## VERVE

Verve is a wall tile collection composed of 12 vibrant and solid colors. It comes specifically in size 5x20 2"x8" with a polished finish. Its surface is characterized by unique irregularities of handcrafted products. Joining this series is a tridimensional element: Raw which brings to mind the typical tiles of external facades of the buildings in the 70's reinterpeted with an opaque white granuled surface like the plaster of the Apuglian farms. Five very interesting pencils were used to create a fun twist: three glossy colored, one in terracotta and one in natural wood; decorative elements that were very characteristic of the past years. The possibility of different combinations is endless. From monochrome backgrounds to multiple colors to create unique patterns. This is why we have devised a simulator on our website with 16 chromatically customizable laying models. We've always believed in the power of color and in the strength that it transmits to the living space. Verve is pure energy.

## VERVE CONFIGURATOR

Verve is a collection with an infinite range of possibilities, that's why we have developed a simulator with 16 different laying patterns, deliberately chosen with repeatable patterns in order to demonstrate how the performance of a single pattern can be changed through the simple modification of the color of the product and the grout. You can easily access it through our website, as part of the Verve 41 collection, or by typing Verve.com on the internet. Thanks to the simulator, you can customize the selected model with an automatic final count of the number of pieces, boxes, square meters, and scrap needed to make your composition. The count will be of the required square footage, having previously entered the dimensions you want to obtain, but the maximum viewable area of laying will be 500x280 cm - base x height. Furthermore, you will be able to see the last 41 schemes previously realized.

## VERVE COMBINATION TIPS

*Verve opens the way to several laying combinations.*

## TECHNICAL DETAILS

### VERVE

TECHNOLOGY **MONOCOTTURA IN PASTA BIANCA - WHITE BODY SINGLE-FIRED WALL TILE**

**Verve** FINISH **LUCIDO - LUX / RAW** FINISH **OPACO - MATTE**

SIZE **5x20** 2"x8"

THICKNESS **8,5** MM

### MATITA

**LAVANDER - BERRY - ALOE** FINISH **LUCIDO - LUX**

**COTTO - WOOD** FINISH **OPACO - MATTE**

SIZE **1,1x20** 7/16"x8"

THICKNESS **11** MM

A handcrafted look is given to the product through variable flatness, structured surface, non-uniform coating of glaze and small irregularities of the glaze. The same caliber between tiles is not always guaranteed. We recommend a joint of 2/3 mm suitable for natural products. Colors are consistent with the NCS color scale.

The Wood pencil can be used for interior walls in both residential and public spaces, but it is not recommended to use it for areas in direct contact with water: showers, saunas, pool walls etc.

## VERVE GROUTS

| VERVE     | advised grouts colors | NCS color scale |
|-----------|-----------------------|-----------------|
|           | Kerakoll 30           | NCS S 3560-Y    |
| MUSTARD   |                       | NCS S 1040-Y40R |
| TANGERINE | Mapei 141 Caramel     | NCS S 2030-Y60R |
| NUDE      | Mapei 141 Caramel     | NCS S 2070-Y80R |
| LOBSTER   | Kerakoll 41           | NCS S 5030-R    |
| BORDEAUX  | Kerakoll 42           | NCS S 8005-Y50R |
| CACAO     | Kerakoll 47           | NCS S 3060-G10Y |
| GREEN     | Kerakoll 19           | NCS S 2020-G    |
| MINT      | Kerakoll 18           | NCS S 1550-R80B |
| TUAREG    | Mapei 172 Space Blu   | NCS S 6030-R70B |
| OCEAN     | Mapei 172 Space Blu   | NCS S 4010-G10Y |
| MUSK      | Kerakoll 18           | NCS S 0300-N    |
| WHITE     | Kerakoll 02           | NCS S 0300-N    |
| RAW       | Kerakoll 02           |                 |

In case of patterns with more than one color, it is recommended to use a tone-on-tone grout matching the dominant background color.

## VERVE LAYING INSTRUCTIONS

Before starting the installation process, make sure that the surface is level and has been thoroughly cleaned. For proper installation, it is essential to use adhesives that are compliant and suitable for the intended purpose. For installations in humid environment, such as bathrooms and showers, it is highly recommended to properly waterproof the laying surface using specific products for this purpose to avoid any water infiltration. In case of cuts, take care in sealing the affected area with silicon so as to avoid any further water infiltration.
