# Epix Table Power (If Applicable)
## Assembly Instructions, Model 76302 & 76303

Place the table on its edge on a blanket.

Unscrew the power box clamp and set aside. Feed the cable(s) through the table cut-out and power box clamp. Reinstall the power box clamp until hand tight.

Place the cable management clip (x2) at the location shown. Fasten the control box to the underside of the table at the location shown using the provided velcro (x2)

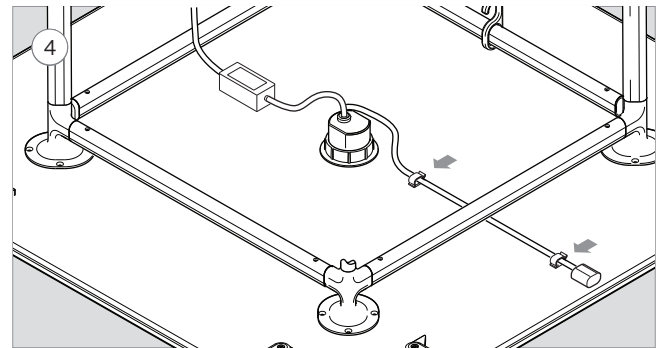

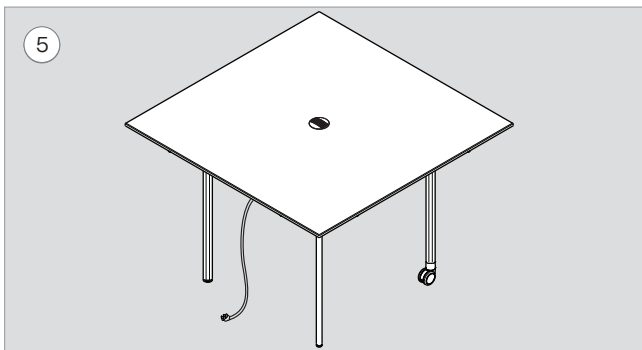

Route the cable through the cable managament clip (x2).

Power Linking Epix Tables
EXTREME HAZARD WARNING:

IN ORDER TO PREVENT ELECTRICAL DAMAGE AND/OR FIRE, A MAXIMUM OF (x8) TABLES CAN BE POWER LINKED TOGETHER.

Place assembled table in its final position. See next page for power layout diagrams.

To link a power connection between multiple tables, the starter unit is energized, the connector units continue the daisy chain and the end unit completes the circuit.
