Colorwood

Era il 1939 e milioni di persone hanno visto in anteprima Il mago di Oz a colori: il processo è stata una delle prime tecnologie che ha portato il colore al cinema. A 4 anni dal lancio di una delle nostre collezioni più identificative, abbiamo deciso di consolidare tale argomento. Nasce, prodotto industriale creato su una base grafica di un blend di 11 essenze lignee differenti. 3 tonalità neutre, Bianco, Beige, Nero, 15 colorazioni brillanti, un bianco e nero assoluti. Un nuova proporzione, un formato lungo e affusolato. Una differente tecnologia produttiva. Creare ambienti monocromatici e o multicolore ora è possibile grazie alle sue caratteristiche tecniche che lo rendono utilizzabile sia per rivestimenti sia per pavimenti in spazi privati e pubblici. Solo una caratteristica è rimasta invariata: la possibilità interpretativa da parte del committente di utilizzare il colore a suo piacimento.

Life in Color!

It was 1939 and millions of people previewed The Wizard of Oz in colour: the Colorwood process was one of the first technologies that brought colour to the cinema. 4 years on from the launch of one of our most significant collections, we decided to consolidate this topic. Colorwood arrives, an industrial product created on a graphic base of a blend of 11 different wood species. 3 neutral shades, White, Beige, Black, 15 Bright Colours, Absolute Black & White. A new proportion, a long, tapered shape. A different productive technology. Creating monochrome or multicoloured environments is now possible thanks to their technical characteristics that make it useable both for wall coverings and flooring in private and public spaces. Just one feature has remained unchanged: the customer's interpretive ability to use the colour as it likes.
