# FORAGE hard surface

—  
Growth  
Guide

  
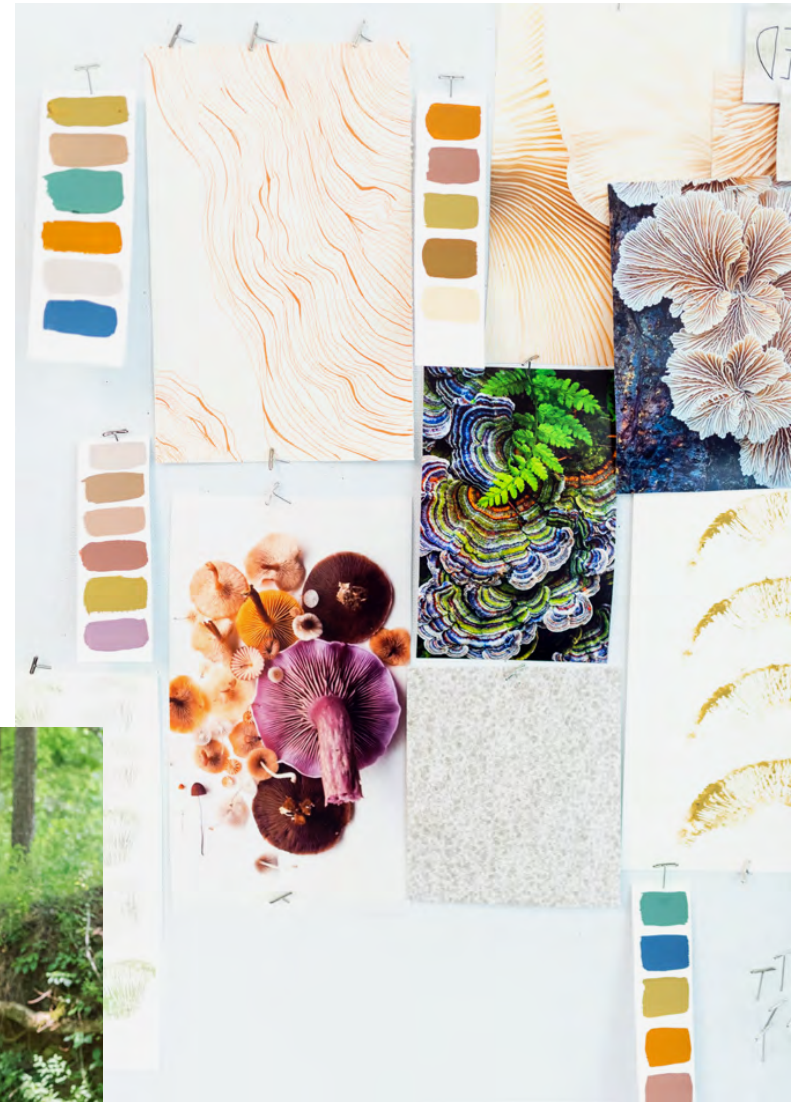

lvt  
9" x 36"

Evoke a sense of wonder and exploration. Biophilic patterns create comforting and communal spaces.

---

Patcraft product designer **Erin Helm** set out to design a collection celebrating the story of growth in nature, inspired by mycology and an interest in the study of mushrooms. Throughout the design process, Erin collected various woodland elements, including plants and mushrooms, to stamp, paint and draw. The artwork she created using these natural tools produced textures and motifs that are seen in the hard surface collection's two styles, reflecting the movement and variation of mushrooms in nature.

**EXPLORE BIOPHILIC DESIGN IMPRINTED  
BY PATTERN AND COLOR /**

Create mindful spaces that promote wellness and wonder. In two complementing styles and 9 colorways, Forage hard surface is designed for easy coordination – for spaces to focus, heal or foster wellbeing. Gather in nature's enduring design.

## inside the design /

### easy-to-coordinate styles

Styles are designed to enable easy coordination and seamless integration throughout an entire space.

### resistant to stains, scratches + scuffs

With an ExoGuard+® finish for superior appearance retention, it resists scuffs, scratches and stain.

### durable construction at its core

Forage hard surface styles feature a 20 mil wear layer for superior durability and a 2.5mm product construction.

### biophilic colorways

The biophilic colorways offer a fresh perspective for calming spaces, providing the warmth of nature in nine soft shades for complementary pattern play and visual interest.

### easy to clean

Easy to install and easy to clean, Forage hard surface is polish-optional for low maintenance in high-performance spaces.

### low VOC + free of ortho-phthalates

Forage hard surface is free of ortho-phthalates and is low VOC.

# Transform space from the inside out.

**Create a design ecosystem.** Biophilic patterns and color inspire spaces to commune + contemplate. Unearth the beauty of nature with Forage.

“

The inspiration behind the patterns within the Forage collection is connected to my love of exploration.

The design ***celebrates a story of nature and growth***, bringing the outdoors in through biophilic elements.

The collection is designed to create spaces that support living, working, learning and healing—comforting spaces that promote connectivity.
