

POWER DISTRIBUTION WITHOUT PANELS

Winner of a 2014 Best of NeoCon Gold Award and BUILDINGS magazine 2014 Product Innovations Grand Prize award, **Trellis™** system responds quickly to the evolving power access, cable management and space delineation needs encountered within today's office and learning environments. Contact your local KI Sales Representative to learn more.

Trellis™ System

- Provide power to a wide range of fixed or height-adjustable tables
- A simple kit of parts ensures power is easily installed and reconfigured with minimal cost, tools and downtime
- A 10-wire, dual-sided system allows users to plug and play
- Lightweight yet robustly designed to accept modesty panels
- Effectively work or learn without compromising office sightlines or levels of employee interaction
- Specify and order Trellis through KI's Custom Options process
