Task and Guest Chairs		7

How to Specify

As a standard procedure, KI applies seating upholstery as swatched by the textile distributor. Reference distributor’s website. Upholstery that is required to be applied differently than is swatched, will need a Product Modification Request written specifying the direction the upholstery is to be applied.

Seating upholstery requiring specific positioning of intricate patterns or patterns repeats on seats and backrests, will need a Product Modification Request written including a sketch noting the specific requirements, as in Diagram A.

When directional or patterned fabrics are used, they often require more yardage than solid colors.

C.O.M. must be supplied in continuous yardage.

C.O.M. yardage requirements accompanying products in the pricing section are for 10 chairs/seats or less, 54" wide nondirectional material. On larger orders, less material is required.

Leather hides must be a minimum of 50 square feet of usable material. The outer edges cannot be calculated as square feet or yardage. To determine square footage, multiply unit yardage by 18 square feet to obtain the total square footage required per unit.

For exact production yardage requirements, call 1-800-424-2432, ext. 2707.

Production

Customer’s upholstery must be approved prior to acceptance for production.

After approval, a memo swatch of the C.O.M. from the textile distributor must accompany the order. KI assumes no responsibility for wear, defects, or performance of C.O.M. upholstery.

C.O.M. not received into the appropriate facility 3 weeks prior to acknowledged delivery date may go on hold. See KI C.O.M. Shipping Location listing for the correct facility address by product.

Testing

When KI requires testing, actual yardage to upholster one chair may be required. The C.O.M. Specialist will confirm model and fabric testing requirements when applicable.

Approved test samples will be applied to the order or will be held for 6 months. After 6 months, the sample will no longer be applied to your order. For all product testing, send fabric samples to the manufacturing facility. See KI C.O.M. Shipping Location listing for the correct facility address by product.

All C.O.M. must be labeled with the KI product order number and customer purchase order number.

Treated Materials

If C.O.M. requires processing such as a stain resistance treatment or acrylic backing, it may shrink. To prevent delays in delivery or back ordering due to shrinkage, please have your processor verify measurement after processing and assure adequate yardage shipped.

Split Orders

If a portion of the shipment which does not require C.O.M. application is to be processed and shipped early, KI will enter the order immediately at your request. These split shipments are subject to minimum order changes.

Excess Upholstery Material

KI will dispose of excess upholstery material at the time of shipment unless expressly requested to return it with the product shipment.

Cancelled or Changed Orders

KI assumes no responsibility for extra C.O.M. due to a change of upholstery or cancellation of an order. If it the customer’s responsibility to arrange for return of the material.

Contact the C.O.M. Specialist at 1-800-424-2432, ext. 2707, with questions or to request a split order.

INFORMATION

C.O.M. Testing and Production Requirements

Not all materials are suitable for upholstering this product. A 1 yd. x 54" sample must be submitted and approved prior to acceptance of an order. If the fabric is directional in pattern or weave, the direction must be indicated on the submitted sample, and additional yardage may be requested.

Test sample must be sent to:

KI
Attn: C.O.M. Storage
1687 Westminster Drive - Gate 3
Green Bay, WI 54302

Fabric Disclaimer

Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Product Modification Request written specifying the direction the fabric is to be applied.

INFORMATION

Warranty

Refer to KI Terms & Conditions document or visit ki.com

Backrest and Mesh Seat

Reinforced nylon frame with mesh material. **SoSoft** mesh material is 65% polyester and 35% nylon. Integral polypropylene lumbar support mechanism is easily adjusted by the user within a 3" range.

Optional Upholstered Seat

Nylon seat structure with two layers of polyurethane foam with a fabric cover held in place with staples.

Mechanism

Stamped steel mechanism provides for sturdy seat and back mounting. Height-adjustable pneumatic cylinder is actuated by a control lever beneath the seat - seat height adjusts from 18" to 22 1/2". Back lock mechanism provides five back positions. Tension control knob adjusts the tension recline force. Spring-loaded seat slide mechanism controls seat-depth adjustment in five positions through a distance of 1.5" and is side-mounted for easy use. Synchronized 2:1 seat/back tilt mechanism has movement of 8 degrees on the seat and 16 degrees on the back.

Arms

Adjustable T-arms have black urethane arm caps. Arm caps move forward/backward in five positions through 1.5". Arm cap width adjusts in five positions through 1". Arm support width can be set between 18.5" and 19.5" at assembly. Arm rest height adjusts in eleven positions through 2.75". Arm caps rotate in three positions (+/- 20 degrees).

Base

Standard 26" diameter, five-blade, reinforced nylon base, black only. Optional 26" diameter polished aluminum five-blade base.

Casters

Double 65 mm diameter black wheels are molded of reinforced plastic. Hard floor or carpet casters are available.

Weight Capacity

Passes BIFMA x5.1-2011 and KI's internal standard testing for 300-pound capacity.

Task Stool

In addition to the standard-height unit described above, a stool-height version is available. Stools are equipped with a pneumatic cylinder allowing adjustment of seat height from 21 1/4" to 29". Task stools receive a twist-to-lock, adjustable-height, 20" diameter chrome-plated steel foot ring with black, diecast aluminum hub and spokes. Stools are available with black or polished aluminum base. Spring-loaded seat slide mechanism controls seat-depth adjustment in 4 positions through a distance of 1.25" and is side-mounted for easy use.

DIMENSIONS

STATEMENT OF LINE - task chairs and task stools available with mesh seat and mesh back or with upholstered seat and mesh back - with adjustable T-arm or armless (Sift guest chair also available)

Base Color

- Aluminum baseA
- Black plastic baseP

Aluminum base requires an upcharge.
