

Cleaning Guide

Pattern: **Luxe**
AC#: **60610 - 60627**
Content: **58% Acrylic, 42% Polyester**
Bleach Cleanable: **N/A**
Finish: **Teflon**
Cleaning Code: **WS**

General Cleaning Recommendation:

- **Grease, oil:** Follow [method B](#) described below.
- **Chocolate, coffee:** Sponge with lukewarm water.
- **Wine, milk, soft drinks:** Follow [method A](#) described below.
- **Blood:** Treat with a mixture of 2 tablespoons of salt to 1 liter of water. Rinse and blot with dry cloth. For persistent stains, sponge with ammonia solution described in [method A](#).
- **Fruit:** Sponge with cold water.
- **Wax, candle:** Gently scrape off wax with dull knife or spatula. Use [method B](#) or cover spot with several layers of absorbent paper and apply a warm iron.
- **Ballpoint pen, ink:** Treat with rubbing alcohol using [method A](#).
- **Urine, sweat:** Use [method A](#), followed by a small amount of ammoniated liquid detergent.
- **Mud:** Gently lift off as much soil as possible with dull knife or spatula. Allow to dry, then vacuum. For persistent stains, use ammonia solution described in [method A](#).
- **Pencil:** Use [method B](#), followed by a small amount of ammoniated liquid detergent. Rinse thoroughly.
- **Vomit:** Gently lift off vomit and sponge thoroughly with cold water, then use [method A](#).

Method A: Use only water-based commercial cleaning agents. Alternatively, mix 2 tablespoons of ammonia with 1 liter of water. Blot the stain gently with a cloth dampened with this solution, turning continually so that only the clean part of the cloth is in contact with the stain.

Method B: Use only mild, pure, water-free dry-cleaning solvents. Dampen a cloth with the solution and follow the procedure described in method A.

- Always treat stains promptly.
- Sponge the stain, never rub. A gentle blotting action with an absorbent cloth or sponge is most effective. Work inwards from the outside edges to avoid spreading the stain.
- Blot up wet or oil-based spills quickly with an absorbent cloth, tissue or sponge. For solid or semi-solid spills, lift off excess before treating, using a dull knife or spatula.
- If the stain has already dried, gently brush off any excess material, then dab gently with a damp cloth or sponge until it disappears.
- Never try to remove the stain with household detergents.
- Vacuum carpets and upholstery regularly to remove accumulated dirt, which can fade colors and accelerate wear.

When vacuuming upholstery, use special brushes and nozzles provided for more effective cleaning.

- It is recommended to have carpets and furnishings professionally cleaned from time to time.
- Never use water or liquid detergents on velvets.

The cleaning recommendations above are a guide to help in the maintenance of Arc-Com textiles. They are supplied without warranty, representation or inducement of any kind, including, but not limited to, the implied warranties of merchantability and fitness for a particular use or purpose. Arc-Com neither guarantees, nor will take any responsibility for, specific results as testing of these products was conducted under laboratory conditions and results may vary under actual conditions. Any misuse of cleansing agents may void the Arc-Com UPHOLSTERY WARRANTY & PERFORMANCE GUARANTEE.

Under no circumstances shall Arc-Com be liable for any incidental, consequential, or other damage resulting from negligence, misuse, mishandling or exposure to any of the chemicals used in connection with the cleaning or maintenance of Arc-Com textiles. Information or questions relating to chemicals or cleaning solvents, environmental use, and human exposure should be reviewed with the appropriate vendors or suppliers. Users must read the product specifications and determine appropriateness for specific applications. All label instructions on their use and precautions should be followed.
