## Seat Height Adjustment (while seated)

Use this  
(to raise or lower seat)

**Use** the lever on the right side underneath the seat.  
**To raise** lift your weight off the seat while lifting the lever.  
**To lower** sit on the seat while lifting the lever.

## Back Height Adjustment

Use this  
(to raise or lower back)

**Use** the sides of the back just above the seat and grab with both hands.  
**To raise** lift the back up and towards you - you will hear a click for each different height  
**To lower** lift the back to the highest setting and it will disengage allowing it to drop down to the starting (lowest) height; the back must return to the starting position to reengage the height adjustment mechanism
