

Lasata

Lasata has grown into a family of patient recliners, each designed to meet specific healthcare systems' services. It positively supports the critical relationship between patients and caregivers, helping them navigate the best possible path toward wellness and a better life.

Its intuitively designed features give patients and caregivers the sense of confidence needed at critical moments. The bariatric version was designed with a wider seat and back and added strength to the stationary arms.

Lasata

Features & benefits

- Dual steel mechanism (10 year mechanism warranty)
- Wall-saver design
- Foot ottoman and back operate independently of one another
- Dual backrest activation levers
- Locking dual pivoting arms (models available with stationary arms)
- Ergonomic arm design provides long-term comfort
- Dual-sided central locking caster system
- Durable urethane push handle
- Foot ottoman handle available on left or right side
- Due to Lasata's design, the outside back has limitations in textile applications
- Perimeter base trim protects upholstery, available in light grey (Frost) and dark grey (Shadow)

Options

- Heated seat and back
- Foley hook available in Frost or Shadow
- Head pillow

Mike Shields - Studio 3

Led by the belief that form truly does follow function, industrial designer Michael Shields of Studio3 has been designing furniture for over 30 years. His focus is on designing for disassembly, seeking out environmentally responsible materials, and ensuring comfort for the user.

After working closely with other contract manufacturers, Michael launched an independent design studio in North Carolina, where he has been providing clients with innovative products since 2001. His work has earned him over twenty patents and six Best of NeoCon awards.
