Great Lakes Women's Business Council awards Herman Miller for "Excellence in Supplier Diversity" in the Advanced category.

WEConnect awards Herman Miller an Honorable Mention for global supplier diversity initiatives.

As one of the top-scoring companies in the industry for the 14th consecutive year, Herman Miller has qualified for inclusion in RobecoSAM's 2018 Sustainability Yearbook and receives the Silver Class distinction for excellent sustainability performance—economic, environmental, and social.

For the 11th consecutive year, Herman Miller receives a perfect score on the Human Rights Campaign Foundation's Corporate Equality Index and is designated as Best Place to Work for LGBT equality. This report evaluates U.S. companies in terms of diversity, particularly LGBT-related policies and practices.

December 2024 HermanMiller

continued

Herman Miller receives Gold Medal from EcoVadis in recognition of Corporate Social Sustainability achievement measured in categories of environment, labor and human rights, ethics, and sustainable procurement. EcoVadis operates the first web-based collaborative platform that allows companies to assess the environmental and social performance of their global suppliers.

Aeron receives Good Design Award from The Chicago Athenaeum Museum of Architecture and Design.

The Cosm Chair wins Mix Interiors "Product of the Year-Task" award.

2017

Herman Miller receives "Rising Star Award" from the Michigan Veterans Affairs Agency (MVAA) for exhibiting new and novel approaches to veteran recruitment and hiring.

Herman Miller is named the 2017 "Corporation of the Year" in the consumer products sector by the Michigan Minority Supplier Development Council (MMSDC).

Herman Miller receives a 2017 SEAL (Sustainability, Environmental Achievement and Leadership) Business Sustainability Award. SEAL Award winners are determined by a holistic methodology measuring applicants against established benchmarks that demonstrate impact and progress toward creating a healthy planet and a sustainable future.

Herman Miller earns the 4 Star Diversity Visionary Award. This award celebrates the diversity, equality, and inclusion work of Herman Miller. The award is presented at the annual Diversity Equity Inclusion Summit, held by the Grand Rapids Area Chamber of Commerce.

Herman Miller is named one of the Best and Brightest in Wellness for the 5th year in a row.

Herman Miller earns its 10th consecutive perfect score in Human Rights Campaign Foundation's 2017 Corporate Equality Index.

As one of the top-scoring companies in the industry for the 13th consecutive year, Herman Miller has qualified for inclusion in RobecoSAM's 2017 Sustainability Yearbook and receives the Bronze Class distinction for excellent economic, environmental, and social sustainability performance. The selection criteria for inclusion in the Yearbook becomes more rigorous each year, and only the top 15 percent of companies within each industry are selected.

Herman Miller once again earns the WorldatWork Seal of Distinction, a unique standard of excellence in work-life effectiveness that shows we provide a distinct, mutually beneficial workplace experience. Herman Miller is the only furniture manufacturer among the 160 companies across the U.S. and Canada honored with the award.

Herman Miller's Mora wins Nightingale Silver Award in the "Furniture Collections" category at the 2017 Healthcare Design Conference.

2016

Herman Miller earns 9th consecutive perfect score in Human Rights Campaign Foundation's Corporate Equality Index and is designated as Best Place to Work for LGBT equality.

Herman Miller is recognized as the Business of the Year at the Annual Meeting of the West Michigan Environmental Action Council (WMEAC) for being an outstanding partner in support of the growth of WMEAC's programs. WMEAC's award goes to the business with the greatest depth and breadth of support, unwavering dedication to environmental action in West Michigan, and a strong corporate commitment to environmental advocacy.

The 101 Best and Brightest Sustainable Companies once again (5th consecutive year) recognizes Herman Miller as an organization in Michigan (and for the first time, in the nation) that exhibits leadership and innovation in its approach to sustainability. This award celebrates those companies that are making their businesses more sustainable, the lives of their employees better, and the community, both locally and globally, more responsible as a whole.

Herman Miller is recognized by the Michigan Minority Supplier Development Council (MMSDC) as a "Corporation of the Year". Additionally, we are the only West Michigan company this year to receive an "Ambassadors Championing Excellence" Award from the MMSDC.

Herman Miller is recognized with "2016 Excellence in Supplier Diversity Award" from the Great Lakes Women's Business Council.

Herman Miller is recognized as a 2016 Healthiest 100 Workplace in America, ranking 49th in the country for our commitment to health and exceptional corporate wellness programming.

Herman Miller receives the Best and Brightest in Wellness Award for the 4th year in a row. This program is an innovative initiative that recognizes and celebrates quality and excellence in health awareness.

The Michigan Occupational Safety and Health Administration renews Herman Miller's "Star" status, the highest workplace safety and health designation, for the Hickory facility in Spring Lake.

Plex Lounge Furniture from Herman Miller receives #MetropolisLikes award at NeoCon 2016.

Plex Lounge Furniture from Herman Miller receives Interior Design HiP Award for Workplace Seating/Lounge at NeoCon 2016.

Herman Miller is named a 2016 Women on Boards Winning Company. Companies selected for this recognition are considered champions of board diversity as 20 percent or more of their board seats are occupied by women.

Herman Miller is selected for inclusion in the 2016 RobecoSAM Sustainability Yearbook for the 12th consecutive year.

Herman Miller again earns the WorldatWork Work-Life 2016 Seal of Distinction. This award identifies organizations that focus on programs that promote work-life balance and overall well-being.

A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table.

The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

General Information

This book is effective October 7, 2024, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

All prices are list prices. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest ¹/₈". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon A will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an A are on the assigned lead-time program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Product Information

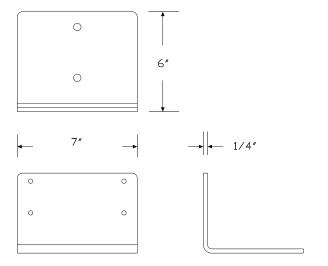

Description

This bracket fastens the frame foot to the floor when necessary for seismic locations. Bracket finish is black. Anchor hardware not included.

Notes

Anchor hardware is field supplied.

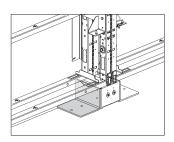

Dimensions

Specification Information

Step 1.

HQ140.

Description

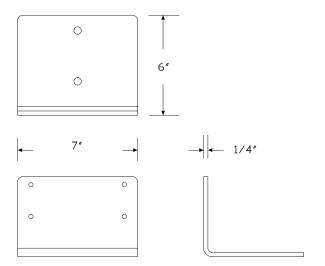

This bracket fastens the frame foot to the floor. Bracket finish is black. Anchor hardware not included.

Notes

Anchor hardware is field supplied.

For areas requiring seismic bracing, order Commend seismic anchor bracket (HQ140.).

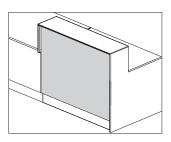

Dimensions

Specification Information

Step 1.

HQ150. \$262

Description

This exterior cladding attaches to the approach side of the frame and conceals the structure. 1-piece or 2-piece cladding covers the overall frame height and comes in high-pressure laminate or Corian®. 2-piece cladding includes horizontal light seal for use between cladding pieces. Attachment hardware included.

Notes

Specify width and height of cladding to match width and height of frame. When specifying 2-piece cladding (C2), both pieces will be the same material.

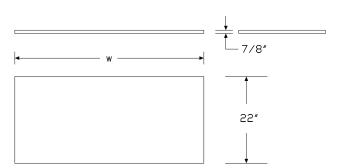

For Corian cladding in 6', 7', and 8' widths (06, 07, 08), 1-piece cladding is not available for 42''-high frames.

For solid color laminate, specify horizontal (HRG) grain direction.

Order the following products separately:

- Commend frame (HQ100.)
- Commend toe kick (HQ205.)

Step 13	. Light Seal	
8Q	folkstone grey (CP)	+\$0

Description

This corner exterior cladding attaches to the approach side of the corner frame or corner close out frame and conceals the structure. It comes with all necessary components to conceal both exterior sides of the corner frame.

1-piece or 2-piece cladding covers the overall frame height and comes in high-pressure laminate or Corian®. 2-piece cladding includes horizontal light seal for use between cladding pieces. Attachment hardware included.

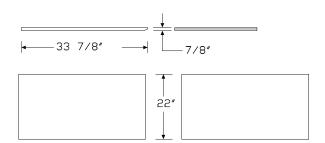

Notes

For solid color laminate, specify horizontal (HRG) grain direction.

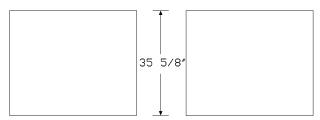

Order the following products separately:

- Commend corner frame (HQ110.)
- Commend corner close out frame (HQ120.)
- Commend corner toe kick (HQ215.)

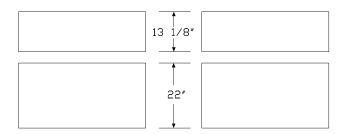

Dimensions

	2. Upper Cladding Edge Finish	

Description

This interior cladding attaches to the user side of the frame and conceals the structure. 2-piece or 3-piece cladding covers the overall frame height. Interior cladding is metal and comes with standard power knockouts. Attachment hardware included.

Notes

Specify width and height of cladding to match width and height of frame. 30"-high cladding has 2 pieces to cover overall interior frame height. 42"-high cladding has 3 pieces to cover overall interior frame height. For 42"-high frames with a work surface (HQ300.42xxWS), mid-level cladding is inset 1" at each end to allow for installation of cantilevers.

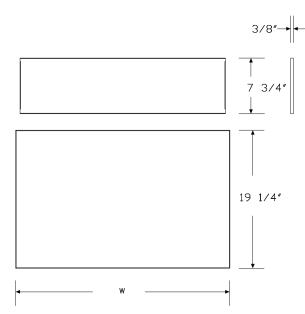

For 42"-high frames with a utility shelf (HQ300.42xxUS), mid-level cladding is flush at seams and does not allow for installation of cantilevers.

Receptacles for power access are field supplied.

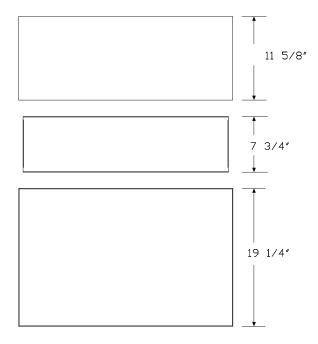

Order the following products separately:

- Commend frame (HQ100.)

Description

This corner interior cladding attaches to the user side of the corner frame and conceals the structure. 2-piece or 3-piece cladding covers the overall frame height. Corner interior cladding is metal and comes with standard power knockouts. Attachment hardware included.

Notes

Specify width and height of cladding to match width and height of frame. 30" high cladding has 2 pieces to cover overall interior frame height. 42" high cladding has 3 pieces to cover overall interior frame height. For 42" high corner frames with a work surface (HQ310.4203WS), mid-level cladding is inset 1" at outer ends to allow for installation of cantilevers. For 42" high corner frames with a utility shelf (HQ310.4203US), mid-level cladding is flush at seams and does not allow for installation of cantilevers. Receptacles for power access are field supplied.

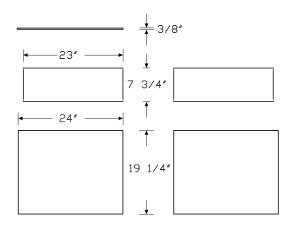

Order the following products separately:

- Commend corner frame (HQ110.)
- Commend corner work surface (HQ410.) or Commend corner utility shelf (HQ411.)

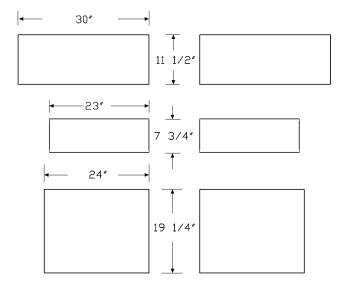

Order optional products separately:

- Commend junction boxes (HQ790.CO)
- Commend cable trough (HQ791.CO)
- Commend corner tackable fabric back panel (HQ315.)

Commend™ Corner Close Out Interior HQ320. Cladding

Product Information

Description

This corner close out interior cladding attaches to the user side of the corner close out frame and conceals the structure. 3-piece cladding covers the overall frame height. Corner interior cladding is metal and comes with standard power knockouts. Attachment hardware included.

Notes

Specify width and height of cladding to match width and height of frame.

42"-high cladding has 3 pieces to cover overall interior frame height.

Mid-level corner close out cladding is inset 1" at outer ends to allow for installation of cantilevers.

Receptacles for power access are field supplied.

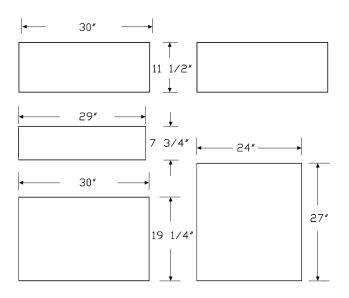

Order the following products separately:

- Commend corner close out frame (HQ120.)
- Commend corner close out work surface (HQ420.)

Order optional products separately:

- Commend junction box (HQ790.CC)
- Commend cable trough (HQ791.CC)
- Commend corner close out tackable fabric back panel (HQ325.)

Description

This tackable fabric back panel is an optional component that attaches magnetically to the metal interior cladding above the work surface on a $42^{\prime\prime}$ -high frame.

Notes

Specify width of panel to match width of frame.

For back panels wider than 4', 2 panels will be used to cover the overall width

Order interior cladding (HQ300.) separately.

When specifying tackable fabric, horizonal (R) option, fabric direction is horizontal (railroaded). Specify all back panels within the workstation the same.

Tackable fabric back panel accepts Customer's Own Material (COM).

Yardage is estimated for nondirectional, 54"-wide fabrics.

For tackable fabric option (T):

Description

This surface attaches to the frame and comes in laminate or Corian®. It includes frame attachment connectors and 1 work surface ganging plate to connect surfaces end-to-end. Work surfaces 4' wide and wider include a stiffener. Surface is 1" thick with a squared edge and is available with or without cutouts for Logic Mini power components, ordered separately.

Notes

Specify width and height of work surface to match width and height of frame. Work surfaces for use with 30"-high frames allow for 36" of usable surface depth.

Work surfaces for use with 42"high frames allow for 30" of usable surface depth.

Grain direction on work surface runs the width of surface.

Cantilevers (FT290.) are required at every work surface-to-work surface connection. Order separately.

For surface widths greater than 4', cantilevers are necessary for midworksurface support. Order separately.

When cutouts are specified, Logic Mini Grommet (Y1412.1) is required. Order separately.

Surface does not allow clearance for Logic Mini Surface Clamp at the back edge of work surface.

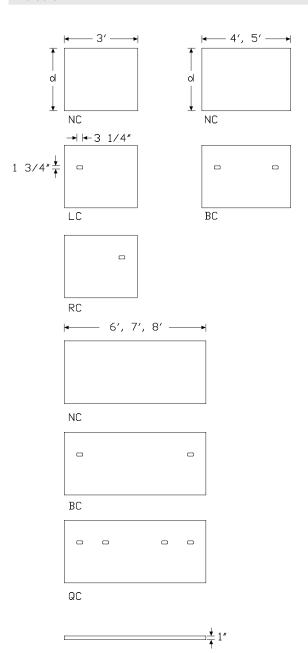

Surface does not allow clearance for surface-clamp-mounted monitor arm assemblies. For monitor arm mounting use grommet mount or through-surface mount.

Order the following products separately:

• Surface cantilever (FT290.24)

Order the following optional products separately:

- Logic mini (Y1414.)
- Logic mini grommet (Y1412.1)

Description

This surface attaches to the corner frame and comes in laminate or Corian®. It includes frame attachment connectors and 1 work surface ganging plate to connect surfaces end-to-end. Surface is 1" thick with a squared edge and is available with or without cutouts for Logic Mini power components, ordered separately.

Notes

Work surfaces for use with 30" high frames allow for 36" of usable surface depth.

Work surfaces for use with 42"-high frames allow for 30" of usable surface depth.

Cantilevers (FT290.) are required at every work surface-to-work surface connection. Order separately.

When cutouts are specified, Logic Mini Grommet (Y1412.1) is required. Order separately.

Surface does not allow clearance for Logic Mini Surface Clamp at the back edge of work surface.

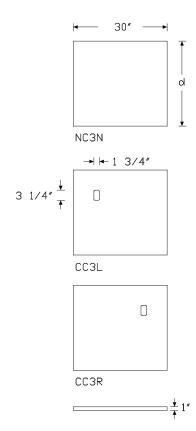

Surface does not allow clearance for surface-clamp-mounted monitor arm assemblies. For monitor arm mounting use grommet mount or through-surface mount.

Order the following products separately:

• Surface cantilever (FT290.24)

Order the following optional products separately:

- · Logic mini (Y1414.)
- Logic mini grommet (Y1412.1)

Commend™ Surfaces

Product Information

Description

This surface attaches to the corner close out frame and comes in laminate or Corian®. It includes frame attachment connectors and 1 work surface ganging plate to connect surfaces end-to-end. Surface is 1" thick with a squared edge and is available with or without cutouts for Logic Mini power components, ordered separately.

Notes

Corner close out work surface allows for 30"×36" of usable surface depth. The corner close out frame comes in 42" height only.

Corner close out work surface provides 6" more usable surface than the corner work surface.

Handedness is determined from interior/user side of the application.

Cantilevers (FT290.) are required at every work surface-to-work surface connection. Order separately.

When cutouts are specified, Logic Mini Grommet (Y1412.1) is required. Order separately.

Surface does not allow clearance for Logic Mini Surface Clamp at the back edge of work surface.

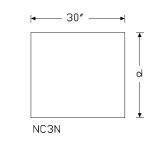

Surface does not allow clearance for surface-clamp-mounted monitor arm assemblies. For monitor arm mounting use grommet mount or through-surface mount.

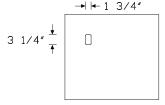

Order the following products separately:

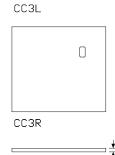

• Surface cantilever (FT290.24)

Order the following optional products separately:

- Logic mini (Y1414.)
- Logic mini grommet (Y1412.1)

Description

This surface attaches to a frame at the end of a run. It is 1" thick with a squared edge and is available in laminate or Corian®. Surfaces 4' and 5' wide include a stiffener. Surface includes frame attachment connectors and 1 work surface ganging plate to connect peninsula surface to work surface.

Notes

3' wide surface does not require a stiffener.

Handedness is determined from interior/user side of the application.

5' wide surface only available in laminate.

Grain direction on peninsula surface runs the width of surface.

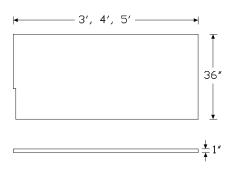

Order the following products separately:

Description

This transaction surface attaches to a 42"-high frame. It is 1" thick with a thin profile edge and comes in Corian® only. Corian seaming is to be done in the field. Attachment hardware included.

Notes

Specify raw edge where the 2 Corian edges meet to allow for seaming in the field.

Seaming kit included when raw edge is specified.

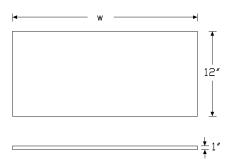

Transaction surface must match width of frame.

Handedness is determined from interior/user side of the application.

Order the following products separately:

Commend™ Corner Transaction Surface

HQ415.

Product Information

Description

This corner transaction surface attaches to a 42"high corner frame. It is 1" thick with a thin profile edge and comes in Corian® only. Corian seaming is to be done in the field. Attachment hardware included.

Notes

Specify raw edge where the 2 Corian edges meet to allow for seaming in the field.

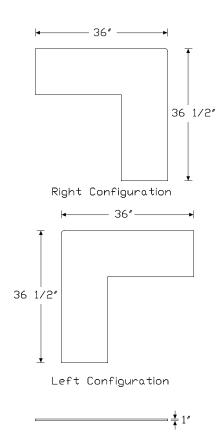

Seaming kit included when raw edge is specified.

Handedness is determined from interior/user side of the application.

Order the following products separately:

• Commend corner frame (HQ110.)

Description

This surface conceals a 42"high frame when a work surface is not desired. Shelf provides 6" of surface. It is 1" thick with a squared edge. Attachment hardware included.

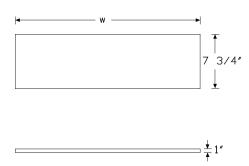

Notes

Grain direction runs the width of the shelf only.

Width of utility shelf must match width of frame.

When using utility shelf, order interior cladding for use with utility shelf (HQ300.42xxUS) separately.

Description

This panel attaches at the end of a run to conceal the frame. It is available in high-pressure laminate or Corian®. Corian end panels are to be field cut to site-specific floor conditions to minimize gaps between bottom of panel and floor. Laminate end panel condition from bottom of panel to floor to be adjusted with structural glides. End panel attachment hardware included.

Notes

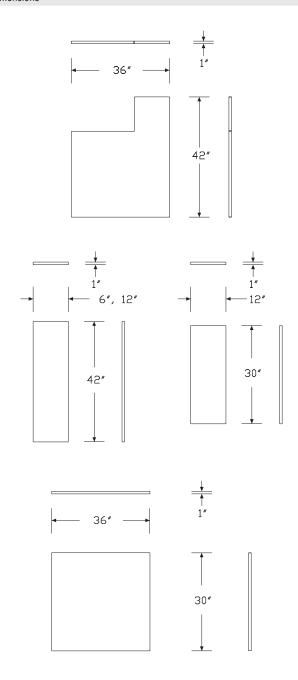

36"-deep end panel that caps frame and extends full depth of work surface (FS, FT) is only available in Corian.

36"-deep end panels (FS, FT) require loop leg (HQ540.).

Handedness is determined from interior/user side of the application.

Order the following product separately for frame (HQ100.):

• Commend loop leg (HQ540.)

Description

This individual leg supports a work surface or peninsula. 24"- and 36"-deep legs can be concealed with an end panel, ordered separately. Leg has leveling glides with $1\frac{1}{2}$ " of adjustment. Attachment hardware included.

Notes

For use with frame (HQ100.), specify 24"-deep (24) loop leg.

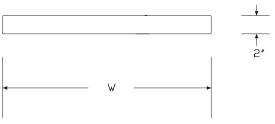

For use with approach peninsula (HQ430.) or work peninsula (HQ435.), specify 36"-deep (36) loop leg.

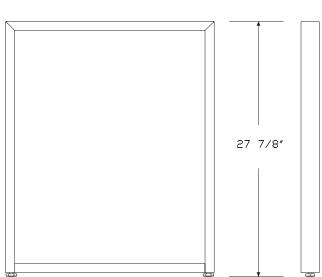

12ⁿ deep loop leg (12) is to be used for mid-run support. See Commend™ planning guide for planning rules.

Order the following optional products separately:

• Commend end panel (HQ500.)

Description

This mount attaches an upmount glass screen to a work surface or transaction surface. The mount consists of several components, each to be ordered separately: mount, corner connector, and end caps. Mount is to be field cut to desired length and includes all necessary gaskets and hardware. Corner connector is to be used with corner frame to create a 90° corner. End caps are required for each end of the glass mount.

Notes

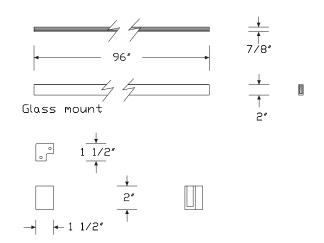

Mount only accommodates glass %" thick and not more than 12" high. Order the following products separately:

• Commend glass screen mount, end cap (HQ600.EC)

Glass not included and is to be sourced locally.

See Commend™ planning guide for glass ordering details.

Description

This surface-to-ceiling glass mount attaches glass to a transaction surface and an architectural element. It consists of multiple components, each to be ordered separately: top and bottom mount, corner connector, and end caps. Mount is to be field cut to desired length and includes all necessary gaskets and hardware. Corner connector is to be used with corner frame to create a 90° corner. End caps are required for each end of the glass mount.

Notes

Mount only accommodates glass 3/8" thick and tempered.

Corner connectors come as a pair of 2.

Order the following product separately:

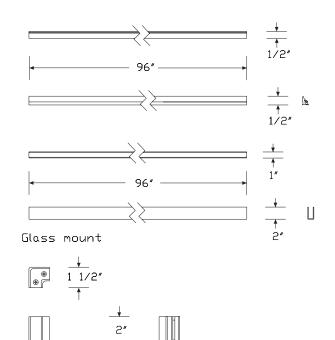

• Commend surface to ceiling glass mount, end cap (HQ605.EC)

Glass not included and is to be sourced locally.

Glass installer necessary for installation.

Product Information

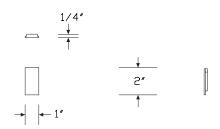

Description

This modesty panel provides privacy under the work surface when used with Commend™ approach peninsula surface. Panel suspends from underside of peninsula surface and comes in low-pressure laminate. Attachment hardware included.

Notes

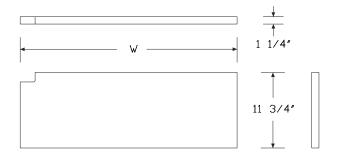

Specify modesty panel width to match width of approach peninsula surface (HO430) $\,$

Modesty panel cannot be used with Commend work peninsula surface (HQ435.).

For appropriate installation of modesty panel, order Commend peninsula end panel for use with modesty panel (HQ530.AYM) separately.

Handedness is determined from interior/user side of the application.

Description

This electrical distributor plugs directly into floor, wall, or ceiling drop outlets. Each module configuration presents the same visual appearance. Grommet mount attachment does not come with the mini grommet (order separately as needed). Cable clips and attachment hardware included. Product is UL listed.

Notes

Grommet mount attachment (Y1414.xxxG) does not come with the mini grommet. Order Logic mini grommet (Y1412.) separately, as needed.

Cable clips for cord management are intended for a 1-time installation.

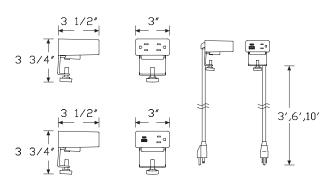

Clamp versions can be reoriented in the field by a technician.

USB ports provide a combined 20 watts of power to charge most devices and tablets at full speed. USB-C provides 15 watts of power and USB-A provides.

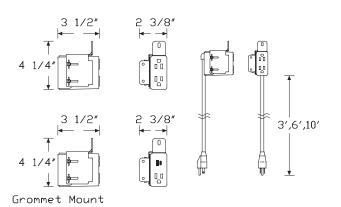

USB ports provide a combined 20 watts of power to charge most devices and tablets at full speed. USB-C provides 15 watts of power and USB-A provides 10 watts of power individually. When using the USB-C and USB-A ports simultaneously, USB-C remains at 15 watts and USB-A reduces to 5 watts. Cord color is predetermined. For white (91) finish cords will be white. For graphite (G1) finish cords will be black.

Grommet mount attachment (Y1414.xxxG) does not come with the mini grommet. Order Logic mini grommet (Y1412.) separately, as needed.

20-Day or Less/Assigned Lead-Time Order Information

GSA

20-Day or Less and Assigned Lead-Time Programs

20-day or less and assigned lead-time products are designed for established Herman Miller dealers with pre-approved credit.

Products are distributed from multiple manufacturing facilities across the United States. All products and options not designated by an Assigned Lead-Time icon A will ship in 20 business days or less after being acknowledged by Herman Miller. Products and options designated by an A are on the assigned lead-time program and will ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Ordering Procedure

Please place orders through Order Manager. If this is not available to you, place orders through mail or fax. Verbal purchase orders will not be accepted.

Order Entry fax number for Meridian ${\rm @\ Filing\ and\ Storage:}$

(616) 846 9236.

Order Entry fax number for all other products:

(616) 654 3085.

For more information, contact your Customer Care representative at: (866) 854 3048 ext 3400.

Shipments and Delivery

Per Herman Miller Terms and Conditions.

Changes and Cancellation

Per Herman Miller Terms and Conditions.

Distribution Rights

Working together since 1956, Herman Miller and Vitra are the authentic sources of designs by Charles and Ray Eames, Alexander Girard, and George Nelson. All the designs shown in this book are protected by law. Herman Miller has obtained all rights to make and sell these designs. Also, Herman Miller holds exclusive worldwide manufacturing and distribution rights for these products with the following exceptions:

Charles and Ray Eames, George Nelson, and Alexander Girard—Worldwide distribution rights for furniture in all areas except Europe and the Middle East. For those areas, please contact Vitra.

Isamu Noguchi—Worldwide distribution rights for the Noguchi Rudder Table. Distribution rights for the Noguchi Table in North America and Central America only. For all other areas, please contact Vitra.

Magis—Exclusive distribution rights in the US and Canada. For all other areas, please contact Magis.
