

KEILHAUER

Spec Sheet

Syz

Table Top

Features

- Tops are offered in plastic laminate, wood veneer, and quartz.
- Laminate and veneer tops are made with an MDF core.
- Wood veneers are available in maple, walnut, cherry and oak in 2 edge details: straight veneer edge (VS) or a reverse bevel, solid wood edge (VB).
- Laminate tops come standard with a reverse bevel, vinyl edge (LB). Bevel underside edge is black.
- Quartz tops have a straight edge.
- The wood veneers are applied with the grain running the length of the top.
- Special finishes and sizes are available on request; contact your local sales rep or customer service for a quote.
- Tabletops for the Square 72", Round 72", and Round 84" models come in two separate connecting halves.

Veneers are applied as follows:

Cherry - Flat Cut

Walnut - Flat Cut

Maple - Flat Cut

Oak - Rift Cut

Finishes

Standard Laminate

			
LAM11 – Manitoba Maple	LAM13 – Fonthill Pear	LAM14 – Biltmore Cherry	LAM15 – Hampton Walnut
			
LAM16 – Montana Walnut	LAM17 – Xanadu	LAM18 – Studio Teak	LAM19 – Cafelle

 - Straight Edge

Table Base

Features

- The Syz conference table features a polished aluminum leg connected to an aluminum extrusion.
- All of the tables in the range feature 4 legs combined with the extrusions.
- The extrusion is a 2.75 inch frame that flows continuously under the table.
- The legs have a height leveling adjustable glide with a range of 1 inch to accommodate uneven flooring. Glides are made of nylon with a steel insert.
- The legs are available in 2 heights: lounge meeting and conference.
- The understructure (legs and extrusions) is available in polished aluminum as standard. There are 4 powder coat colors available for an upcharge.
- The understructure has been designed to easily accept our wire management conduit and requires a black PET mesh wire carrier to connect the wiring from the conduit to the floor.

Finishes

PA00 - Polished Aluminum

PC00 - Nickel

PC05 - Shale

PC23 - Dark Grey

PC24 - Warm Grey

PC25 - White

PC26 - Black

PC27 - Bronze

Power

Features

- All tables are available with an optional power source.
- Our power source has 4 slots; standard configuraton is 3 power outlets and 2 USB slots.
- Data and HDMI slots are available on request and we can configure the 4 slots to your specifications. Please consult customer service if this is required. Additional upcharges lead times may be required for these special requests.
- The power supply is corded. The power cord is 6 feet in length as standard for one power source. Where there are 2 sources in the larger tables it may be necessary to use one 6 foot length and one 10 foot length cord depending on where the power connects to the floor. Please specify drop location when ordering so that we may include the appropriate cord lengths.

- The unique pop up unit incorporates a brush liner into the design for wire pass through, keeping cables from falling through, as well as maintaining a streamlined appearance.
- Standard finish of the power unit is satin aluminum with black power/USB units and black brush. Plugs are accessed by gently pushing on the front end of the unit and the spring loaded lid pops up at an angle with a flat face for easy access to the 3 electrical outlets and the USB modules. It clicks closed for a clean and low profile aesthetic.
- Cables are run under the table top via a wire management conduit that is connected to the understructure of the table. The cables are connected to the floor via a black PET mesh wire carrier.

Terms and Conditions

Wood Finishes

All of our veneers are carefully selected for uniformity of color and grain; however, wood is a natural substance and minor variations may occur due to the unique nature of the material and therefore may not be an exact match to our samples.

Wood may also have color variations within a single piece of furniture, and variations from one piece to the next. Light finishes do not hide or mask these natural characteristics and it is important to understand that these variations exist. There are other factors that also affect color over time, such as exposure to light.

The finishes on our tables may vary slightly from those on seating due to the natural characteristics of the wood.

Special Finishes

Keilhauer will make every effort to accommodate special veneer finish requests from our customers. These requests are subject to a coloration charge as well as an upcharge. Additional lead times may be required. Please contact customer service for pricing on special finishes. Finish orders will not be acknowledged until the special finish is approved in writing and received by customer service.

ANSI/BIFMA

Keilhauer products are tested to meet or exceed ANSI/BIFMA standards.

Packaging

Due to the handling requirements of large table tops, the Syz collection of tables will always be crated. There will be a net cartoning charge per table.

Please contact customer service for further information.
