Description	Modification #
Tattoo Screen Shelf	20-277925-00

**Divide and Display** – Personalization and space separation go hand-in-hand with the Tattoo Screen Shelf. Create beautiful boundaries within any environment by placing plants, accessories, photos, or framed graphics on display. The screens are tackable felt to hold memos, mementos and more.

**Lightweight Continuity** – Seamlessly integrate Tattoo Shelves into a variety of environments. Create visual consistency when paired with standard Tattoo flex or spine screens. With an interlocking foot design, Tattoo screens provide support and stability for reconfigurable spaces.
