Ondo™ Connectivity Module

Ondo seamlessly integrates with CBS monitor arms or any worksurface to make the connections of an under-desk docking station (sold separately) conveniently accessible at the desktop. Ondo also offers USB charging and connectivity of mobile phones and tablets.

Benefits

• Minimizes cable clutter through integrated cable management system, especially when paired with CBS Loop Micro Mount

• Allows for pass-through access to power and data at desktop by routing cords and cables to under-desk docking station

• Attaches to the base of Flo, Lima, Ollin, or Wishbone monitor arms without tools

• The worksurface mounted version works independently of the monitor arm, and can be installed and adjusted without tools

Warranty
5-year

Key Features

1. **Monitor-Arm Ready**
   Ondo works with Flo, Lima, Ollin, or Wishbone monitor arms, adding power and cable management to your ergonomic setup.

2. **Tool-Free Installation**
   For the arm mounted version, simply put the monitor arm through the hole in Ondo, secure it and plug in your cables to be up and running. For the worksurface version, use the under desk clamp to quickly attach it.

3. **Four Ports**
   Ondo routes the power and data from your under-desk docking station to two USB-A and two USB-C ports on the desktop for convenient access.

4. **Pairs with Loop Micro Mount**
   To neatly manage all power, data, monitor, laptop, and keyboard connections, pair Ondo with Loop Micro Mount.

5. **Heavy-Duty Cabling**
   Nylon braided cables that are tangle-resistant and durable are included.

6. **Three Finishes**
   Ondo is available in a choice of three colours to match black, white or silver arms.

Statement of Line

Arm Mount

1.15"/29mm

7.21"/183mm

Work Surface Mount

4.17" / 106mm

3" / 77mm
