

modular casework

NURTURING CONNECTIONS, ELEVATING SPACES.

Forge is your go-to modular casework solution that creates connection points between caregivers, patients, and ultimately, designers — to craft calming, restorative, efficient, and beautiful spaces. With versatile storage options and a contemporary palette, Forge is the central hub for uniting people and making work seamless in healthcare settings and beyond.

meet Forge.

SOLUTIONS TO ENHANCE CARE.

Providing the caregiver with a highly functional work area that allows for integrated solid surface sinks, flexible waste solutions, and easily-cleanable materials is essential. These materials, in calming, soothing tones and natural woodgrains, mean caregivers can focus on their primary objectives.

Create touchdown stations of any size and configuration with the use of Forge worksurfaces, available by the inch. Our savvy customer support team, with decades of project management experience, is committed to supporting designers every step of the way, from spec to installation.

GRACEFUL UTILITY + TRANQUIL RETREATS.

Transform a simple breakroom or kitchen into a beautiful space that provides relaxation and release. With features like soft-close doors and drawers, integrated waste cabinets, microwave shelves, and continuous toe kicks, you ensure that design choices are not sacrificed in creating elegant, purposeful spaces.

SECURITY IN SCALABILITY.

Forge offers an array of locker solutions to fit all needs. Options like keyless locks to secure your belongings while away and the generous design flexibility and scalability necessary to optimize storage requirements, provide the perfect solution.
