Customer's Own Material ■

Specifications Form
January 2023

How to Specify

As a standard procedure, KI applies seating upholstery as swatched by the textile distributor. Reference distributor's website. Upholstery that is required to be applied differently than is swatched, will need a Product Modification Request written specifying the direction the upholstery is to be applied.

Seating upholstery requiring specific positioning of intricate patterns or patterns repeats on seats and backrests, will need a Product Modification Request written including a sketch noting the specific requirements, as in Diagram A.

C.O.M. must be supplied in continuous yardage.

Yardage requirements listed in price list are based on plain goods 54" wide. Fabrics less than 54" wide, or those requiring matching (stripes, plaids, prints, large patterns) will require additional yardage based on the fabric used and the item ordered. Consult matrix below for additional yardage needed.

Diagram A

C.O.M. INCREASE MATRIX (yardage matrix is also applicable to any reservations of KI Ingrade, Pallas, or K.O.M. upholsteries).

This table is a general guide.

FABRIC WIDTH	PLAIN FABRIC	UNDER 7" REPEAT	8"–13" REPEAT	14"–21" REPEAT	22"–27" REPEAT	28"–33" REPEAT	34"–40" REPEAT	41"–48" REPEAT
54"	0	20%	25%	30%	45%	55%	70%	80%
51"–53"	15%	25%	30%	35%	50%	60%	80%	90%
48"–50"	20%	30%	35%	40%	55%	65%	85%	95%
45"–47"	30%	45%	50%	55%	60%	80%	90%	100%
36"–44"	50%	65%	70%	75%	80%	100%	110%	120%
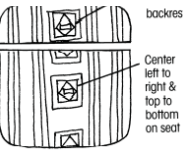

Fabric with double repeat: If using a fabric with a double repeat, please follow this formula: take the total amount of the larger and half of the smaller repeat; add together to find the correct overall repeat. Example: 10" vertical with 14" horizontal would be 14+5=19.

If fabric comes in on multiple rolls, one additional yard per roll needs to be added to the yardage requirement.

Leather hides must be a minimum of 50 square feet of usable material. The outer edges cannot be calculated as square feet or yardage. To determine square footage, multiply unit yardage by 18 square feet to obtain the total square footage required per unit.

For exact production yardage requirements, call 1-800-424-2432, ext. 2707.

Production

Customer's upholstery must be approved prior to acceptance for production.

After approval, a memo swatch of the C.O.M. from the textile distributor must accompany the order. KI assumes no responsibility for wear, defects, or performance of C.O.M. or K.O.M. upholstery.

C.O.M. not received into the appropriate facility 3 weeks prior to acknowledged delivery date may go on hold. See KI C.O.M. Shipping Location listing for the correct facility address by product.

All C.O.M. must be labeled as follows:

1. Name and address
2. Your purchase order number
3. Our style number to which fabric is to be applied
4. Supplier name and fabric name, number, and color

ALL C.O.M. Shipments must be prepaid. Collect shipments will be refused.

Testing

When KI requires testing, actual yardage to upholster one chair may be required. The C.O.M. Specialist will confirm model and fabric testing requirements when applicable.

ALL C.O.M. Shipments must be prepaid. Collect shipments will be refused.

Treated Materials

If C.O.M. requires processing such as a stain resistance treatment or acrylic backing, it may shrink. To prevent delays in delivery or back ordering due to shrinkage, please have your processor verify measurement after processing and assure adequate yardage shipped.

Split Orders

If a portion of the shipment which does not require C.O.M. application is to be processed and shipped early, KI will enter the order immediately at your request. These split shipments are subject to minimum order changes.

Excess Upholstery Material

KI will dispose of excess upholstery material at the time of shipment unless expressly requested to return it with the product shipment.

Cancelled or Changed Orders

KI assumes no responsibility for extra C.O.M. due to a change of upholstery or cancellation of an order. If it the customer's responsibility to arrange for return of the material.

Contact the C.O.M. Specialist at 1-800-424-2432, ext. 2707, with questions or to request a split order

General
The below specifications cover Zoetry guest seating, lounge seating, guest and lounge in-line tables, freestanding occasional tables, privacy screens and electrical components.

Base Frame with Legs
All seating and freestanding occasional table base frames are constructed of $1/8$" thick extruded aluminum rails with die cast aluminum legs. The rails and legs are fastened together using concealed $1/4$-20 steel screws. Frame finish options are powder-coat paint over all components with colors per the KI color addendum, or high gloss hand polished legs coupled with bright anodize dipped (polished look) aluminum rails (aluminum finish only).

Adjustable Glides
Adjustable glides are available in non-marring natural color nylon or grey felt. Glides are 1" diameter and provide $7/8$" height adjustability with a $5/16$-18 steel threaded stem. The four glide assemblies are replaceable with no tools required.

Armcaps
Models can be configured with optional armcaps in stained and finished Beech hardwood, molded polyurethane, or upholstered arm only. Polyurethane armcaps are molded (in black only) with a light surface texture and are reinforced internally with a 10-gauge (.135" thick) steel bar, fastened to the arms with $7/16$" diameter spring steel compression dowels.

Wood armcaps are $3/4$ Beech hardwood, kiln dried to a moisture content of six percent, sanded and finished in stain (color per KI color addendum) and fastened to the arms with $7/16$" diameter spring steel compression dowels.

The wood armcap's finish include over-coating with a spray stain, then baking in a burn-off oven for one hour. The wood is then sealed to prevent moisture imbalance, and surfaces are lightly sanded using 400 grit paper. The final application of an oven-baked conversion polyacrylic topcoat seals and finishes all surfaces. Both the seal and finish coats contain an anti-microbial protectant. Armcaps are field replaceable.

Swivel Tablet Arms
Tablet writing surface is round, 14" in diameter, has a knife edge (KN) with overall thickness of $1 1/8$" and has a 360-degree swivel mechanism secured with screws to the underside of the writing surface. Swivel tablet is mounted 3" off-center from the pivot of the mechanism and can be ordered as right- or left-facing as well as removable or non-removable. Swivel tablet has a .030" laminate top surface and plain backer undersurface. Top surface is available in all standard KI laminate finishes. Benches can receive swivel tablets on both arms.

Structural Internal Frames (arm, seat, backrest)
Arm, seat and backrest frames can be a unique combination of materials and processes. Some frame components are made of a 100% recycled post-consumer polymeric blend molded with structural design elements that give strength and durability. Steel structural supports and fasteners are added to attach these elements to the base and to each other.

Structural Internal Frames (arm, seat, backrest) (cont.)
Other noted frame materials are $3/4$" and $1/2$" hardwood plywood, CNC cut with all joints nailed and glued, using additional interlocking features across all stress points. The following sections below list where these structural materials are applied;

$3/4$" and $1/2$" Hardwood Plywood
- All lounge, bench and guest seat frames - standard and heavy occupant widths
- All lounge and bench arms
- Lounge backrests - heavy occupant width
- Guest multi-seat "shared" middle arms

Molded Recycled Material
- Lounge and guest backrests - standard width
- Guest backrests - heavy occupant width
- Guest "outer" arms and models with in-line tables

Upholstery Foam & Suspension
Zoetry guest and guest bariatric seats are constructed of 3.5" thick molded polyurethane foam, 3.5 density, 35 lb compression with stretch webbing suspension underneath, stapled to the frame.

Zoetry guest and guest bariatric backrests are contoured and constructed with a maximum of 2" thick molded polyurethane foam, 3.5 density, 45 lb compression.

Zoetry lounge seats are constructed of 6" thick slab polyurethane foam, 3.5 density, 35 lb compression with stretch webbing suspension underneath, stapled to the frame.

Zoetry lounge and lounge bariatric backrests are constructed of 3" thick molded polyurethane foam, 3.5 density, 35 lb compression with stretch webbing suspension underneath, stapled to the frame.

Lounge bariatric and bench seats use slab polyurethane foam in the same density and compression values as the molded foam components in the seat. Stretch webbing suspension is used underneath.

All models — arms are covered in foam $3/4$" thick 2.6 density, 80 R compression on the seating sides of the arms. Remaining outer arm surfaces are $1/4$" soft feel 2.5 density, 45 lb compression.

Upholstery & Sewing
Upholstery features on all models include top stitching at all primary seams for lasting durability. Stitching is available in contrasting color choices per the KI thread finish card.

Tables (in-line and freestanding occasional)

Tables and tops with laminate are constructed using 45 lb density particleboard with .030" thick high-pressure laminate, .030" high-pressure backer and 2 mm pvc edge banding (KI "73P" edge banding in limited complimentary colors). The overall top thickness is $^3/_4$", available in colors per the KI color addendum. In-line "working-height table" and "raised table" have all exposed surfaces laminated and edge banded.

Flat tabletops specified with "solid surface" are constructed of $^1/_2$" thick Corian® material with $^1/_4$" plywood backer. The edge is a glued and polished Corian® band, 1" wide all around, creating a seamless continuous surface. The solid surface tops are colored "Glacier White" only.

All tables are configurable with optional power modules. See "Electrical System Options" specifications for additional information. Solid surface tabletops are fastened to frames using concealed $^1/_4$-20 steel screws into steel T-nuts in the table backer. Laminate tops are fastened to frames using #14 x $^1/_2$" wood screws.

Lounge Privacy Screens

Lounge privacy screen corners are pressure-formed, laminated #3 grade Gum veneer plywood, 10 mm nominal thickness. Lounge center extensions (loveseat and larger) are $^1/_2$" nominal thick Birch plywood. Both are covered in $^1/_4$" thick Volara® high-density foam on all surfaces and edges. Fabric is applied over the plywood and foam and sewn with seams along the outside edges. Overall finished thickness is $^3/_4$". Privacy screens are mounted to the lounge using hidden or minimally visible die-cast aluminum hooks and receivers, painted black. The screen hooks are aligned to the lounge receivers and fixed in place using #8 steel screws.

Note: The privacy screen mounting components are permanently attached to the lounge and screen and cannot be repositioned for other uses.

The top screen alignment medallions are machined solid aluminum, and optionally polished to a mirror finish or powder-coated in KI colors. The two halves are fastened using a #8 steel screw. Hidden steel toothed "gripper" features strengthen the medallion retention when fully assembled between screen segments.

Electrical System Options

Byrne Mini-Tap® Power Module with 3-Prong Plug

Zoetry seating can be configured with optional Bryne Mini-Tap power modules (a self-contained, UL listed single relocatable power tap). One 15-amp, 125 volt AC simplex receptacle with one 2.1-amp, 5 volt DC USB Type A and one Type C outlet port (2.0 and 3.0 compatible, no data), provide device charging or direct AC power. The module is standard with a 72" long, 14 AWG, 15-amp NEMA rated 3-conductor black SJT cord with 3-prong grounded plug. Modules are optionally colored black with black outlet ports, or white with white outlet ports. Single modules can be configured to the right side or left side of the model frame. Outlets face the front of the single seat lounge or chair.

Byrne Mini-Tap Power Module for Sequence®

Seating can also be configured with optional 12 amp system rated Bryne Mini-Tap power modules for Sequence, to accommodate two modules per unit (loveseat or larger) with a single corded AC power in-feed. The NEMA rated 3-conductor black SJT infeed cord with 3-prong plug is rated for 15 amps with over-current protection. The Sequence system is ETL Listed. Dual modules are mounted right and left sides of the frame, facing the front of the seating. Single modules can be configured to the right side or left side of the model frame. The module-to-module cord connections are accomplished by a keyed Sequence power jumper, with light indication for proper connection. All modules and cabling are factory installed with cords, discretely dressed and hidden at the underside of the lounge, with the infeed ready to plug into the user location outlets.

Byrne Node® Power Module with 3-Prong Plug

In-line tables can be optionally configured with a Bryne Node power module with 3-prong plug (a self-contained, UL listed single relocatable power tap). One 15-amp, 125 volt AC simplex receptacle with one 2.1-amp, 5 volt DC USB Type A and one Type C connectors (2.0 and 3.0 compatible, no data), provide device charging or direct AC power. The module is standard with a 72" long, 14 AWG, 15-amp NEMA rated 3-conductor black SJT cord with 3-prong grounded plug. Node modules are optionally colored black with black outlet ports, white with white outlet ports or silver with black outlet ports. Node modules are top surface mounted in the tabletop. UL "spill proof" receptacles are standard.

General Construction

A sweep through clean out between the backrest and seat allows debris to be pushed through and to drop to the floor beneath all models.

Arms, armcaps, glides, privacy screens, seats and backrests are field replaceable.

General Upholstery

Contrasting fabric specification is not available.
Available fabrics only in approved Pallas/Ingrades or COM/KOM options.
Contrasting color stitching per KI thread color finish card.

HOW TO ORDER

Indicate the following information on order form:
1. Quantity of each item.
2. Model number, including options. See "How To Build a Model Number".
3. Any special service required.

Note: • The □ indicates that a choice is required.
- The absence of the □ indicates that no choice is required.
- Alpha-numeric characters in place of □ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

Ⓐ Select basic model.

Ⓑ Select armcap type.
- **NAC** - No armcap
- **PACBL** - Black poly armcap; add $201
- **WAC** - Wood armcaps; add $283

Ⓒ Select power & location.
- **NP** - No power

ADDITIONAL LAMINATE OFFERING

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturers name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested thru the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

ADDITIONAL LAMINATE OFFERING

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturers name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested thru the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturers name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested thru the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

FINISH INFORMATION

ADDITIONAL LAMINATE OFFERING

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturers name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested thru the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

ADDITIONAL LAMINATE OFFERING

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturers name, color/ pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested thru the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

ADDITIONAL LAMINATE OFFERING

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturers name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested thru the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

ADDITIONAL LAMINATE OFFERING

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturers name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested thru the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

ADDITIONAL LAMINATE OFFERING

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturers name, color/ pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested thru the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

ADDITIONAL LAMINATE OFFERING

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturers name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested thru the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

ADDITIONAL LAMINATE OFFERING

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturers name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested thru the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

HOW TO ORDER

Indicate the following information on order form:
1. Quantity of each item.
2. Model number, including options. See "How To Build a Model Number".
3. Any special service required.

Note: • The ☐ indicates that a choice is required.
- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

(A) Select basic model.

(B) Select armcap type.
- **NAC** - No armcap
- **WAC** - Wood armcaps; add $300

(C) Select power & location.
- **M1L** - One power module, left-facing; add $260
- **M1R** - One power module, right-facing; add $260
- **NP** - No power

(D) Select glide.
- **GFT** - Felt glides
- **GPL** - Plastic glides
- Glides adjust 7/8"

(E) Select base/leg finish.
Refer to the **Product Color Options** page in this price list.

(F) Select armcap finish.
Refer to the **Product Color Options** page in this price list.

(G) Select power module color.
- **WPBL** - Black/Black power module
- **WPWH** - White/white power module

(H) Select upholstery grade/color.
Refer to **ki.com/fabrics**

(I) Select thread color.
Refer to the **Product Color Options** page in this price list.

(J) Select tablet finish.
Refer to the **Product Color Options** page in this price list.

(K) Select KN edge color.
Refer to the **Product Color Options** page in this price list.

NOTE
Ganging is not available on Zoetry product.

Zoety is offered in non-contrasting upholstery only, as standard.

ADDITIONAL LAMINATE OFFERING

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturers name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested thru the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

ADDITIONAL LAMINATE OFFERING

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturers name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested thru the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

ADDITIONAL LAMINATE OFFERING

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturers name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested thru the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

ADDITIONAL LAMINATE OFFERING

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturers name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested thru the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

ADDITIONAL LAMINATE OFFERING

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturers name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested thru the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.
