

IMAGINASIUM™

Blocks and Blips

PLAYFUL, ADAPTABLE EARLY LEARNING SPACES

Imaginasium Blocks and Blips support play-based and experiential learning. Young learners (pre-K to 2) move as they learn – up, down and all around as they immerse themselves in the spaces around them. Blocks and blips are made of soft, lightweight foam that is scaled for these young learners. Modular blocks are easy to maneuver and configure. Use them to divide learning spaces, create impromptu gathering nooks or “show and tell” about shapes. Easy-to-clean, high-performance vinyl with reinforced seams and industrial-grade zippers ensure that Imaginasium Blocks and Blips stand up to wear and tear.

Playful, comfortable alternative to traditional chair and desk.

Tiered seating provides clear sight lines and condensed group seating.

IMAGINASIUM STATEMENT OF LINE

Imaginasium Blocks are designed in increments of 11" for modular configurability. Blocks are available in three shapes: I, L, and V; as well as bundles that consist of two I, two L and four V shapes. Bundles store as a cuboid for efficient space usage. Imaginasium Blips are ideally sized at a 16" diameter, have handles for carrying and stack 10 high in a mobile caddy.
