## Danforth

Sit down. Please.

The only way to know if you are adjusting your chair to provide you with maximum comfort, is to make these adjustments while you are seated.

# 1. Seat Height Adjustment

Use this  
(to raise or lower seat)

**Use** the paddle shaped lever on the right side underneath the seat.  
**To raise** lift your weight off the seat while lifting the front of the lever.  
**To lower** sit on the seat while lifting front of the lever.

## 2. Tilt

**Use** the big round knob under the front of the seat

**To increase** tension turn the knob clockwise

**To decrease** tension turn the knob counter-clockwise

### 3. Tilt Lock

**Use** the paddle shaped lever on the right side underneath the seat.

**To unlock tilt** pull the front of the lever up and tilt back slightly

**To lock tilt** recline to your desired position and push the front of the lever down
