- Other upholstery options are: a soft quilted version with added wadding in a large selection of fabrics and leathers
- Suitable for a wide variety of private and public environments
- Qualified for contract use

AAL 83 DESIGN BY HEE WELLING & HAY

With a molded plywood frame this version of About A Lounge Chair is offset by the minimalist wooden frame, creating a slightly more angular expression. It is available in a low-backed version with a more intimate expression or in a high-backed version with an open, spacious feel. The wide choice of cushions, legs and upholsteries mean you can configure unique combinations that fit a variety of public and private contexts.

MATERIALS

SHELL
Soft molded polyurethane foam with armrest

BASE
Molded plywood base. Inner plywood in beech, top veneer in oak

Our Care & Maintenance offers guidance for optimal maintenance of your HAY product.

CERTIFICATES & TESTS

FSC™ LABEL MIX 70%
Made from FSC™-certified wood
and other controlled materials.

BIOMASS FOAM
100% of the fossil-based raw materials required for manufacturing of this product are replaced by sustainably certified biomass.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimize the environmental impact throughout their life-cycle. We prioritize carefully selecting materials, such as recycled content, FSC-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
