Pillar® Tables

March 2023

TECHNICAL SPECIFICATIONS

Tabletops

Standard Tabletops
Standard tabletops are nominal 1 1/4" overall thickness with .030" thick high-pressure laminate top surface and .028" phenolic backer (bottom surface). The density of the core in standard tops is 45 lb/cu ft particleboard, M3 grade. The Pillar Table is available with the 2 mm (74P) edge.

90° Outside Curve Tabletops
Outside curve tabletops are nominal 1 1/4" overall thickness with .030" thick high-pressure laminate top surface and .028" phenolic backer (bottom surface). The density of the core in outside curve tops is 45 lb/cu ft particleboard, M3 grade. The tabletop is available with the 2 mm (74P) edge. This outside curve is supported at the underside, between two tables of equal depth by four 11-gauge (.125" thick) splice plates. While secured between two tables, no leg is required to support the tabletop.

Leg Assembly
Leg assemblies come in three variations to accommodate three overall table heights: 29" standard, 36" standard and 42" standing height depending on the table shape. The leg construction consist of a 2 1/4" O.D., 14-gauge steel tubing welded to a 1/4" thick 8" x 8" steel plate. A 1/4" thick steel insert is welded in the bottom of each leg tube with a 1/2-13 UNC threaded hole where the casters or glides attach. The legs are attached to the tabletop using #12 x 1" screws. Casters and glides are shipped in separate cartons and must to be installed upon assembly of the table.

Casters & Glides
Each table includes either casters or glides. Each caster table includes a set of locking and non-locking wheel casters. Casters are made of molded nylon and come in two colors. Glides are black nylon, overmolded on a steel insert for strength. Glides and casters are not interchangeable without changing the table height. Caster wheels are a minimum of 2 7/16" (63 mm) diameter. Caster wheel treads are a medium hard (75 max Shore A) for easy mobility on carpet or hard floors. Glides have a smooth bottom surface for mobility. Glides have a height adjustment range of 1" to allow for uneven surfaces.

Ganging Mechanism
Molded of black, high-strength nylon, the hook and peg combination draws tables together back-to-back or side-by-side. Once the ganging mechanism is installed, no tools are required when joining tables. Gangers are self-storing under the table when not in use. Tops are pre-drilled for placement of ganging pegs. Two gangers, four pegs and all mounting screws are included in the kit. One kit per table joint is required. Field installed.

Wire Management

Wire Trough
The wire trough is a cord management accessory that is provided with the Pillar table if Pattern electrical components are specified with the order. If the Pillar table is specified with any 3-prong plug module unit, then a wire trough must be ordered separately. Constructed of 18-gauge steel with a powder-coated finish in all KI standard finishes. Screws are provided for attachment to the underside of the tabletop, and tops are pre-drilled for wire trough locations. Provides multiple access holes to feed wires, and includes cutouts for installation of additional Pattern snap-in RPT power modules.

Vertical Leg Wire Management
A color matched extrusion made of aluminum "snaps" to the Pillar leg, managing cables and wires exiting power modules or standard grommets installed on the tabletop. The extrusion is 12" long. Vertical wire managers are included when powered Pillar tables are ordered.

TECHNICAL SPECIFICATIONS

Wire Management (cont.)

Velcro® Wire Management
The Velcro wire manager is constructed of 2" x 4 1/2" Velcro hook and loop material with a looped pull tab. The wire manager is provided with adhesive backing and screws for attachment to the underside of the top. Tops are pre-drilled for locating wire manager, but the manager may be applied in any convenient location. One or two Velcro wire managers are included when Pattern power modules are ordered, and wire clips are provided when power modules with 3-prong plugs are ordered. Field installed.

Grommets

Flip-Top Grommets for Dean® & Nacre® Power Modules
Flip-top grommets are surface-mounted covers, constructed of 18-gauge steel. Grommets have a flip-up receding door and are identical in cutout size to the Nacre or Dean power modules listed below, which allows for retrofitting corresponding power modules at a later date. One grommet ships per table, which is located in the center of the tops. Two grommets ship per conference table, which are located near the center of the tops. Grommets are finished with powder-coat paint and available in all KI paint colors. The flip-up door is designed to allow cords to remain routed through the opening while it is closed and allows for more cord routing space when the flip-up door is opened. Field installed.

Circular Grommet for Node® Power Module
The Node circular grommet is an open top, surface-mounted grommet constructed of aluminum. The overall diameter of 3.15" fits into a 3" diameter cutout in the surface. One grommet ships per table, which is located in the center of the tops. Two grommets ship per conference table, which are located near the center of the tops. Grommets are finished with powder-coat paint and available in all KI paint colors. Not available in chrome. Field installed.

Power Modules

Dean In-Surface Power Module
Dean In-Surface power module consists of two simplex receptacles (rated at 15 amps/125 volts), one USB-A port and one USB-C port, 2 amps per port, and one data jack opening. The module can be modified to fit various brand jacks. Data tree ships with Dean in-surface power modules. Data connectors are not supplied with the module and are purchased by the customer. The Dean in-surface module is 8.12" long by 2.31" wide by 2.5" high and fits securely into a 7.81" x 1.93" cutout. Module is mechanically attached to the worksurface with screws from the underside. The module has a molded plastic faceplate with steel trim and an aluminum housing. Modules comes standard with either 9' or 15' cord with a 3-prong plug, or a 20" cord with a Pattern™ connector. A 40" cord option is available for larger conference tables with two power modules. Dean power module is rated at 15 amps/120 volts and is UL listed.

Dean Clamp-On Power Module
Dean clamp-on power module consists of two simplex receptacles (rated at 15 amps/125 volts), one USB-A and one USB-C port, 2 amps per port. Dean clamp-on module Is 5.50" long by 3.06" wide by 3.38" high. The module has a smooth molded plastic faceplate with an anodized aluminum housing. Clamp-on mounting style positions the module at a right angle to the worksurface and uses two thumb screws for attachment, without the need for table cutouts. Clamp is 3" wide, extends 1 3/4" onto edge of surface and can accommodate a maximum surface thickness of 1 1/2". Modules come standard with either 3', 9' or 15' cord with a 3-prong plug, or a 40" cord with a Pattern connector. Dean power module is rated at 15 amps/120 volts and is UL listed.

Dubbel™ Undersurface Power Module
Dubbel undersurface module consists of two simplex receptacles (rated at 15 amps/125 volts), one USB-A port and one USB-C port, 2 amps per port. Dubbel is 7.63" wide by 1.75" tall by 5.25" deep. The module is made of molded plastic and secures under the worksurface with two 5/16 x 2" Phillips round-head screws. Modules come standard with either 3', 9' or 15' cord with a 3-prong plug, or a 40" cord with a Pattern connector. Dubbel power module is rated at 15 amps/120 volts and is UL listed.

TECHNICAL SPECIFICATIONS

Power Modules (cont.)

Nacre Pop-Up In-Surface Module
Nacre Pop-Up In-Surface consists of two simplex receptacles (rated at 15 amps/125 volts), one USB-A port and one USB-C port, 2 amps per port, and one data jack opening. The module can be modified to fit various brand jacks. Data tree ships with Nacre power modules. Data connectors are not supplied with the module and are purchased by the customer. Nacre is 7.25" long by 3.31" wide by 2.92" high and fits securely into a 6.94" x 3" cutout with .38" radius corners. The module is made of molded plastic. The module is a pop-up design with a dampened spring-loaded mechanism to allow the unit to smoothly open for use and close smoothly when not in use. Modules come standard with either 9' or 15' cord with a 3-prong plug, or a 20" cord with a Pattern connector. A 40" cord option is available for larger conference tables with two power modules. Nacre power module is rated at 15 amps/120 volts and is UL listed.

Node® In-Surface Power Module
Node In-Surface power module consists of one simplex receptacle (rated at 15 amps/125 volts), includes one USB-A port, and one USB-C port, 2 amps per port. Node is 3.38" in diameter by 3.30" tall fits and securely into a 3" diameter cutout. The module housing is made of plastic with a powder-coat painted aluminum faceplate. Modules come standard with either 9' or 15' cord with a 3-prong plug, or a 20" or 40" cord with a Pattern connector. Node power module is rated at 15 amps/120 volts and is UL listed.

Snap-In RPT Power Module
Snap-In RPT module is only available for use with Pattern™ electrical system. Snap-in module consists of two simplex receptacles (rated at 15 amps/125 volts). Snap-in RPT fits securely in user facing cutouts located on the wire trough, mounted under the table. Modules comes standard with a 20" or 40" pattern connector, rated at 15 amps/120 volts and is UL listed.

Pattern Electrical System
Select Pillar table models can be configured with Pattern electrical system. The Pattern electrical system is ETL Listed, evaluated to safety standard UL 962A (USA) and CAN/CSA-C22.2 No. 308 (Canada). It allows for a maximum up to ten distribution blocks and up to 50' of power jumpers from the power infeed (in either direction), whichever comes first. Pattern allows up to eighteen power modules depending on table width, and connects to one 15-amp power supply cord (power infeed with 3-prong plug). Pattern is a non-sequential system and the infeed is compatible with ground fault interrupter (GFI/GFCI) outlets. Power modules for Pattern are specified as an option on Pillar tables.

Pattern Power Distribution Blocks
Pattern power distributions blocks are standalone connectors, each containing four port locations. Distribution blocks are included with appropriate power jumper and power infeed kits, so do not need to be ordered separately. Distribution blocks bring the power infeed, power jumpers, and power modules together and allow power to be efficiently supplied to each table. Two distribution block types are included with the Pattern system, grey and white.

Pattern Table-to-Table Power Jumper Kits
Pattern table-to-table jumper power kits come with one grey distribution block and an appropriately sized power jumper. Jumpers are nonsequential and are keyed on each end to connect between distribution blocks. Table-to-table power jumper kits are ordered separately, according to layout configuration.

Pattern Power Infeed Kits
The Pattern power infeed kit must be ordered separately. Site configurations vary and will affect the number of power infeeds required. The number and size of tables, as well as the number of receptacles per table and amperage needs in each ganging configuration will determine the number of power infeed kits required at any given installation. Infeeds can be installed anywhere in the run.

Kit comes with one grey Pattern power distribution block, one 12" power jumper, one white Pattern power distribution block and Pattern power infeed cord. Power infeed consists of a 15-amp 3-prong plug on one end of the 108" cord and a keyed connector at the opposite end of the cord. A Pattern quick-release tool is also included to assist with disconnecting connector ends from distribution blocks.

TECHNICAL SPECIFICATIONS

Modesty Panels
Optional 10" modesty panels are available on select Pillar models and available in perforated steel or laminate.

Laminated Modesty Panel
Laminated modesty panels have a .685" overall thickness with .30" thick high-pressure laminate on front and back surfaces. The density of the core inside the panel is 45 lb/cu ft particleboard, M3 grade. Modesty panels are 10" tall and vary in shape depending on the table it is paired with. On 48" wide rectangle tables, the modesty panel is 47³/₄" wide. On 90° inside curve tables, the modesty panel has a 54" radius, with an arc length of 85", so it can follow the curve of the back edge of the table. On 90° outside curve tables, the modesty panel has a 27¹/₂" radius, with an arc length of 38". The laminate is color matched to the tabletop. The modesty panel mounts to the table using 14-gauge (.075" thick) formed steel brackets, secured to the underside of the table.

Perforated Steel Modesty Panel
Panels are constructed of 14-gauge (.075" thick) by 10" tall perforated steel with powder-coated paint matched to the leg color. On 48" wide rectangular tables, the modesty panel is 47³/₄" wide. On 90° inside curve tables, the modesty panel has a 54" radius, with an arc length of 85", so it can follow the curve of the back edge of the table. On 90° outside curve tables, the modesty panel has a 27¹/₂" radius, with an arc length of 38". The modesty panel mounts to the table using 14-gauge (.075" thick) formed steel brackets, secured to the underside of the table.

Note: When specifying a perforated steel modesty panel on a table with chrome legs, the modesty panel will be flannel.

Polyester Felt Modesty Panel
Polyester felt modesty panels are constructed from a sound-absorbing, 100% polyester felt. The panels have a density of 0.5 lb/ft² and is sound absorbing tested to ASTM C423 with an NRC rating of .44 when using no air gap (A-Mount testing method) and an NRC rating of .81" with 2" air gap. The polyester felt is in accordance with ASTM-E84 and achieve a Class A Flame Spread. Standard sizes are 9¹/₄" high on 29" high tables, or 15" high on 36" and 42" high tables by 29", 35", 41", 47", 53", 59" and 65" wide.

Mounting Hooks
The mounting hooks are 18-gauge steel and attach underneath the tabletop using two steel screws. Panels 29", 35", 41" and 47" wide use two hooks per panel. Panels 53", 59" and 65" wide use three hooks per panel.

FINISH INFORMATION

Additional Laminate Offering
KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturer's name, color/ pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested through the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

Color Match
KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact customer service for details.

FINISH INFORMATION

Additional Laminate Offering
KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturer's name, color/ pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested through the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

Color Match
KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact customer service for details.

HOW TO ORDER

Indicate the following information on order form:
1. Quantity of each item.
2. Model number, including options. See "How To Build a Model Number".
3. Any special service required.

Note: • The ☐ indicates that a choice is required.

• The absence of the ☐ indicates that no choice is required.

• Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

Ⓐ Select basic model.

Ⓑ Select edge style.
- **74P** - 74P edge

Ⓒ Select power option.
- **NNN** - No grommets, power or wire management/No cutouts
- **WMO** - Wire management only-no cutouts; add $66
- **MD1** - Module, Dean in-surface w/USB-A/C (1) ; add $354
- **MB1** - Module, Dubbel under-surface w/ dual USB-A/C (1); add $264
- **MA1** - Module, Nacre pop-up w/USB-A/C (1); add $420
- **MO1** - Module, Node in-surface w/USB-A/C (1) ; add $264
- **GA1** - Grommet, Nacre (1); add $209
- **GD1** - Grommet, Dean (1); add $209
- **GO1** - Grommet, Node (1); add $144

CORD LENGTH: 9' or 15' is optional on all module options.

WIRE MANAGEMENT: All options except NNN include vertical and horizontal wire management.

Ⓓ Select modesty panel.
- **NMP** - No modesty panel
- **PMP** - Polyester felt modesty panel; add $265

Ⓔ Select edge color.
Refer to the **Product Color Options** page in this price list.
Edge color offerings are based on edge style selections.

Ⓕ Select surface finish.
Refer to the **Product Color Options** page in this price list.

Ⓖ Select leg finish.
Refer to the **Product Color Options** page in this price list.

Ⓗ Select grommet/module color.

Refer to the **Product Color Options** page in this price list.

Ⓘ Select modesty panel color.
Refer to the **Product Color Options** page in this price list.

Ⓙ Select base.
- **CST** - Casters
- **GLD** - Glides

Casters=2 locking/2 non-locking, black wheel, silver hub

Ⓚ Select Cord Length (feet).
- **15** - 15' cord length
- **9** - 9' cord length

FINISH INFORMATION

Additional Laminate Offering
KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturer's name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested through the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

Color Match
KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact customer service for details.

FINISH INFORMATION

Additional Laminate Offering
KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturer's name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested through the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

Color Match
KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact customer service for details.

FINISH INFORMATION

Additional Laminate Offering
KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturer's name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested through the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

Color Match
KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact customer service for details.

HOW TO ORDER

Indicate the following information on order form:
1. Quantity of each item.
2. Model number, including options. See "How To Build a Model Number".
3. Any special service required.

Note: • The ☐ indicates that a choice is required.
• The absence of the ☐ indicates that no choice is required.
• Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

Ⓐ Select basic model.

Ⓑ Select edge style.
   74P - 74P edge

Ⓒ Select power option.
   NNN - No grommets, power or wire management/No cutouts

Ⓓ Select modesty panel.
   NMP - No modesty panel

Ⓔ Select edge color.
   Refer to the **Product Color Options** page in this price list.
   Edge color offerings are based on edge style selections.

Ⓕ Select surface finish.
   Refer to the **Product Color Options** page in this price list.

Ⓖ Select leg finish.

Refer to the **Product Color Options** page in this price list.

Ⓗ Select base.
   CST - Casters
   GLD - Glides
   Casters=2 locking/2 non-locking, black wheel, silver hub

FINISH INFORMATION

Additional Laminate Offering
KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturer's name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested through the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

Color Match
KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact customer service for details.

FINISH INFORMATION

Additional Laminate Offering
KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturer's name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested through the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

INFORMATION
Contact KI Customer Service for specific models that are UL listed.

Color Match
KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact customer service for details.

FINISH INFORMATION

Additional Laminate Offering
KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturer's name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested through the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

INFORMATION
Contact KI Customer Service for specific models that are UL listed.

Color Match
KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact customer service for details.

HOW TO ORDER

Indicate the following information on order form:
1. Quantity of each item.
2. Model number, including options. See "How To Build a Model Number".
3. Any special service required.

Note: • The ☐ indicates that a choice is required.
   • The absence of the ☐ indicates that no choice is required.
   • Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

Ⓐ Select basic model.

Ⓑ Select edge style.
   74P - 74P edge

Ⓒ Select power option.
   NNN - No grommets, power or wire management/No cutouts
   WMO - Wire management only-no cutouts; add $66
   MA2 - Modules, Nacre pop-up w/USB-A/C (2); add $839
   MB2 - Modules, Dubbel under-surface w/ dual USB-A/C (2); add $528
   MD2 - Modules, Dean in-surface w/USB-A/C (2) ; add $707
   MO2 - Modules, Node in-surface w/USB-A/C (2); add $528
   GA2 - Grommets, Nacre (2); add $408
   GD2 - Grommets, Dean (2); add $408
   GO2 - Grommets, Node (2); add $276
   CORD LENGTH: 9' or 15' is optional on all module options.

WIRE MANAGEMENT: All options except NNN include vertical and horizontal wire management.

Ⓓ Select modesty panel.
   NMP - No modesty panel
   LMP - Laminate modesty panel
   SMP - Perforated steel modesty panel
   See pricing column for full modesty panel upcharge.

Ⓔ Select edge color.
   Refer to the **Product Color Options** page in this price list.

Ⓕ Select surface finish.
   Refer to the **Product Color Options** page in this price list.

Ⓖ Select paint finish.
   Refer to the **Product Color Options** page in this price list.
   If chrome is specified with a steel modesty panel, modesty panel will be flannel.

Ⓗ Select base.
   CST - Casters
   GLD - Glides
   Casters=2 locking/2 non-locking, black wheel, silver hub

Ⓘ Select grommet/module color.
   Refer to the **Product Color Options** page in this price list.

Ⓙ Select Cord Length (feet).
   15 - 15' cord length
   9 - 9' cord length

FINISH INFORMATION

Additional Laminate Offering
KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturer's name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested through the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

Color Match
KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact customer service for details.

FINISH INFORMATION

Additional Laminate Offering
KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturer's name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested through the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

INFORMATION
Contact KI Customer Service for specific models that are UL listed.

Color Match
KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact customer service for details.
