

Valor

Wall Surfaces · Vinyl · Type II

Arc-Com Wall Surfaces products are designed and colored to coordinate with the full spectrum of Arc-Com textile products for Upholstery, Drapery, Cubicle, and Panel applications.

Custom colors are available through Arc-Com Wall Surfaces Studio. Minimum yardage requirements apply.

Valor is a complementary companion design to Armor. Select colors were designed to complement each other.

Physical Properties:

Width:	55/56"
Finished Width:	54"
Repeat:	Random Match / Reverse Hang
Weight:	Type II, 20 Ounces Per Linear Yard / 626 Grams Per Linear Meter
Backing:	Recycled Woven PCO (10% Post Consumer Recycled Content)
Tear Strength:	25 x 25
Tensile Strength:	50 x 55
Fire Rated:	Class A / ASTM E-84 Tunnel Test NFPA Life Safety Code 101 - 2006 Edition International Building Code - 2006 Edition Flame Spread: 20* Smoke Developed: 70* Criteria Values on 5/8" Type X Gypsum Board: Flame Spread: 0-25 / Smoke Developed: 0-450 This test method is also published under the following designations: ANSI 255 NFPA 255 UBC 8-1 UL 723 CAN/ULC-S-102 *The numerical flame spread rating referenced herein is not intended to reflect hazards presented by this or any other material under actual fire conditions. Arc-Com shall submit, upon request, a Certificate of Compliance that wallcoverings used meet specifications and modifications outlined herein.
MEA Acceptance:	Approved for use in the City of New York, Department of Buildings.
Federal Specifications:	Meets or exceeds requirements for Type II material for Federal Specifications CCC-W-408 A/C/D and W-101 WA Quality Standard for Polymer Coated Fabric Wallcovering. Tested in accordance with test procedures detailed in Federal Specification CCC-T-191A.
Quality Standards:	Low in VOC's / Printed with water based inks. California 01350 Indoor Air Quality: Low VOC emitting vinyl wallcoverings meets California Department of Health Services Section 01350 requirements for office and school interiors (LEED® IEQ 4.6). Stain and Mildew Resistance: Best rating (0) as tested in accordance with G.S.A. Federal Specification CCC-W-408 A/C/D. Anti-Microbial: All of our vinyl wallcoverings contain bactericide and mildew inhibitors to discourage the growth of mold and mildew under normal conditions.
LEED® Points:	10% Post Consumer Recycled Content contributes to LEED® POINTS (LEED® MR4). Can contribute to LEED® IEQ 4.1 for low emitting materials, adhesives, and sealants, if used with low VOC adhesives.
Performance Features:	
Composition:	Recycled Material - 10% Recycled Content. Free of Cadmium, Mercury and ozone-depleting chemicals.
Permeability:	Vinyl wallcovering has little or no moisture permeability. If the design, construction or maintenance of a building and / or other circumstances allows moisture to accumulate in a wall or wall cavity, vinyl wallcovering can act as a vapor barrier restricting the escape of moisture and increasing the risk of mold growth. For more information on wallcovering permeability and mold, Arc-Com recommends that you visit www.wallcoverings.org
Perforation/ Micro-Venting:	Vinyl wallcovering permeability can be increased through perforation/micro-venting, when installed with permeable wallcovering primer and adhesive. Perforation/Micro-Venting is available on a custom order basis, 30 yard minimum quantity per color, at an additional cost.
Metallics:	The environmental lighting of your installation may create a subtle gradation of color due to the light reflective quality of this design utilizing pearlescent and metallic inks.
Natural Materials:	The subtle variations exhibited in designs that are replications of natural materials are a natural inherent characteristic and expected beauty of these designs.
Warranty:	5 Year Limited Warranty on Manufacturing Defects.
Installation:	Random Match / Reverse Hang Detailed Arc-Com installation instructions are enclosed with each bolt. * Special Installation Note: Armor and Valor are fine, brushed textural wallcovering surfaces. A Level 5 finish is recommended to achieve the highest quality visual appearance by minimizing the possibility of telegraphing minor wall imperfections through the finished wallcovering.
Note:	The natural and vertical design characteristics may create an obvious natural join at the seam. To order a sample, to check stock/delivery, or to place an order please call Arc-Com Headquarters or one of our Showrooms.
