Description	Modification #
Drafting Table	20-271059-00
Drawer	S20272533
Storage	S20270647

Drafting Possibilities – Pillar Drafting Table has an upper surface supported by a gas cylinder for easy adjustment of 0-50 degrees with 14 position options. Seamlessly transition from flat table to inclined drafting table with no tools or maintenance needed. The ample worksurface size provides the space needed for larger projects.

Creative Options – Enjoy design continuity with our Pillar Tables comprehensive line. An optional drawer or storage unit keeps supplies within arms reach. The removable footrest allows you to draft comfortably while standing or sitting.
