

Staks

Simply organic structures

By following natural human behaviors in the office, Staks creates a space that feels organized and consistent—yet never rigid. The design emphasizes negative space and versatile storage to achieve a fluid, unforced environment.

Form and function in the private office

Staks strikes a perfect balance of performance and aesthetic in private offices. Executives and individual contributors alike benefit from refined materials, integrated organization, and a warm yet professional feel. With smart storage solutions and sit-to-stand options, Staks delivers high functionality without compromising on style.

Tray drawer with paper shelf

Customization to the inch and dollar

Staks is built to adapt—offering customizable privacy, storage, layout, and height adjustability to fit any footprint or budget. Its architecture follows human movement and natural flow, creating spaces that are both intentional and flexible. Whether you're working with tight square footage or aiming for a tailored solution, if you can sketch it, you can spec it with Staks.

**Textures and patterns that
create a sense of home**

Rich wood tones, warm textures, and thoughtful
finishes give Staks a welcoming, residential feel.

Scalable benching for agile work

Staks benching offers a cohesive, scalable solution for agile environments. Integrated cable management, privacy options, and personal storage keep things organized and supportive of both individual focus and team interaction.

Where function meets flow

Workflows shift throughout the day, and Staks keeps pace with versatile storage solutions that bring order to the evolving workspace. Staks offers thoughtful storage elements that keep essentials close at hand and clutter out of sight.

Pam Light +
John Duffy

PLD

Each with more than 30 years of experience in product design, interior design, and dealership purchasing, Pam Light and John Duffy are the perfect team. Just as their partnership requires balance and harmony, they believe that design is the marriage of

science and art. Pam and John believe that building spaces is about making people comfortable, which means products should be made critically, intelligently, and humanely. Their work spans a variety of products, including furniture for corporate, entertainment, hospitality, and healthcare settings.
