SLABS NEW APPLICATIONS

1.- Residential. *In the decoration of bathrooms and living rooms, main rooms and general flooring. For its technical benefits, the use of ceramics in the floors and walls of the kitchen is ideal. The large formats involve fewer joints, so the visual effect is highly valued by architects and interior designers who see how their rooms are extended.*

2.- Large Projects. *Our Porcelain Tile is a material capable of supporting intense pedestrian traffic in interior and exterior. Used very often in facades and general flooring in hotels, airports, offices or shopping centers, has the necessary certificates to comply with all regulations required by your project.*

3.- Contract. *Highly valued in the flooring and coating of shops, cafes and restaurants.*

4.- Furniture. *Timeless, hygienic, easily washable and with a variety of formats available. Our ceramic slabs allow the realization of tables or the integration in kitchens in an easy and comfortable way.*

5.- Countertops. *The countertops manufactured with our large ceramic formats are highly appreciated for their finish. There are many applications in the bathroom and kitchen space. It is possible to use the same material both on the kitchen floor and on the countertop, or on the wall and furniture.*

Allure

Marbled Stone in Ceramics

Allure conveys the strength, character and temperament of the stone on which this collection is inspired. The veins have been carefully treated to highlight the personality of this material. The result of this work is a set of captivating and aesthetic pieces that will beautify the space where they are installed.

The series presents a Soft Bush Hammered surface that reproduces to the touch the characteristic texture of the natural material; which together with the three tones in which it is presented, extend the possibilities of combining the collection of collections Contemporary Mixtures Surfaces.
