

## Material / Colors Sheet

### Polyethylene\*

### Polyethylene

Polyethylene Rotationally-molded polyethylene is produced by tumbling polyethylene powder in a mold under heat. The material provides strong structure with integral color that stands up to heavy use and is easily cleaned. Aggregate colors are subject to an upcharge.

- \* All colors and patterns shown are approximate and may vary from sample and final.
- \*\* Fog polyethylene color was updated as of 2024 and differs from product specified with Fog prior to then.
