# QUICK REVIEW

Serenade™ Gathering Tables

December 2019

Designed to support community.

A. Available in standard (29") or café (42") heights and single- or double-sided depths as well as a range of widths.

B. Inset support leg is included with tables of greater width (108, 120, 144").

C. Stringers or partial modesty panels come standard to provide additional stability.

D. Full length modesty panels may be substituted for the stringer on all models.

E. Select up to three contrasting laminates: top, legs, stringer/modesty panel.

F. A self edge allows for seamless transition between surfaces.

G. Adjustable glides come standard on all tables.

H. Optional surface power modules (PowerUp, Villa or 4-Port) provide easy access to power for device charging, while integrated wire management provides a cord free solution.

I. Table surface and legs feature 2"-thick construction, enabling clean wire management under the table top and within the legs.

J. Optional bag hooks allow users to store personal belongings under the worksurface, keeping items close by yet out of sight.
