQ540.).

Handedness is determined from interior/user side of the application.

Order the following product separately for frame (HQ100.):

- Commend loop leg (HQ540.)

Commend™ Supports

Product Information

Description

This individual leg supports a work surface or peninsula. 24" and 36"-deep legs can be concealed with an end panel, ordered separately. Leg has leveling glides with 1½" of adjustment. Attachment hardware included.

Notes

For use with frame (HQ100.), specify 24"-deep (24) loop leg.
For use with approach peninsula (HQ430.) or work peninsula (HQ435.), specify 36"-deep (36) loop leg.
12"-deep loop leg (12) is to be used for mid-run support. See Commend™ planning guide for planning rules.
Order the following optional products separately:
• Commend end panel (HQ500.)

Product Information

Description

This mount attaches an upmount glass screen to a work surface or transaction surface. The mount consists of several components, each to be ordered separately: mount, corner connector, and end caps. Mount is to be field cut to desired length and includes all necessary gaskets and hardware. Corner connector is to be used with corner frame to create a 90° corner. End caps are required for each end of the glass mount.

Notes

Mount only accommodates glass $\frac{3}{8}$ " thick and not more than 12" high.

Order the following products separately:

- Commend glass screen mount, end cap (HQ600.EC)

Glass not included and is to be sourced locally.

See Commend™ planning guide for glass ordering details.

Commend™ Surface To Ceiling Glass Mount HQ605.

Product Information

Description

This surface-to-ceiling glass mount attaches glass to a transaction surface and an architectural element. It consists of multiple components, each to be ordered separately: top and bottom mount, corner connector, and end caps. Mount is to be field cut to desired length and includes all necessary gaskets and hardware. Corner connector is to be used with corner frame to create a 90° corner. End caps are required for each end of the glass mount.

Notes

Mount only accommodates glass 3/8" thick and tempered.

Corner connectors come as a pair of 2.

Order the following product separately:

- Commend surface to ceiling glass mount, end cap (HQ605.EC)

Glass not included and is to be sourced locally.

Glass installer necessary for installation.

See Commend™ planning guide for specific planning rules.

Commend™ Screen

Commend™ Peninsula Modesty Panel HQ630.

Product Information

Description

This modesty panel provides privacy under the work surface when used with Commend™ approach peninsula surface. Panel suspends from underside of peninsula surface and comes in low-pressure laminate. Attachment hardware included.

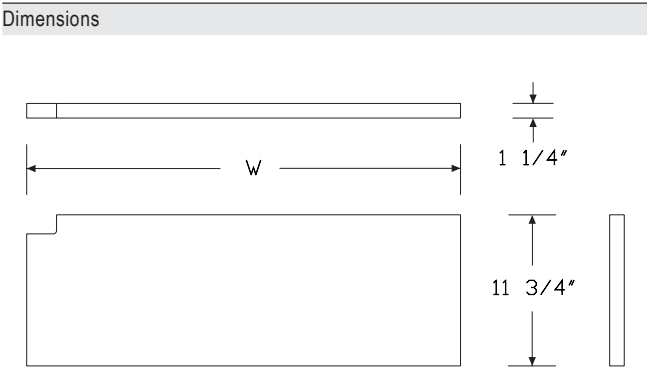

Notes

Specify modesty panel width to match width of approach peninsula surface (HQ430.).

Modesty panel cannot be used with Commend work peninsula surface (HQ435.).

For appropriate installation of modesty panel, order Commend peninsula end panel for use with modesty panel (HQ530.AYM) separately.

Handedness is determined from interior/user side of the application.

Product Information

Description

This freestanding laminate storage case provides a surface for a printer. Storage is available in high-pressure or low-pressure laminate with a $\frac{3}{4}$ " top.

Notes

200 pound load limit.

For keyed-alike locks, order lock plugs separately.

Product Information
Description
This junction box holds a hard-wired, flexible conduit electrical system. Each box includes a bracket. The junction box can hold 2 rectangular-faced receptacles and can be divided to allow for both standard power and emergency power or data in the same box.
Notes
Frame type and width determines the number of included junction boxes.

Product Information

Description
This cable trough is painted metal and attaches to the interior cladding under the work surface. It mounts below power knockouts to catch and conceal power cords and cables. Attachment hardware included.

Notes
Specify cable trough width to match width of frame.
For cable trough widths 5', 6', 7', and 8', trough will be in 2 pieces to cover the overall width.
For corner close out frame (HQ120.), power can only route along frame width, not depth.

Grommet - Rectangle

Grommet - Square

Product Information

Description

This electrical distributor plugs directly into floor, wall, or ceiling drop outlets. Each module configuration presents the same visual appearance. Grommet mount attachment does not come with the mini grommet (order separately as needed). Cable clips and attachment hardware included. Product is UL listed.

Notes

Grommet mount attachment (Y1414.xxxG) does not come with the mini grommet. Order Logic mini grommet (Y1412.) separately, as needed. Cable clips for cord management are intended for a 1-time installation. Clamp versions can be reoriented in the field by a technician. USB ports provide a combined 20 watts of power to charge most devices and tablets at full speed. USB-C provides 15 watts of power and USB-A provides 10 watts of power individually. When using the USB-C and USB-A ports simultaneously, USB-C remains at 15 watts and USB-A reduces to 5 watts. Cord color is predetermined. For white (91) finish cords will be white. For graphite (G1) finish cords will be black. Grommet mount attachment (Y1414.xxxG) does not come with the mini grommet. Order Logic mini grommet (Y1412.) separately, as needed.

20-Day or Less/Assigned Lead-Time Order Information — Healthcare

20-Day or Less/Assigned Lead-Time Programs

20-day or less and assigned lead-time products are designed for established Herman Miller dealers with pre-approved credit.

Products are distributed from multiple manufacturing facilities across the United States. All products and options not designated by an Assigned Lead-Time icon  will ship in 20 business days or less after being acknowledged by Herman Miller. Products and options designated by an  are on the assigned lead-time program and will ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Ordering Procedure

Please place orders through Order Manager. If this is not available to you, place orders through mail or fax. Verbal purchase orders will not be accepted.

Order Entry fax number: (616) 654 3085.

For more information, contact your Customer Care representative at: (866) 854 3048 ext 3400

Shipments and Delivery

Per Herman Miller Terms and Conditions.

Changes and Cancellation

Distribution Rights

Working together since 1956, Herman Miller and Vitra are the authentic sources of designs by Charles and Ray Eames, Alexander Girard, and George Nelson. All the designs shown in this book are protected by law. Herman Miller has obtained all rights to make and sell these designs. Also, Herman Miller holds exclusive worldwide manufacturing and distribution rights for these products with the following exceptions:

Charles and Ray Eames, George Nelson, and Alexander Girard—Worldwide distribution rights for furniture in all areas except Europe and the Middle East. For those areas, please contact Vitra.

Isamu Noguchi—Worldwide distribution rights for the Noguchi Rudder Table. Distribution rights for the Noguchi Table in North America and Central America only. For all other areas, please contact Vitra.

Magis—Exclusive distribution rights in the US and Canada. For all other areas, please contact Magis.
