PRODUCT FACT SHEET

## AAC 10

DESIGN BY HEE WELLING & HAY, 2010

Featuring a swivel base in steel, the About A Chair AAC 10 conveys a more formal expression than its wooden-legged counterparts from the series. Retaining the same open, curved shell, it balances on delicate and elegant legs that fan out from the centered base, as if the tiptoe silhouette elevates the chair from the floor. The cast aluminum swivel base is available in polished or powder coated finishes, and the polypropylene shell comes in diverse color and upholstery options, allowing a multitude of design combinations that make this series so versatile.
