Information

How to Specify C.O.M. Upholstery

Textile designs often have intricate patterns. Not all individuals will interpret fabric direction in the same manner.

As a standard procedure, KI cuts fabrics off the roll in a horizontal fashion as shown in Diagram A at the right. By cutting in this fashion, most waste is eliminated. Our requirements for yardage in this book are based on this type of cutting. When directional or patterned fabrics are used, they often require more yardage than solid colors.

By providing KI with a completely filled-out copy of the form on this page, we will be able to expedite your order. We find it particularly helpful with directional or patterned upholstery material. It is critical that copies of this form accompany test quantities as well as production quantities of C.O.M.

C.O.M. must be supplied in continuous yardage.

C.O.M. Testing

KI will require six yards of actual fabric to be submitted for testing. The test will be completed on panels, tackboards, and overheads. For products shipped from Manitowoc, WI facility, ship upholstery material to:

KI Manitowoc
1400 South 41st Street
Manitowoc, WI 54220
Attn: Fabric Testing

C.O.M. Production

Customer's fabrics must be approved prior to acceptance for production. KI assumes no responsibility for wear, defects, or performance of customer's own materials. C.O.M. orders are available on a deferred delivery basis.

Orders for production of C.O.M. upholstered products are not scheduled for processing until upholstery material is received. Upon receipt, KI will provide an acknowledgement and an estimated shipping date.

C.O.M. Information Form

A copy of this form should accompany test requests and production orders. Please fill it out completely, and, if your order has been acknowledged, provide the acknowledgement number.

Diagram A

Excess Upholstery Material

KI will dispose of excess upholstery material at the time of shipment unless expressly requested to return it with the product shipment.

Cancelled or Changed Orders

KI assumes no responsibility for extra C.O.M. material due to a change of upholstery or cancellation of an order. It is the customer's responsibility to arrange for return of this material.

Yardage Specification

The chart on the following page details the yardage requirements for each upholstered item in the price list. To accommodate flaws, wrinkles, and other imperfections, calculate the total yardage and add the appropriate percentage shown below:

1 to 50 yards — Add 5 yards
50 + yards — Add 10% over requirements

In all instances, send this form to the C.O.M. Specialist.

Features			
Solid core top	•	•	•
Plastic laminate surface	•	•	•
Postformed edge	•		•
74P edge	•	•	•
Elliptical postformed edge	•		•
Powder-coated legs	•	•	•
Seam-welded tubular steel frame	•	•	•
Chrome plated glides	•	•	•

Transitional Leg
Transitional leg bases are 6 inches shorter than standard leg bases for greater leg room and chair clearance when two surfaces are joined. When seated at the worksurface, "right" or "left" refers to the individual worksurface, not the assembled workstation. Cannot be ordered for an individual, free-standing worksurface.

SPECIFICATIONS

Worksurface Frames
Heavy-gauge seam-welded tubular steel. Horizontal tabletop support tube, 16-ga., 1"x 1" steel. Floor support member, 16-ga., 1-1/8" x 1-3/4" belly rectangular steel tube. Top and floor support tubes are welded with 2 steel tube vertical leg members. The rear vertical support is 16-ga., 1"X2" steel tube. The front vertical support is 16-ga., 1"X2-1/8" bullet oval steel tube. Leg inserts enclose the space between the (2) vertical leg members and provide concealed management of wire from floor to worksurface. Leg inserts are extruded Polypropylene with sprayed clear acrylic scuff-resistant coating. Adjustable chrome-plated glides. Powder-coat finish on legs. There are three frame style options. The receptacle clearance beam option (WB) is a 16-ga., 1/2"x 1-1/2" steel tube cross brace, welded to two 14-ga., L-brackets for support. The modesty panel (WM) is 19-ga. steel. It is located 1-1/2" from the rear of the worksurface. The modesty panel is 15.31" on the 29" tables and 13.31" on 27" tables. The full height modesty panel (WF) is 19-ga. steel It

is located 1-1/2" from the rear of the worksurface. The full modesty panel spans the space between the underside of the worksurface and the floor. It is only available on 29" height desks.

Worksurface Top
1-1/4" thick top, .030" high-pressure laminate top surface with .028" phenolic backing sheet. Available with 74P edge or 180° postformed and elliptical postformed front edge with .030" high pressure laminate and .028 phenolic backing sheet. Side and rear edges of postformed tops are finished with either .024" Polypropylene or .030" high-pressure laminate.

Surface Splice Plates
Die-formed steel splice plates attach to underside of units with screws. Two splice plates are provided with all surfaces. Standard connector plate provided when surfaces are of common height. Worksurface height change connector provided for connecting 29" to 27" high surfaces. Specify worksurface height change connector for connecting non-transitional worksurfaces of two different heights except when using T6 option..

Adjustable Keyboard Pad Worksurface
Die-formed L-brackets attach to table and keyboard pad with screws. Threaded hand knobs lock keyboard pad in position. Available with 74P edge.

Weight Capacity
All WorkZone tables meet or exceed BIFMA 5.5 Standards. Please contact KI Customer Service for additional information.

Horizontal Wire Management Trough
Horizontal wire management trough (WW) connects below the worksurface top and is constructed of rigid Polypropylene with 1" deep by 1-1/2" high openings for cables.

Guest Modesty Panel
The Guest Modesty Panel for P Shaped, Piano, and Square Shoe, peninsula worksurfaces is constructed of 19-ga. steel. It is located 4.5" from the guest side of the peninsula worksurface and is attached using 6, #10-1" screws. It is 9" high and comes in lengths to fit 60" through 84" peninsula tops. Not for use with peninsula end and side mount worksurfaces.

Fabric
Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Product Modification Request written specifying the direction the fabric is to be applied.

INFORMATION

Warranty
Refer to KI Terms & Conditions document or visit ki.com

SPECIFICATIONS

PowerUp® Power/Data Module

The power/data module is inserted into a rectangular hole in the worksurface. The module has a flip-up cover and is 6-1/4" long x 3" wide x 2-1/2" high. It has one duplex receptacle (110 volts), dual data access and a power cord with a 3-prong plug. The cord is 108" long when used without 10-wire (NP) system and 22" long when used with 10-wire (T6) tables. Connections for phones, modems, printers and networks can be incorporated into the system, but must be ordered separately by the customer through a third party source. Communications wiring is completed in the field by the customer. Each unit ships with a data plate tree which provides holders for common jacks produced by AT&T, Panduit, and others. Contact KI Customer Service for more information. The single module is located at the rear right, rear left or center position of the worksurface widths 30" through 54". Two modules are available on 60", 66" and 72" wide rectangular surfaces and are located at the rear left and rear right position of the worksurface.

Data Door

The data door (WT) is constructed of rigid Polypropylene .06 wall thickness with a radius of 2-1/2". The door is 8" deep and 4-1/2" high. It attaches to the underside of the table top. The hanging bracket uses the same hole as the modesty panel and can also be used with WB option. Power and data cables are separated from each other by a 24-gauge steel divider that is 2" high by 2-3/4" deep. There is also space allowed for cord management. Available in black only.

Table-To-Table Wireway

The table-to-table wireway trough is a 16-gauge steel trough that attaches to the underside of the adjoining worksurface. The wireway is 3-3/4" deep by 4-1/4" wide. The wireway routes the 10-wire table-to-table connector and data wires between tables. The wire management trough also includes a splice plate that attaches the front of the adjoining tops together to prevent separation.

10-Wire 6-Circuit Pre-Wired Harness

Single sided, rigid 10-wire harness that holds two duplex receptacles (60", 66" and 72" wide tables provide access for up to four duplex receptacles). Harness contains 6 hot wire, 2 neutral wires an 2 ground wires and is commonly referred to as (6-2-2). The harness has mounting brackets to attach to the underside of the worksurface top with screws. The harness is 2-1/2" wide and the length of the harness varies with the size of the top. Power is obtained by use of the 10-wire Power Infeed Kit. Duplex receptacles are located under the worksurface are specified separately.

10-Wire Table-To-Table Connector

10-wire table-to-table connector consists of flexible mesh conduit which provides power connections from adjoining tables. The jumper is 17-3/4" long and is routed through the table-to-table wireway.

10-Wire Power Infeed Kit

The 10-wire infeed kit provides power from fixed, floor, or wall sources to the 10-wire harness.

It includes six feet of plastic covered flexible conduit, and 3/4" waterproof 90° connector. Also included are two steel covers which replace the existing plastic vertical wireway.

UL Listed

The WorkZone® with PowerUp® System is listed to applicable UL standards and requirements by Underwriters Laboratories, Inc.

Two of the standards used to evaluate WorkZone® are UL/286 Office Furnishings and UL/723 Standard for Test for Surface Burning Characteristics of Building Materials.

The standard used to evaluate PowerUp® is UL 1363 Relocatable Power Taps.

Starter Unit - Each shared leg workplace requires a starter unite to be placed at one end of the table string. The starter unit is comprised of a worksurface, modesty panel, standard leg and transitional leg. Only one starter unit is required in a single table string.

Adder Unit - When three or more tables make up a table string, an adder unit is used to make up the middle portion of the table string. The adder unit is comprised of a worksur-face, modesty panel and transitional leg.

Finisher Unit - The final table specified in a table string is the finisher unit. This unit is comprised of a worksurface, modesty panel and a standard leg.

All three units are joined together by the transitional legs, which are centered between the two worksurfaces and attach accordingly.

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See “How To Build a Model Number”.
- Any special service required.

Note:

- The ☐ indicates that a choice is required.
- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A**Select basic model.
- B**Select edge style.

74P

- 74P edge

EP

- Elliptical postformed edge

PF

- Postformed edge
- C**Select height.

7

- 27" high

9

- 29" high
- D**Select horizontal wireway.

Add upcharge to unit price for WW option.

NW

- No horizontal wireway

WW

- Wireway
- E**Select frame style.

Add upcharge to unit price for WF option.

WB

- w/beam

WM

- w/modesty panel

WF

- w/full modesty panel

See pricing column for full modesty panel upcharge.

- w/ Full modesty panel (available on 29" high only)
- F**Select location and type of leg.

TS

- Standard legs

TL

- Transition leg (left)

TR

- Transition leg (right)

TB

- Transition leg (both)

Note: If ordering Basic Worksurface as a freestanding unit, or if only one side connects to a transitional worksurface, the “TB” option for both transitional legs is not available.
- G**Select grommet option.

Grommets are required for overhead cabinet.

OGN

- No worksurface grommet

OGY

- Yes worksurface grommet

Grommets can be used for wire pass-through.

- H**Select paint color.

Refer to the **Product Color Options** page in this price list.

- I**Select insert color.

Refer to the **Product Color Options** page in this

- price list.

Insert color also includes horizontal wireway (WW) if selected.
- J**Select laminate surface.

Refer to the **Product Color Options** page in this price list.
- K**Select edge color.

Refer to the **Product Color Options** page in this price list.

Edge color offerings are based on edge style selections.
- L**Select grommet color.

Refer to the **Product Color Options** page in this price list.

FINISH INFORMATION

Additional Laminate Offering

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturer’s name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested through the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note:

- The □ indicates that a choice is required.
- The absence of the □ indicates that no choice is required.
- Alpha-numeric characters in place of □ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A**Select basic model.
- B**Select edge style.

74P - 74P edge
- C**Select location of keypad.

C - Center

R - Right

L - Left

Note: On 36" and 42" wide worksurfaces, "C" is the only option available.
- D**Select height.

7 - 27" high

9 - 29" high
- E**Select horizontal wireway.

Add upcharge to unit price for WW option.

NW - No horizontal wireway

WW - Wireway
- F**Select frame style.

Add upcharge to unit price for WF option.

- WB** - w/beam

WM - w/modesty panel

WF - w/full modesty panel

See pricing column for full modesty panel upcharge.

w/ Full modesty panel (available on 29" high only)
- G**Select location and type of leg.

TS - Standard legs

TL - Transition leg (left)

TR - Transition leg (right)

TB - Transition leg (both)

Note: If ordering Basic Worksurface as a freestanding unit, or if only one side connects to a transitional worksurface, the "TB" option for both transitional legs is not available.
- H**Select grommet option.

Grommets are required for overhead cabinet.

OGN - No worksurface grommet

OGY - Yes worksurface grommet

Grommets can be used for wire pass-through.
- I**Select paint color.

- Refer to the **Product Color Options** page in this price list.
- J**Select insert color.

Refer to the **Product Color Options** page in this price list.

Insert color also includes horizontal wireway (WW) if selected.
- K**Select laminate surface.

Refer to the **Product Color Options** page in this price list.
- L**Select edge color.

Refer to the **Product Color Options** page in this price list.

Edge color offerings are based on edge style selections.
- M**Select grommet color.

Refer to the **Product Color Options** page in this price list.

FINISH INFORMATION

Additional Laminate Offering

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturer's name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested through the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note:

- The ☐ indicates that a choice is required.
- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A**Select basic model.
- B**Select edge style.

74P - 74P edge
- C**Select surface direction.

L - Left

R - Right

Direction is determined by the side of the work-surface that has the 3" diameter leg. Calculate side based on user's normal seated position.
- D**Select height.

9 - 29" high
- E**Select horizontal wireway.

Add upcharge to unit price for WW option.

NW - No horizontal wireway

WW - Wireway
- F**Select frame style.

Add upcharge to unit price for WF option.

WB - w/beam

- WM** - w/modesty panel
- WF** - w/full modesty panel
- See pricing column for full modesty panel upcharge.
- w/ Full modesty panel (available on 29" high only)
- G**Select location and type of leg.

TS - Standard legs

TL - Transition leg (left)

TR - Transition leg (right)

TB - Transition leg (both)

Note: If ordering Basic Worksurface as a freestanding unit, or if only one side connects to a transitional worksurface, the "TB" option for both transitional legs is not available.
- H**Select grommet option.

Grommets are required for overhead cabinet.

OGN - No worksurface grommet

OGY - Yes worksurface grommet

Grommets can be used for wire pass-through.
- I**Select paint color.

Refer to the **Product Color Options** page in this

- price list.
- J**Select insert color.

Refer to the **Product Color Options** page in this price list.

Insert color also includes horizontal wireway (WW) if selected.
- K**Select laminate surface.

Refer to the **Product Color Options** page in this price list.
- L**Select edge color.

Refer to the **Product Color Options** page in this price list.

Edge color offerings are based on edge style selections.
- M**Select grommet color.

Refer to the **Product Color Options** page in this price list.

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note:

- The ☐ indicates that a choice is required.
- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A**Select basic model.

BSelect edge style.

74P - 74P edge

CSelect height.

9 - 29" high

DSelect paint color.

Refer to the **Product Color Options** page in this price list.

ESelect laminate surface.

Refer to the **Product Color Options** page in this price list.

FSelect edge color.

Refer to the **Product Color Options** page in this price list.

Edge color offerings are based on edge style selections.
- FINISH INFORMATION
- Additional Laminate Offering**

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturer's name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested through the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

Indicate the following information on order form:

1. Quantity of each item.
2. Model number, including options. See "How To Build a Model Number".
3. Any special service required.

- The ☐ indicates that a choice is required.
- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

A Select basic model.

B Select edge style.

74P - 74P edge

C Select transition direction.

X - None
L - Left
R - Right

Transition direction is determined from the originating 24" or 30" basic or keyboard pad work surface. All square and rectangular transitional surfaces connected at the same height do not require Right (R) or Left (L) transition direction. Use "X" for transition direction. Transitional direction required for "97" transitional height.

D Select transition height.

77 - 27" to 27" high
97 - 29" to 27" high
99 - 29" to 29" high

E Select horizontal wireway.
Add upcharge to unit price for WW option.

NW	- No horizontal wireway
WW	- Wireway

F Select frame style.

Add upcharge to unit price for WF option.

WM	- w/modesty panel
WF	- w/full modesty panel

See pricing column for full modesty panel upcharge.

w/ Full modesty panel (available on 29" high only)

G Select paint color.
Refer to the **Product Color Options** page in this price list.

H Select insert color.
Refer to the **Product Color Options** page in this price list.
Insert color also includes horizontal wireway (WW) if selected.

I Select laminate surface.

Refer to the **Product Color Options** page in this price list.

J Select edge color.
Refer to the **Product Color Options** page in this price list.
Edge color offerings are based on edge style selections.

HOW TO ORDER

- Indicate the following information on order form:
- Quantity of each item.
 - Model number, including options. See "How To Build a Model Number".
 - Any special service required.

Note:

- The ☐ indicates that a choice is required.
- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A**Select basic model.
- B**Select edge style.
- | | |
|------------|------------------------------|
| 74P | - 74P edge |
| EP | - Elliptical postformed edge |
| PF | - Postformed edge |
- C**Select transition direction.
- | | |
|----------|---------|
| L | - Left |
| R | - Right |
| X | - None |
- Transition direction is determined from the originating 24" or 30" basic or keyboard pad worksurface. All corner transitional surfaces connected at the same height do not require right (R) or left (L) transition direction. Use "X" for transition direction. Transition height required for "97" transitional.
- D**Select transition height.
- | | |
|-----------|-------------------|
| 77 | - 27" to 27" high |
| 97 | - 29" to 27" high |
| 99 | - 29" to 29" high |

- E**Select horizontal wireway.
- Add upcharge to unit price for WW option.
- | | |
|-----------|-------------------------|
| NW | - No horizontal wireway |
| WW | - Wireway |
- F**Select frame style.
- Add upcharge to unit price for WF option.
- | | |
|-----------|------------------------|
| WB | - w/beam |
| WM | - w/modesty panel |
| WF | - w/full modesty panel |
- See pricing column for full modesty panel upcharge.
- w/ Full modesty panel (available on 29" high only)
- G**Select grommet option.
- | | |
|------------|---------------------------|
| OGN | - No worksurface grommet |
| OGY | - Yes worksurface grommet |
- Grommets can be used for wire pass-through.
- H**Select paint color.
- Refer to the **Product Color Options** page in this price list.

- I**Select insert color.
- Refer to the **Product Color Options** page in this price list.
- Insert color also includes horizontal wireway (WW) if selected.
- J**Select laminate surface.
- Refer to the **Product Color Options** page in this price list.
- K**Select edge color.
- Refer to the **Product Color Options** page in this price list.
- Edge color offerings are based on edge style selections.
- L**Select grommet color.
- Refer to the **Product Color Options** page in this price list.

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note:

- The ☐ indicates that a choice is required.
- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A**Select basic model.

74P

- 74P edge
- C**Select transition direction.

L

- Left

R

- Right

X

- None

Transition direction is determined from the originating 24" or 30" basic or keyboard pad worksurface. All corner transitional surfaces connected at the same height do not require right (R) or left (L) transition direction. Use "X" for transition direction. Transition height required for "97" transitional.
- D**Select transition height.

- I**Select insert color.

Refer to the **Product Color Options** page in this

- price list.

Insert color also includes horizontal wireway (WW) if selected.
- J**Select laminate surface.

Refer to the **Product Color Options** page in this price list.
- K**Select edge color.

Refer to the **Product Color Options** page in this price list.

Edge color offerings are based on edge style selections.
- L**Select grommet color.

Refer to the **Product Color Options** page in this price list.

FINISH INFORMATION

Additional Laminate Offering

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturer's name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested through the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

Overall height from worksurface to top of overhead is 36".
Overhead allows for 19½" clearance from worksurface to underside fo shelf.

SPECIFICATIONS

Universal Overhead Cabinets

Overhead storage shall consist of overhead cabinet(s) and shelves. Overhead storage shall attach to worksurface with two overhead support stanchions for 30", 36", 42", 48", 54" and 60" sizes. Three overhead support stanchions for 66" and 72" sizes. 66"overheads shall consist of a 30" and 36" overhead combination. 72" overheads shall consist of a pair of 36" overheads.

Shelf dividers shall be powder-coated steel with installation and removal accomplished without the use of tools or fasteners.

Universal overheads and shelves shall be 17" high and shall have 19-1/2" clearance between the worksurface and the bottom of shelf. Overhead doors shall be available with painted steel, fabric, laminate, or veneer, with a Polypropylene extrusion handle. Locks shall be randomly assigned or keyed per customer requests. The end panels shall be constructed of 14-gauge steel and have self-locking mounting tabs formed into the back

edge. The shelf, back, and top shall be constructed from 18-gauge steel.

Balance® Overhead Cabinets

Overhead storage shall consist of overhead cabinet. Overhead storage shall attach to worksurface with two overhead support stanchions for 30", 36", 42", 48", 54", 60", 66" and 72" sizes.

Shelf dividers shall be powder-coated steel with installation and removal accomplished without the use of tools or fasteners.

Balance® overheads shall be 17" high and have 19-1/2" clearance between the worksurface and the bottom of shelf. The upper door shall be available in colored or translucent extruded rigid Polypropylene with spatter-coat finish, fabric, or laminate applied. The overall door thickness shall be 3/8". The lower door shall be an aluminum extrusion and be ergonomic in design. A center lock mechanism shall be utilized between the upper and the lower doors for security. The overhead doors shall be effortlessly operated from either a seated or standing position through use of the upper or lower door. The upper door and lower

door shall be synchronized in motion through the use of two 10-gauge linkages. The doors shall be assisted with two extension springs and require less than 5 pounds of force to operate. The upper door shall open over the outside of the case.

Privacy Screens (WZPR)

Two or three 1/8" cold rolled steel brackets, sandwiched between two 1/2" Gypsum boards joined together with industrial adhesive. The screens attach to the back of the worksurface with fasteners. Steel splice plates are used to align adjoining screens. Privacy screen is 19-1/2" high above worksurface.

Key Options

There are various key options available depending on the component model. The key alike option (KA) allows multiple components of a workstation to be keyed alike. The lock number can be specified. The key standard option (KS) allows each component to have its own randomly selected key number shipped with the individual component. The no lock core option (NLC) provides more flexibility in keying workstations alike. All locks and keys for the individual components specified

with no lock core will be packaged separately from the components. The location of the lock core and corresponding numbered key will be determined upon installation.

Fabric

Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Product Modification Request written specifying the direction the fabric is to be applied.

FINISH INFORMATION

Additional Laminate Offering

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturer's name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested through the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

SPECIFICATIONS

Tool Rail
Aluminum extrusion tool rail, powder-coated finish. Attaches between overhead uprights. Consists of four slots to accept paper management components. To be used on WZUS,WZUF, WZUL, WUSS, BLCS, BLCL and BLCF models.

Paper Tray
Constructed of injection molded plastic. Tray measures 9-1/2" wide by 2" high by 14" deep and accommodates both letter and legal size documents. Includes three hooks to mount on tool rail.

Vertical Storage
Constructed of injection molded plastic. Holder measures 5" wide by 9" high and 10-1/2" deep. Includes two hooks to mount on tool rail.

Pencil Cup
Constructed of injection molded plastic. Cup measures 4" wide by 3" high by 3-1/2" deep for storage of pens, pencils and highlighters. Includes one hook to mount on tool rail.

Diagonal Storage
Constructed of injection molded plastic. Storage tray consists of three diagonal slats with black dividers to sort files or papers. Tray measures 7" wide by 2-1/2" high by 12-1/2" deep and includes three hooks to mount on tool rail.

Telephone Caddy
Constructed of injection molded plastic. Caddy measures 8-1/2" wide by 2" high by 9-1/2" deep. Includes adjustable rail to accomodate a phone up to 10-3/4" deep. Includes three hooks to mount on tool rail.

Accessory Tray
Constructed of injection molded plastic. Holder measures 9-1/2" wide by 2" high by 10" deep and includes three hooks to mount to tool rail. Tray includes six compartments for storage of supplies.

INFORMATION

ANSI Requirements
All fixed and adjustable tables meet or exceed ANSI/BIFMA 1998 requirements for desk products. The adjustable tables meet the ANSI/HFS 100-1988 standard for adjustability and knee clearance.

ADA Requirements
The tables meet the ADA specification for wheel-chair access and height of surfaces.

INFORMATION

Warranty

Center Drawer (3CMN)

Features		
Plastic/metal construction		•
Powder-coated finish		•
Field installable		•

SPECIFICATIONS

Letter Tray
20-ga. epoxy powder-coated steel, and plastic molded in color, then painted to assure color match. Steel and plastic joined permanently by sonic welding. Roll formed steel clip for component attachment to tool rail. ID clips included with tray.

Binder Bin
20-ga. epoxy powder-coated steel, and plastic molded in color, then painted to assure color match. Steel and plastic joined permanently by sonic welding. Roll formed steel clip for component attachment to tool rail. ID clips included with tray.

Slanted Storage
24-ga. epoxy powder-coated-steel, and plastic molded in color, then painted to assure color match. Steel and plastic joined permanently by sonic welding. Roll formed steel clip for component attachment to tool rail.

Key Options
There are various key options available depending on the component model. The key alike option (KA) allows multiple components of a workstation to be keyed alike. The lock number can be specified. The key standard option (KS) allows each component to have its own randomly selected key number shipped with the individual component. The no lock core option (NLC) provides more flexibility in keying workstations alike. All locks and keys for the individual components specified with no lock core will be packaged separately from the components. The location of the lock core and corresponding numbered key will be determined upon installation. Keys are P-Series.

INFORMATION

ANSI Requirements
All fixed and adjustable tables meet or exceed ANSI/BIFMA 1998 requirements for desk products. The adjustable tables meet the ANSI/HFS 100-1988 standard for adjustability and knee clearance.

ADA Requirements
The tables meet the ADA specification for wheelchair access and height of surfaces.

HOW TO ORDER

- Indicate the following information on order form:
- Quantity of each item.
 - Model number, including options. See "How To Build a Model Number".
 - Any special service required.

Note: • The ☐ indicates that a choice is required.

• The absence of the ☐ indicates that no choice is required.

• Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A**Select basic model.
- B**Select edge style.
- 74P** - 74P edge
- C**Select surface direction.
- L** - Left
- R** - Right
- D**Select PowerUp® module location.
- PUN** - No module
- PUL** - Left module; add \$148
- PUR** - Right module; add \$148
- PUC** - Center module; add \$148
- E**Select height.
- 9** - 29" high
- F**Select wire trough.
- Add upcharge to unit price for WT option.
- NT** - No wire trough
- WT** - Wire trough
- Available in black only.

- G**Select electrical option.
- Add upcharge to unit price for T6 option.
- NP** - No power
- T6** - T6 power
- H**Select frame style.
- Add upcharge to unit price for WF option.
- WM** - w/modesty panel
- WF** - w/full modesty panel
- See pricing column for full modesty panel upcharge.
- w/ Full modesty panel (available on 29" high only)
- I**Select location and type of leg.
- TS** - Standard legs
- TB** - Transition leg (both)
- TL** - Transition leg (left)
- TR** - Transition leg (right)
- J**Select grommet option.
- Grommets are required for overhead cabinet.
- OGN** - No worksurface grommet
- OGY** - Yes worksurface grommet

Grommets can be used for wire pass-through.

- K**Select paint color.
- Refer to the **Product Color Options** page in this price list.
- L**Select insert color.
- Refer to the **Product Color Options** page in this price list.
- Insert color also includes wire trough (WT) if selected.
- M**Select laminate surface.
- Refer to the **Product Color Options** page in this price list.
- N**Select edge color.
- Refer to the **Product Color Options** page in this price list.
- Edge color offerings are based on edge style selections.
- O**Select grommet color.
- Refer to the **Product Color Options** page in this price list.

FINISH INFORMATION

Additional Laminate Offering

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturer's name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested through the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See “How To Build a Model Number”.
- Any special service required.

Note:

- The ☐ indicates that a choice is required.
- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A**Select basic model.

74P

EP

PF

- 74P edge

- Elliptical postformed edge

- Postformed edge
- B**Select edge style.

74P

EP

PF

- 74P edge

- Elliptical postformed edge

- Postformed edge
- C**Select PowerUp® module location.

PUN

PUL

PUR

PUC

PUB

- No module

- Left module; add \$148

- Right module; add \$148

- Center module; add \$148

- Both left and right modules; add \$297

PUB option only available on 60”, 66” and 72” wide worksurfaces.
- D**Select wire trough.

NT

WT

- No wire trough

- Wire trough

Available in black only.

- E**Select electrical option.

NP

T6

- No power

- T6 power

If T6 power is specified, receptacles, jumpers and infeeds are to be specified separately
- F**Select frame style.

WM

WF

- w/ Modesty panel

- w/ Full modesty panel

See pricing column for full modesty panel upcharge.
- G**Select grommet option.

OGN

OGY

- No worksurface grommet

- Yes worksurface grommet

Overhead cabinet can NOT be ordered.

Grommets can be used for wire pass-through.

- H**Select paint color.

Refer to the **Product Color Options** page in this price list.
- I**Select insert color.

Refer to the **Product Color Options** page in this price list.

- J**Select laminate surface.

Refer to the **Product Color Options** page in this price list.
- K**Select edge color.

Refer to the **Product Color Options** page in this price list.

Edge color offerings are based on edge style selections.
- L**Select grommet color.

Refer to the **Product Color Options** page in this price list.
- M**Select PowerUp® module color.

Refer to the **Product Color Options** page in this price list.

FINISH INFORMATION

Additional Laminate Offering

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturer's name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested through the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.
