Standard finish selection

<http://ofs.com/resources/finishes>

- Veneer
 - Standard veneers and studio veneer
 - Quartered and flat cut veneers are available
- Laminate
 - Woodgrain HPL laminates

Worksurfaces

- 1" or 1.5625" thick worksurfaces feature 3-ply construction with externally banded hardwood
- Moderate open grain with matte finish
- HPL worksurfaces are 3-ply construction with .050 thickness for high impact resistance
- Primary worksurfaces are profiled on approach and user sides
- Secondary worksurfaces are profiled on user side only

Height adjustable worksurfaces

- Casegoods
 - Height adjustability on double pedestal desk, single pedestal desk, arc desk, returns, bridges, and run off tables
 - Uses 1/4" thick steel mounting plates (excludes arc base)
 - Uses L bracket that is attached to the top and leg mechanism (arc base only)
- Freestanding tables
 - Feet are fabricated out of 1/2" thick powder coated steel with adjustable glides
 - Table bridges include a 1/4" thick steel mounting plate to attach to the worksurface
- Lift mechanism
 - 2 stage column constructed out of 2mm thick powder coated steel
 - 70mm square profile
 - (4) User-programmable memory buttons with digital read-out display

Drawers

- Drawer sides and back are .4375" thick unidirectional plywood, and are assembled using dowel construction. Drawer bottoms are .25" thick
- Interiors are sanded and finished
- High quality suspensions with lifetime warranty
- Box and file drawers are full extension
- All suspension systems feature positive and cushioned in/out stops, steel ball bearings and a durable finish to ensure a smooth ride
- File drawers accommodate letter or legal filing
- Filing hardware is plated to prevent corrosion
- Optional center drawer
- Optional USB charging located in upper box drawer

Locking

- Pedestal locks secure all drawers with the turn of a single key
- All units ship keyed alike
- Removable lock cores for re-keying

Specific key requirements may be specified on the purchase order at the time the order is placed for field installation (ship separately)

Assembly

- Butt-joint case construction
- Structural joints secured by 16-gauge steel angle brackets, flat plates and wood glue blocks for ultimate stability
- Adjustable levelers feature insert nuts to prevent glide tear-out
- Casegoods ship fully assembled
- Modular components are offered for easy reconfigurability
