Vision Quickship Product Information

JSI offers select Vision models, with select options, in our Quickship program. These items ship within 10 business days after receipt of a clean, credit approved purchase order. Items should be placed on order separate from standard lead time models.

Product for up to 10 offices of Vision can be included on a single Quickship order. Available capacity is filled by orders as they are received. If normal 10 day Quickship is not available because capacity has been filled, you will be immediately notified by JSI customer service. Changes and cancellations to Quickship orders are not allowed under any circumstances, nor are modifications to the predetermined Quickship offering. Limit one order per project.

A separate quickship catalog is available on the 20/20 Technologies through the CAP and Giza Platforms, as well as through Spec by Configura. Available product can also be specified from the Quickship tab on JSI's CET extension.

Vision Quickship Product Information

Veneer

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Vision product line. To attain a pleasing, symmetrical pattern, all cherry, and walnut veneers in Vision Quickship are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

Book-Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book

Vision Quickship is available in cherry and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

WorkSurface Construction

Veneer worksurfaces have a 3-ply balanced construction. The tops are 1 $\frac{3}{16}$ " thick with solid matching hardwood edges.

Finish - Stain/Colors

We offer a variety of wood stains on Vision. Samples are available upon request.

The chart below lists the veneers available on the Vision product for quickship.

ESS Essentials Veneer Collection

BRK	Brickdust	MIN	Mineral
CSK	Cask	MCH	Mocha
CLY	Clay	OBK	Outback
FAW	Fawn	PIL	Pilsner
FLN	Flint	UMB	Umber
LOF	Loft	VAL	Valley
MES	Mesa		

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety- Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe. **Quality-** Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood. **Durability-** Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Finish Sheen

All veneer finishes, available in quickship, are standard in 35-sheen.

Laminates

Vision Laminate features TFL (thermally fused laminate) chassis and components.

Edges of the worksurface are impact resistant (PVC) on TFL tops. The wood grain laminate (Brickdust, Cask, Clay, Fawn, Flint, Loft, Mesa, Mineral, Mocha, Outback, Pilsner, Umber or Valley) features an embossed grain to hide finger prints and light scratches. The solid laminates (Black, Bridal Blanco, Designer White or Slate Grey) are smooth to the touch with a semi-matte finish. All Vision Laminate products are indoor-air certified by GreenGuard.

The chart below lists the laminates available on the Vision product for quickship.

TFL - Laminates

BLK	Black	MES	Mesa
BRK	Brickdust	MIN	Mineral
BBL	Bridal Blanco	MCH	Mocha
CSK	Cask	OBK	Outback
CLY	Clay	PIL	Pilsner
DWH	Designer White	SLG	Slate Grey
FAW	Fawn	UMB	Umber
FLN	Flint	VAL	Valley
LOF	Loft		

WorkSurfaces

Laminate worksurfaces have a 3-ply balanced construction. Tops are 1 $\frac{3}{16}$ " thick with coordinating PVC edges. Primary worksurfaces feature 3mm PVC edges on the approach and user sides.

Bridge, return, credenza worksurfaces are profiled with a 3mm PVC edge on the user side only. Remaining edges are banded with 1mm PVC which creates a seamless appearance when units are mated end-to-end or back-to-back.

TFL features on Main Worksurfaces*

- fused to the 45 pound density substrate of the top for a durable wear resistance surface
- tops are laminated on both sides

Vision Quickship Product Information

Case Construction

Panels for chassis consist of a ¾" thick substrate with TFL surfaces and PVC bands on exposed edges. Pedestals and cabinets are constructed with dowels reinforced with screws, and metal fasteners for increased stability.

Tops are secured to the chassis with screws through pre-bored stretcher rails and pocket holes.

Cabinet doors have 110° swing hinges to allow adequate access into the interior of the cabinet.

Drawers

The unidirectional V- Fold drawer box is a durable miter-fold drawer structure which is glued and doweled. The ½" thick drawer sides are wrapped in a high grade maple vinyl, with an attached front. The drawer front is attached to the four sided box.

Drawer Suspension

High quality black drawer suspension carries a lifetime warranty. File and box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear and positive, cushioned in/out stops.

Filing Hardware

All file drawers are constructed with a custom designed filing system for hanging folders.

Locking

All desks, returns, credenzas, lateral files and storage towers offer optional pedestal front locking to provide maximum security and flexibility in configuration. Up-charge applies.

When locks are ordered, units are shipped randomly keyed. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Pedestal Configuration

Single pedestal desks have one box/box/file pedestal. Double pedestal desks have a box/box/file pedestal on the left side and file/file pedestal on the right side. Returns are configured with either file/file or box/box/file pedestals. Credenzas are configured with file/file pedestals.

Overhead Construction

Veneer models are unfinished on the back side and fasteners are visible on the back of unit. Laminate models have visible fasteners on the back of unit.
