ARBOUR

DESIGN BY ANDREAS ENGESVIK & DANIEL RYBAKKEN, 2020

Embodying the concept that design should follow construction, Andreas Engesvik and Daniel Rybakken's Arbour is assembled from separate components that have been independently produced for optimal comfort, quality, and efficiency. Developed to offer a compact and durable sofa with a sustainable profile, the Arbour Sofa features the EU-Ecolabel, with FSC-certified wood and water-based lacquered frame, and EU-Ecolabelled upholsteries for the Eco version. The seat and cushions are made in carefully balanced proportions, with identical side cushions creating a sense of harmony and offering the opportunity for multiple comfortable sitting or lying positions, while the frame creates a strong yet elegant profile with an architectural quality. With its logical construction and uncluttered design language, Arbour fuses its distinctly Scandinavian aesthetics with high comfort and great durability. The Arbour family comprises a two- and three-seater sofa, and Club Armchair.

HIGHLIGHTS

- The Arbour family is available as a two- and three-seater sofa and a Club Armchair.
- Arbour is a compact and durable sofa with a sustainable profile.
- It is built to last, using separate components that can easily be replaced.
- The cushions are made with recycled filling and removable covers.
- The cushions are secured to the seat with a Loxx button.
- Available in a variety of textiles and frame colors and finishes.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.
