Ordering Customer's Own Material (C.O.M.) Upholstery
Information

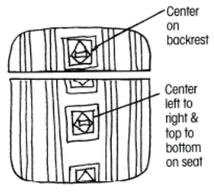
Ordering Customer's Own Material (C.O.M.) Upholstery
Information

How to Specify

As a standard procedure, KI applies seating upholstery as swatched by the textile distributor. Reference distributor's website. Upholstery that is required to be applied differently than is swatched, will need a Product Modification Request written specifying the direction the upholstery is to be applied.

Seating upholstery requiring specific positioning of intricate patterns or patterns repeats on seats and backrests, will need a Product Modification Request written including a sketch noting the specific requirements, as in Diagram A.

Diagram A



When directional or patterned fabrics are used, they often require more yardage than solid colors.

C.O.M. must be supplied in continuous yardage.

C.O.M. yardage requirements accompanying products in the pricing section are for 10 chairs/seats or less, 54" wide nondirectional material. On larger orders, less material is required.

Leather hides must be a minimum of 50 square feet of usable material. The outer edges cannot be calculated as square feet or yardage. To determine square footage, multiply unit yardage by 18 square feet to obtain the total square footage required per unit.

For exact production yardage requirements, call 1-800-424-2432, ext. 2707.

Production

Customer's upholstery must be approved prior to acceptance for production.

C.O.M. not received into the appropriate facility 3 weeks prior to acknowledged delivery date may go on hold. See KI C.O.M. Shipping Location listing for the correct facility address by product.

Testing

When KI requires testing, actual yardage to upholster one chair may be required. The C.O.M. Specialist will confirm model and fabric testing requirements when applicable.

Approved test samples will be applied to the order or will be held for 6 months. After 6 months, the sample will no longer be applied to your order. For all product testing, send fabric samples to the manufacturing facility. See KI C.O.M. Shipping Location listing for the correct facility address by product.

All C.O.M. must be labeled with the KI product order number and customer purchase order number.

Treated Materials

If C.O.M. requires processing such as a stain resistance treatment or acrylic backing, it may shrink. To prevent delays in delivery or back ordering due to shrinkage, please have your processor verify measurement after processing and assure adequate yardage shipped.

Split Orders

If a portion of the shipment which does not require C.O.M. application is to be processed and shipped early, KI will enter the order immediately at your request. These split shipments are subject to minimum order changes.

Excess Upholstery Material

KI will dispose of excess upholstery material at the time of shipment unless expressly requested to return it with the product shipment.

Cancelled or Changed Orders

KI assumes no responsibility for extra C.O.M. due to a change of upholstery or cancellation of an order. If it the customer's responsibility to arrange for return of the material.

Contact the C.O.M. Specialist at 1-800-424-2432, ext. 2707, with questions or to request a split order.

INFORMATION

Fabric Disclaimer
Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Special Cost Request written specifying the direction the fabric is to be applied. The posted standard lead time will apply to the Special Cost Request.
Inc. under license from Pro-Cord S.p.A

C.O.M. Testing and Production Requirements
Not all materials are suitable for upholstering this product. A 1 yd. x 54" sample must be submitted and approved prior to acceptance of an order. If the fabric is directional in pattern or weave, the direction must be indicated on the submitted sample, and additional yardage may be requested.
Test samples must be sent to:

Grazie® Stack Seating
General Information

Backrest, Seat, and Shroud
Injection-molded polypropylene.

Optional Upholstered Seat and Back
Urethane foam is attached to an injection-molded polypropylene liner board, then upholstered using a draw-string process. Seat foam is molded nominal 1" thickness, and back foam is nominal 1/2" thickness. The flush-head fasteners that attach the back pad are color-matched to the polypropylene.

4-leg and Caster Frames
Legs are made from 7/8" OD x 13-gauge tubular steel. A double ring of 7/16" diameter steel wire forms the crossmember. The fixed backrest mechanism structure is formed of 1/2" diameter steel wire. All joints are welded.

Sled Frames
Sled side frames are made from 3/4" OD x 13-gauge tubular steel. A double ring of 7/16" diameter steel wire forms the crossmember. The fixed backrest mechanism structure is formed of 1/2" diameter steel wire. All joints are welded.

Frame Finishes
Frames are finished in either baked-on electrostatically-applied 30-degree gloss epoxy powder-coat paint, or bright nickel-chrome plating.

Backrest Articulation Mechanism
Two outer backrest supports formed from 1" diameter tubular steel are inserted into sockets molded into the backrest, and secured with screws. The backrest assembly moves over molded thermoplastic slide bushings and is supported by steel coil springs. This mechanism allows the backrest to move through 15 degrees of movement, about an axis of rotation that is through the hips of the occupant.

Arms
Optional cantilever arms are available. When equipped with arms, the support structure is a continuation of the rear leg, finished to match the frame color. The armrests are injection-molded glass-reinforced nylon. Arm color matches the frame finish, (except chrome, hammertone, and metallic finishes; which match the poly color). Diamond translucent poly has Light Tone arms. Pewter translucent poly has Flannel arms. The steel frame tube is inserted into a socket molded into the armrest, and secured with a screw.

Glides

4-Leg Chairs
The bottom ends of the tubes are formed to be vertical where they meet the floor, and the glides are pressed into them. Three glide options are available; felt, plastic, and steel. Felt and plastic glides have a swivel base and have easy-on/easy-off replaceable caps, which makes field replacement simple and efficient (plastic & felt caps are interchangeable). Steel glides have a non-swivel base and do not have interchangeable caps. No color options are available for glides.

Sled Base Chairs
Four glide options are available; non-skid, plastic, steel, and felt. Glides are attached to the chair frame with one screw each. All glides have easy-on/easy-off replaceable caps, which makes field replacement simple and efficient. All caps are interchangeable. No color options are available for the glides. Sled base chairs may also be ordered without glides.

Casters
4-leg chairs may be ordered with casters instead of glides. Casters are double-wheel high-impact thermoplastic, available with hard or soft wheel surface, in black only.

Transport Dolly
Frame construction is welded tubular steel with black powder-coated finish and 5" wheels (two swivel and two fixed). The dolly fits 4-leg or sled base chairs and has a capacity of twelve poly chairs or six upholstered chairs.

Flip-up Tablet Arms
Tablet arm support loop is a continuation of the rear leg and is available in left- or right-handed models. A formed steel hinge is welded to the top of the support structure, and secured with screws to the underside of the writing surface. Worksurface for standard tablet is 9 1/2" x 20 3/4" x 12 1/2" and optional oversized tablet is 15 1/2" x 22 1/2" x 14". Tablets have a plywood core of 5/8" thick, 11-ply hardwood, surfaced with .030" high-pressure laminate top and plain backer undersurface. Edges are lacquered and sealed.

Flip & Store Tablet Arms (G2)
The pivot mechanism consists of two pivot cams, two steel hinge barrels, a pivot shaft, and a hinged steel support plate which fastens to the tablet board. Available in right- and left-hand models. The tablet is 13 3/4" wide by 18 1/8" deep.

HOW TO ORDER

Indicate the following information on order form:
1. Quantity of each item.
2. Model number, including options. See "How To Build a Model Number".
3. Any special service required.

Note: • The □ indicates that a choice is required.
- The absence of the □ indicates that no choice is required.
- Alpha-numeric characters in place of □ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

Ⓐ Select basic model.

Ⓑ Select frame color.
Refer to the **Product Color Options** page in this price list.

Ⓒ Select poly seat and back color.
Refer to the **Product Color Options** page in this price list.

Ⓓ Select casters.

C	- Carpet casters (black only)
S	- Hard floor casters (black only)

Ⓔ Select glide option.

F	- Felt Glides
P	- Plastic glides
S	- Steel glides

Ⓕ Select fire code.

NFR	- Compliance to TB 117-2013
FR	- Compliance to TB 133

See Upholstery Information for TB133 upcharge

Ⓖ Select upholstery grade/color.
Refer to **ki.com/fabrics**

UPHOLSTERY INFORMATION

C.O.M. Upholstery

C.O.M. requirement for less than ten chairs is 1 yard of 54" wide nondirectional fabric. For ten or more chairs with an upholstered seat and back, the requirement is 3/4 yards. For an upholstered seat only, the requirement is 1/2 yards. For complete information on ordering C.O.M. see "Ordering Customer's Own Material (C.O.M) Upholstery." section.

California TB133 Fire Safety Code

For California Technical Bulletin 133 compliant models, add the following upcharge:
Model=Polypropylene
Added List Price=$13
Model=Upholstered Seat
Added List Price=$87
Model=Upholstered Seat and Back
Added List Price=$123

HOW TO ORDER

Indicate the following information on order form:
1. Quantity of each item.
2. Model number, including options. See "How To Build a Model Number".
3. Any special service required.

Note: • The ☐ indicates that a choice is required.
- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

Ⓐ Select basic model.

Ⓑ Select frame color.
Refer to the **Product Color Options** page in this price list.

Ⓒ Select poly seat and back color.
Refer to the **Product Color Options** page in this price list.

Ⓓ Select glide option.

NGL	- No glides
GFT	- Felt glides
GNM	- Non-marring glides
GNS	- Non-skid glides
GSS	- Stainless steel glide

Ⓔ Select tablet arm color.
Refer to the **Product Color Options** page in this price list.

Ⓕ Select fire code.

NFR	- Compliance to TB 117-2013
FR	- Compliance to TB 133

See Upholstery Information for TB133 upcharge.

Ⓖ Select upholstery grade/color.
Refer to **ki.com/fabrics**

UPHOLSTERY INFORMATION

C.O.M. Upholstery

C.O.M. requirement for less than ten chairs is 1 yard of 54" wide nondirectional fabric. For ten or more chairs with an upholstered seat and back, the requirement is 3/4 yards. For an upholstered seat only, the requirement is 1/2 yards. For complete information on ordering C.O.M. see "Ordering Customer's Own Material (C.O.M) Upholstery." section.

California TB133 Fire Safety Code

For California Technical Bulletin 133 compliant models, add the following upcharge:
Model=Polypropylene
Added List Price=$13
Model=Upholstered Seat

INFORMATION

Fabric Disclaimer
Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Special Cost Request written specifying the direction the fabric is to be applied. The posted standard lead time will apply to the Special Cost Request.
Inc. under license from Pro-Cord S.p.A

C.O.M. Testing and Production Requirements
Not all materials are suitable for upholstering this product. A 1 yd. x 54" sample must be submitted and approved prior to acceptance of an order. If the fabric is directional in pattern or weave, the direction must be indicated on the submitted sample, and additional yardage may be requested.
Test samples must be sent to:

KI
Attn: C.O.M. Specialist
1687 Westminster Drive - Gate 3
Green Bay, WI 54302

Design
Designed by Giancarlo Piretti and manufac-tured in the USA by Krueger International, Inc. under license from Pro-Cord S.p.A

KI Color Match Program
KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests, contact Customer Service for details.

Whatever you imagine, whatever you require. KI's Color Match program lets you pick your color!

Color Match Process - Poly Seating information can be found here.

Backrest, Seat, and Shroud
Injection-molded polypropylene.

Optional Upholstered Seat and Back
Urethane foam is attached to an injection-molded polypropylene liner board, then upholstered using a draw-string process. Seat foam is molded nominal 1" thickness, and back foam is nominal ½" thickness. The flush-head fasteners that attach the back pad are color-matched to the polypropylene.

Underseat Structure
Support structure is a die-drawn 12-gauge steel plate. Fixed backrest mechanism structures are made from ½" diameter steel wire and attached by welding. Structure is finished with baked-on electrostatically-applied 30-degree gloss epoxy powder-coating.

Backrest Articulation Mechanism
Two outer backrest supports formed from 1" diameter tubular steel are inserted into sockets molded into the backrest, and secured with screws. The backrest assembly moves over molded thermoplastic slide bushings and is supported by steel coil springs. This mechanism allows the backrest to move through 15 degrees of movement, about an axis of rotation that is through the hips of the occupant.

Tandem Base
Cast aluminum alloy foot section. Leg upright is 14-gauge 1" x 2" seamless steel column. Upright and foot are painted monochromatic with beam and yoke. Leg upright column is welded to a plate which clamps onto the beam with a yoke.

Tandem Arm
Oval tubular steel arm support with self-skinning urethane armrests measuring 10 1/4" long x 4" wide. The tubular arm support is welded to a yoke and then fastened to the beam via a coverplate.

In-Line Table
Solid core top is 20" x 20" x 7/8" with a vinyl bullnose edge.

Corner Table
Solid core top is 30" x 30" x 7/8" with a vinyl bullnose edge.

HOW TO ORDER

Indicate the following information on order form:
1. Quantity of each item.
2. Model number, including options. See "How To Build a Model Number".
3. Any special service required.

Note: • The □ indicates that a choice is required.
• The absence of the □ indicates that no choice is required.
• Alpha-numeric characters in place of □ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

Ⓐ Select basic model.

Ⓑ Select frame color.
Refer to the **Product Color Options** page in this price list.

Ⓒ Select seat/back color.
Refer to the **Product Color Options** page in this price list.

Ⓓ Select surface finish for table.
Refer to the **Product Color Options** page in this price list.

Ⓔ Select table edge color.
Refer to the **Product Color Options** page in this price list.

Ⓕ Select fire code.

NFR	- Compliance to TB 117-2013
FR	- Compliance to TB 133

See pricing column for TB133 upcharge.

Ⓖ Select upholstery grade/color.
Refer to **ki.com/fabrics**

OPTIONS

California TB133 Fire Safety Code
For California Technical Bulletin 133 compliant models, a Product Modification Request is required. Contact Customer Service for details.

INFORMATION

C.O.M. Testing and Production Requirements
Not all materials are suitable for upholstering this product. A 1 yd. x 54" sample must be submitted and approved prior to acceptance of an order. If the fabric is directional in pattern or weave, the direction must be indicated on the submitted sample, and additional yardage may be requested.

Test samples must be sent to:

KI
Attn: C.O.M. Specialist
1687 Westminster Drive - Gate 3
Green Bay, WI 54302

Fabric Disclaimer
Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Special Cost Request written specifying the direction the fabric is to be applied. The posted standard lead time will apply to the Special Cost Request.

Design
Designed by Giancarlo Piretti and manufac-tured in the USA by Krueger International, Inc. under license from Pro-Cord S.p.A

KI Color Match Program
KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests, contact Customer Service for details.

Whatever you imagine, whatever you require. KI's Color Match program lets you pick your color!

Color Match Process - Poly Seating information can be found here.

INFORMATION

Warranty
Refer to KI Terms & Conditions document or visit ki.com

Grazie® Task Seating
Technical Specifications

TECHNICAL SPECIFICATIONS

Backrest, Seat, and Shroud

Injection-molded polypropylene.

Optional Upholstered Seat and Back

Urethane foam is attached to an injection-molded polypropylene liner board, then upholstered using a draw-string process. Seat foam is molded nominal 1" thickness, and back foam is nominal ½" thickness. The flush-head fasteners that attach the back pad are color-matched to the polypropylene.

Underseat Structure

Support structure is a die-drawn 12-gauge steel plate. Fixed backrest mechanism structures are made from ½" diameter steel wire and attached by welding. Structure is finished with baked-on electrostatically-applied 30-degree gloss epoxy powder-coat paint.

Backrest Articulation Mechanism

Two outer backrest supports formed from 1" diameter tubular steel are inserted into sockets molded into the backrest, and secured with screws. The backrest assembly moves over molded thermoplastic slide bushings and is supported by steel coil springs. This mechanism allows the backrest to move through 15 degrees of movement, about an axis of rotation that is through the hips of the occupant.

Arms

Optional cantilever arms are available. When equipped with arms, a support structure is $^{7}/_{8}$" OD by 14-gauge tubular steel welded directly to the seat structure plate. The steel support tube is inserted into a socket molded into the armrest, and secured with a screw. Armrests are molded from glass-reinforced nylon. Arm color matches poly color. Diamond translucent poly has Light Tone arms. Pewter translucent poly has Flannel arms. Bronze translucent poly has Chocolate arms.

Base

26" injection-molded glass-reinforced nylon 5-blade base. A single paddle under the seat operates the height-adjusting pneumatic cylinder. Standard chair base and cylinder available in black or warm grey. Standard stool base available in black or warm grey. Standard stool cylinder availible in black only. An optional polished die-cast aluminum base is available on both chairs and stools.

Casters

Casters are double-wheel high-impact thermoplastic, available with hard (warm grey or black) or soft (black only) wheel surface.

Foot Ring

Task stools are equipped with a twist-to-lock, adjustable-height, 20" diameter chrome-plated steel foot ring with black, die-cast aluminum hub and spokes.

HOW TO ORDER

Indicate the following information on order form:
1. Quantity of each item.
2. Model number, including options. See “How To Build a Model Number”.
3. Any special service required.

Note: • The □ indicates that a choice is required.
- The absence of the □ indicates that no choice is required.
- Alpha-numeric characters in place of □ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

Ⓐ Select basic model.

Ⓑ Select base color.
Refer to the **Product Color Options** page in this price list.
*Add $112 for polished aluminum base.

Ⓒ Select poly seat and back color.
Refer to the **Product Color Options** page in this price list.

Ⓓ Select caster option.

C	- Carpet casters
S	- Hard floor casters (black only)

Ⓔ Select fire code.

NFR	- Compliance to TB 117-2013
FR	- Compliance to TB 133

See Upholstery Information for TB133 upcharge.

Ⓕ Select upholstery grade/color.
Refer to **ki.com/fabrics**

UPHOLSTERY INFORMATION

C.O.M. Upholstery
C.O.M. requirement for 10 chairs or less with upholstered seat or upholstered seat and back is 3/4 yard per chair of 54” wide nondirectional fabric. For orders of 11 or more with upholstered seat and back and for complete information on ordering C.O.M. see “Ordering Customer’s Own Material (C.O.M) Upholstery.” section.

OPTIONS
