

700 Series[®] Desking System

flexible | freestanding | modular

Furnishing Knowledge[®]

700 Series® Desking Systems

700 Series desking system is flexible, freestanding and modular. Its many components accommodate a variety of environments and workplace needs. 700 Series offers various desks, returns, bridges, credenzas and corner units.

Easily manage power and data with 700 Series wire management. Desks, returns, bridges and credenzas offer built-in wire management raceways for cables and cords. The raceway simply fastens to the underside of a worksurface and extends between panels.

700 Series desking system is compatible with a range of KI storage products. Optional components like modesty panels and overhead storage offer flexibility.

700 Series is available in a variety of worksurface laminates, edge styles and finish options.

Partial-height modesty panels offer privacy and increased air circulation.

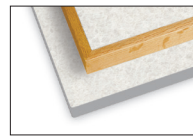

Open overhead units provide additional storage. Self dividers available.

Wire management raceway under worksurface manages cords.

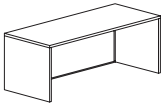

Grommets distribute cords between desks.

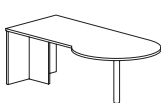

Edge styles include wood band or 74P (2 mm polypropylene) edge.
