01/2024 Form Order #808076

A person is sitting in a meditative lotus position on a dark, textured carpet. They are facing a large, floor-to-ceiling window that looks out onto a serene landscape. The view outside shows a calm body of water, likely a lake, with mountains in the background under a sky painted with the soft colors of a sunset or sunrise. The interior walls are made of light-colored, horizontally-slatted wood. The overall atmosphere is peaceful and minimalist.

Feel good on every level

Life is colorful, and rightly so. Color has the power to improve the way we think, act and feel. It's a key tool for influencing how we experience space in everywhere from hospitals and universities to administrative offices. With noraplan® sentica™ rubber floor covering, the uplifting power of color goes to the floor.

Color, meet performance

noraplan sentica's rich neutrals and accents allow you to harness the bond between color and feeling to set just the right mood. Its tone-on-tone design adds subtle dimension while its smooth surface creates an even plane.

Balancing its colorful personality is the characteristic durability, ease of maintenance and ergonomics of noraplan® rubber flooring, with selections in noraplan® acoustic and noraplan® ed (electrostatically dissipative) meeting specialty technical standards and requirements.

noraplan sentica nTx 3 mm

Art. 186C  3

 12 m x 1.22 m (~39.37 ft x 48 in)

Product Construction	Homogeneous Rubber Sheet & Tile
Class	
Sheet/ASTM F1859	Type I
Tile/ASTM F1344	Type I and Grade 1
Surface Type	Smooth
Indoor Air Quality	GREENGUARD Gold
	CDPH 01350 Compliant
Full Life Cycle Carbon Emissions	Carbon Neutral Floors™
LEED v4	Contributes to multiple IEQ and MR credits

Contact your sales representative or visit nora.com for QuickShip options.

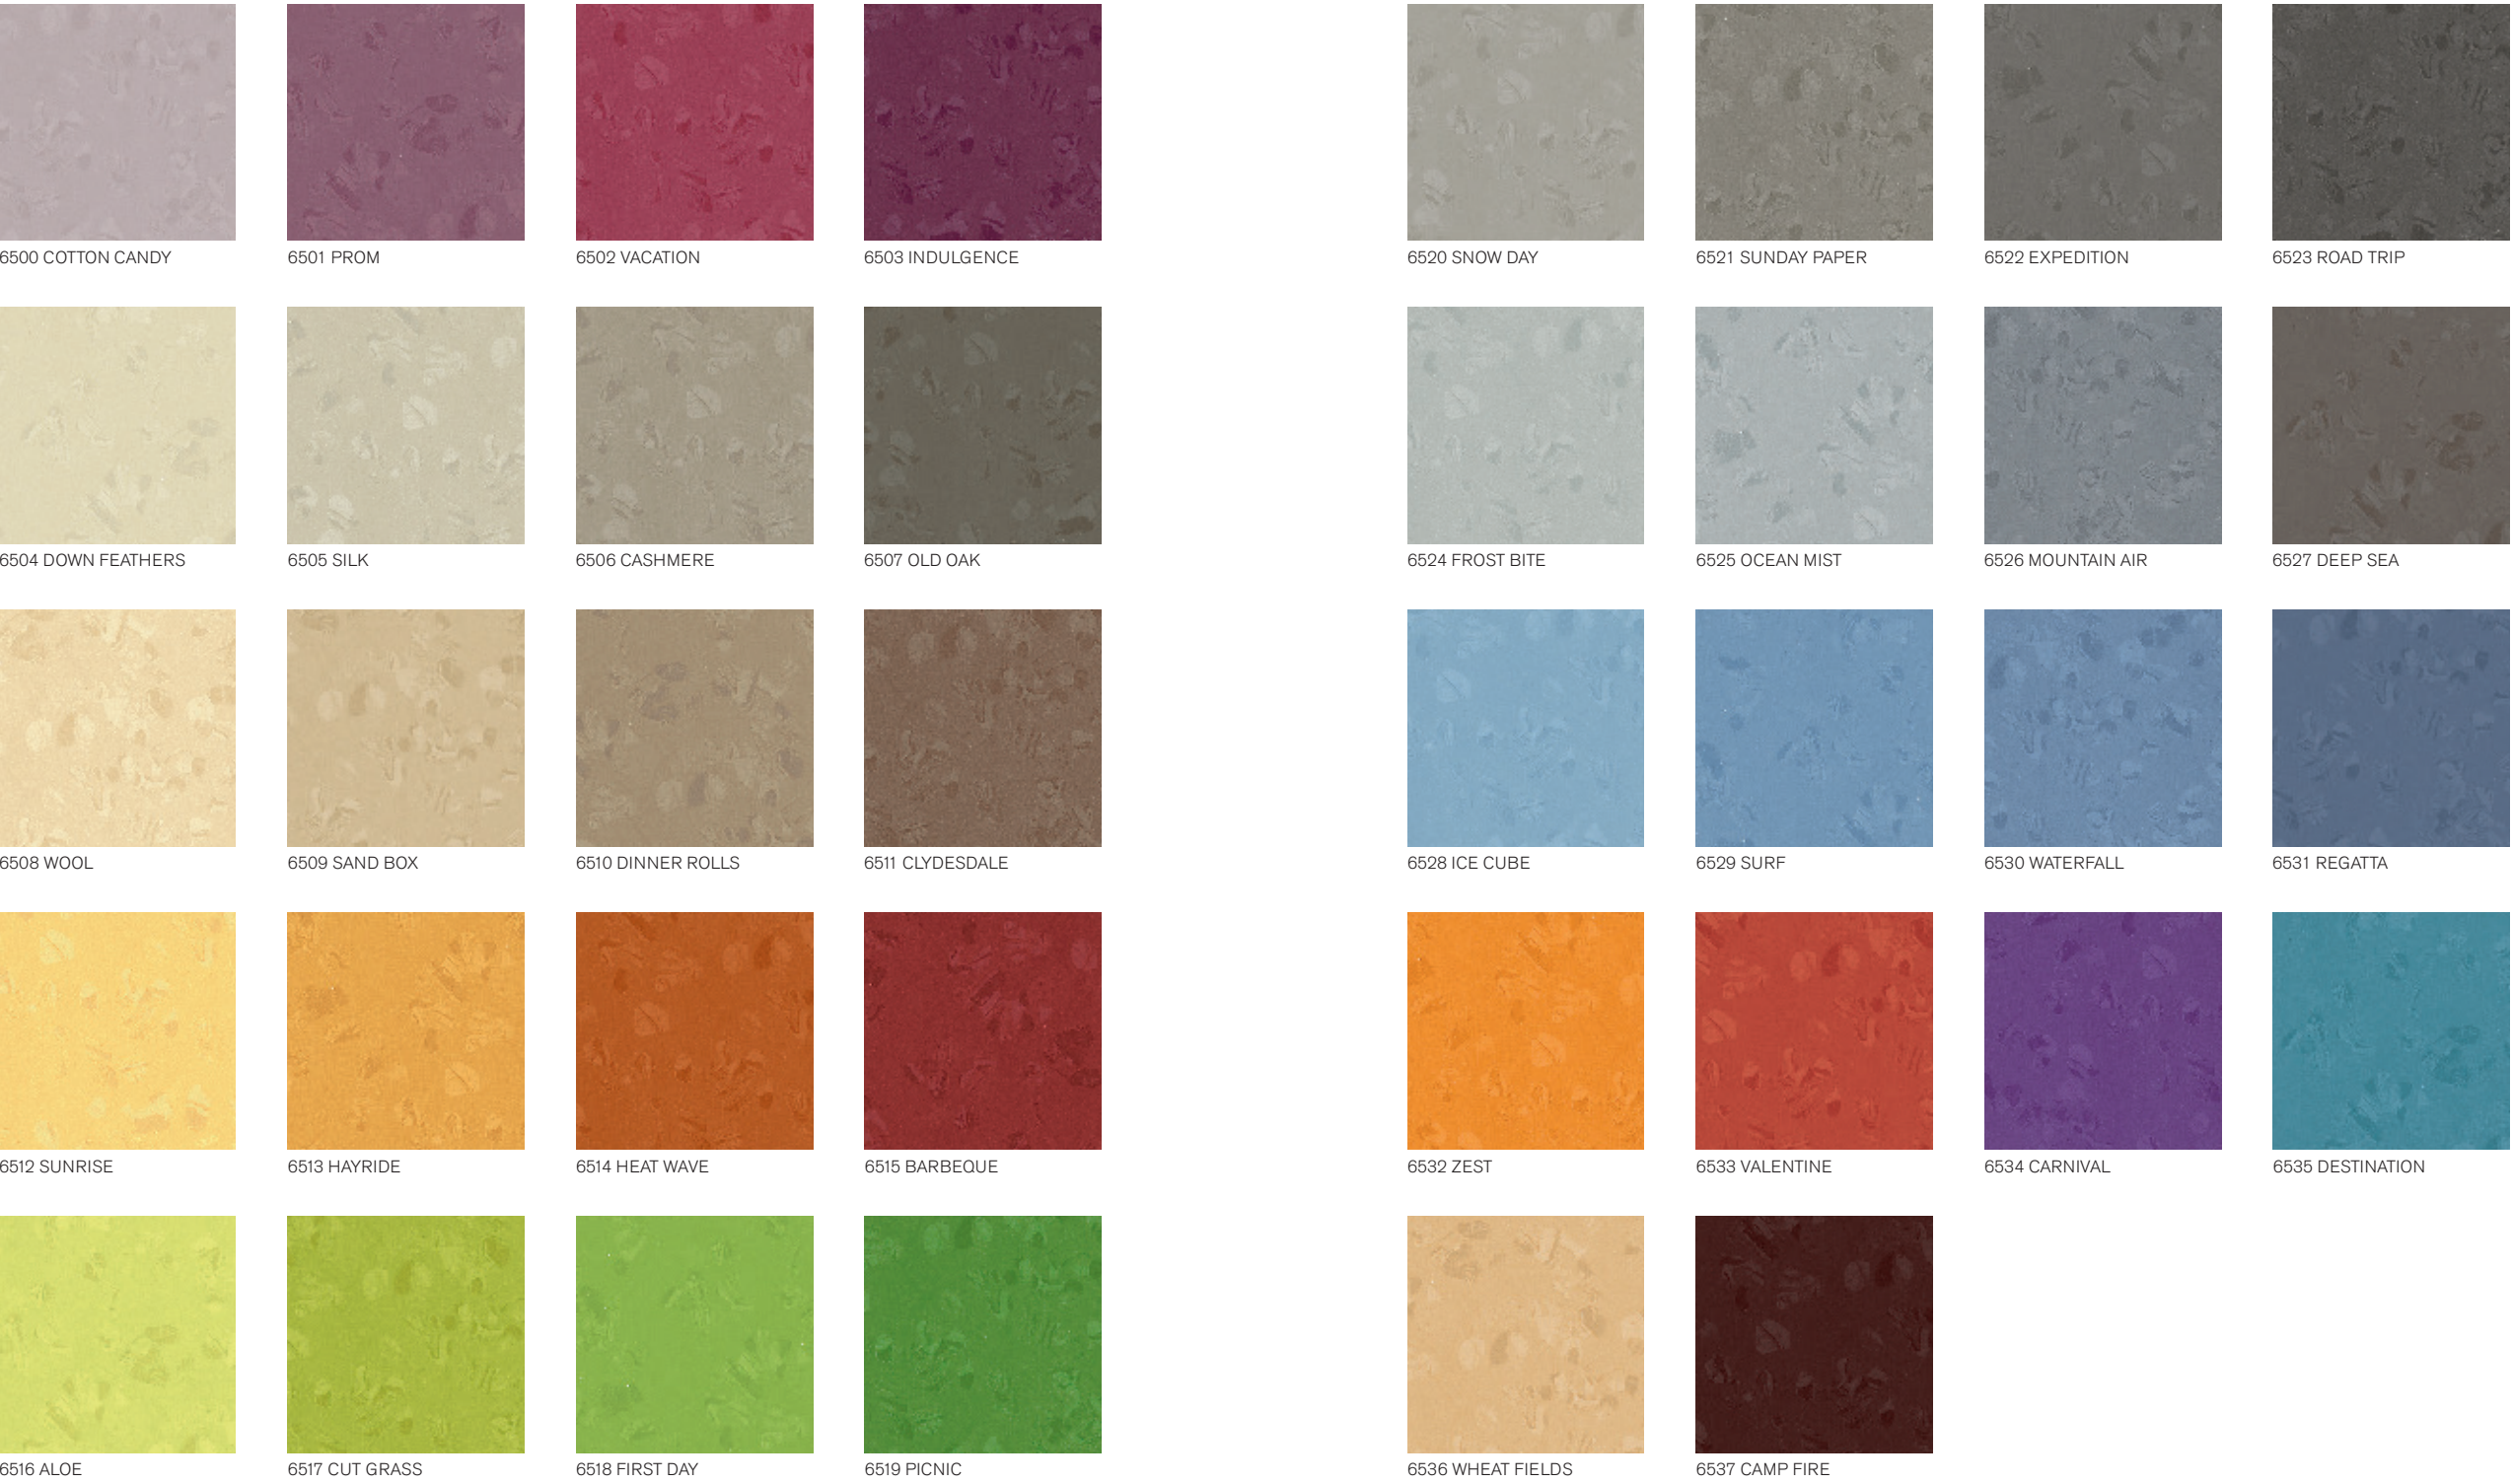

Sheet available as **noraplan® sentica™ nTx™**. Contact your sales representative for details and lead times.

Multiple installation options, including high moisture solutions.

Installation Methods

Welding is not required unless specified. View weld recommendations at nora.com.

Electrostatically Dissipative

Safeguard your electronic devices and equipment with noraplan® sentica™ ed – high performance features combined with low maintenance benefits make it the ideal solution for clean rooms, R&D labs, electronic manufacturing plants and other sensitive applications.

- Keeps static generation consistently lower than 20V (ESD STM 97.2*)
- No conductive wax necessary with reduced maintenance that requires little more than water
- Superior stain resistance to most oils and grease
- Supported by a ten year limited conductive warranty

* Tested with conductive shoes

High Footfall Sound Absorption

For healing and learning environments that require a quiet atmosphere, noraplan® sentica™ acoustic provides high footfall sound absorption with a footfall sound absorption improvement of ΔL_w 20 dB due to the flooring's unique rubber backing.

- Impact Insulation acc. to ASTM E2179 is ΔIIC 23
- Sound Absorption acc. to ISO 10140-3 is ΔLw 20 dB
- Sound Transmission Class acc. to ASTM E492 (800 Hz) is STC ΔTL 54
- Monolithic seamless installation with coordinating weld creates a hygienic environment

Why nora® rubber flooring?

Product Benefits

Reduced Maintenance
Little more than water needed - no finishes, coatings or harsh chemicals necessary.

Quiet Acoustical Performance
Attenuate noise pollution.

Ergonomic Design
Add comfort underfoot, reducing foot and leg pain.

Durable Surface
Withstand extreme stress from heavy rolling loads and wheeled traffic.

Superior Slip Resistance
Help to create safer spaces.

Supports Infection Control
Disinfect thoroughly due to a dense, non-porous surface.

Sustainability Verifications

Carbon Neutral Floors™
Third party verified carbon neutral throughout its entire life cycle as part of Interface's Carbon Neutral Floors program. Learn more at [interface.com/carbonneutral](https://www.interface.com/carbonneutral).

Cradle to Cradle Certified® Silver
Certification of whether a product is safe, circular and responsibly made. Applies to nora 926 and 913 compound floor coverings and stair treads.

GREENGUARD Gold
All nora floor coverings & adhesives are certified for low VOC emissions.

Environmental Product Declaration (EPD)
A statement of product ingredients and environmental impacts over the entire life cycle of a product. A comprehensive life cycle assessment (LCA) is performed to ISO standards to develop an EPD, after which both the EPD and LCA must be third party verified. Applies to nora 926 and 913 compound floor coverings and stair treads, and ESD and acoustic floor coverings.

Health Product Declaration (HPD)
A transparency tool for evaluating whether a product supports Green Chemistry. As part of our work on Health and Materials, Interface continuously reduces the environmental and health impacts of our products through elimination of materials of concern. Applies to nora 926 and 913 compound floor coverings and stair treads, and ESD floor coverings.

Integrated System

nora and Interface cover every area of your building – all from a single source. Create harmonious, space-specific design with our system of soft and resilient floor coverings, including special floorings, stair treads and accessories.

Outstanding Service

From design to post-installation, we have the experts to support your project at every step and can even be a valued resource for your organization's sustainability mission.
