Standard finish selection

<http://ofs.com/resources/finishes>

- Veneer • Solid edge glued to Walnut or Oak with super matte finish

Frame construction

- | | |
|------|---|
| Base | <ul style="list-style-type: none"> 5/8" square steel tubing legs with 3/16" x 7/8" steel cross bands (powder coated) Two panels that are machined and glued together to create one thick panel <ul style="list-style-type: none"> Veneer panels are 2" thick TFL panels are 2" thick Hard-wood, finger jointed, L-shaped legs are embedded inside bases that connect to the tops |
| Top | <ul style="list-style-type: none"> Tops are a build up consisting of a single panel <ul style="list-style-type: none"> 2" thick on veneer tables 2" thick on TFL tables 2" thick veneer edges 2" thick TFL edges 60" & 72" long tables use steel support rails 84", 96" & 120" long tables have a support beam that runs from end to end Mitered at end panels TFL tables have 1/4" flat edges on end panels and at top |

Cable management/power

- Bases have a top to bottom cable channel that runs through the interior of the bases
- Cable channel measures 5 x 1 3/4"
- Power supplies located in center of table or 7.5" off the end
- Tables 84" and longer use support beam as a channel for cable management to the bases
- 60" & 74" tables have cutouts in bottom covers where power supply is located
 - Units ordered with power option will require use of wire management cables
 - Wire management ordered separately

Shelf

- 2 1/2" tall shelf divided into three equal sections
 - Four on the 120" table
- Shelf depths range from 13 5/8" to 6" depending on width of table
- Shelf option available on 36" and 42" tall tables only

Carton/packaging

- Veneer models - Prior to shipping, product is placed on a carton and covered with cardboard
- TFL models - Prior to shipping, product is packaged flat with protective edge covering and banded to a skid
- Levelers are installed in bases when shipped
- Ships KD
