Price list
June 2025

Knoll

Price Adjustment Summary

- February 3, 2025: Veneer (all grades): +1%
- June 2, 2025: All categories: +5.75%

(see next page for details and example)

Important :

This price book is for reference only and does not reflect current list pricing. Refer to the Specification Tool for the latest pricing and product-specific details. Exceptions may apply.

Price Adjustment Summary

Effective February 3, 2025

- Veneer (all grades): +1%

Effective June 2, 2025

- All Categories: +5.75%

To calculate:

- Veneer products: apply 1% adjustment (Feb) before applying June adjustment.
- Non-Veneer products: apply June adjustment only.

Estimating Updated Pricing

Product Price	List	Adjustment Steps	Final Estimate
Veneer	\$1,140	×1.01 (Feb) →×1.0575 (June)	\$1,218
Non veneer	\$605	×1.0575 (June only)	\$640

Important:

This price book is for reference only and does not reflect current list pricing.

Refer to the ***Specification Tool*** for the latest pricing and product-specific details. Exceptions may apply.

Rockwell Unscripted products use contract-grade, durable materials and construction. Regular maintenance will ensure the longevity of your product. To minimize wear and tear or to address most stains, marks, or discolorations, follow the routine care and maintenance instructions outlined here.

Laminate Whiteboard

Proper use and regular cleaning is essential to minimize the possibility of permanent stains and/or ghosting associated with dry erase markers.

Initial cleaning before first use:

- Use a clean, dry cloth and nonabrasive cleaner on entire board.
- Use a dry cloth to wipe the entire surface to remove all dirt and residue from prior step.
- Rinse the entire board with clean water.
- Use a dry cloth to wipe dry the entire surface.

Daily use, care, and maintenance:

- Use proper markers. Knoll suggests Bic Great Erase BOLD markers. Do not use low odor dry erase markers, glass board, or permanent (indelible) markers, as they will lead to staining or ghosting even with regular cleaning.
- Erase markerboards daily with a felt eraser or dry cloth designed for use with dry erase markers.
- KnollExtra offers a set of 4 dry erase markers (pattern ACT-CB-M-MARKER) and a microfiber cleaning cloth (ACT-CB-M-CLOTH). See KnollExtra price list.

Periodic maintenance or to remove stains:

- Clean markerboard completely 2-3 times a week using EXPOT whiteboard cleaner.
- To remove ghosting, use EXPOT whiteboard cleaner and a paper towel. Wipe the entire surface and let dry.
- Mix Joyt dishwashing detergent with warm water and apply to the board using a paper towel, then wipe dry with a clean cloth. Repeat as necessary.
- To remove permanent marker, use a dry erase marker to write on top of the permanent marker. Erase with a dry eraser and then clean with EXPOT whiteboard cleaner.
- For stubborn stains, clean with EV-1 or any liquid ammonia-added cleaner and rinse with clean water, then dry. For best results, wash board like a window with sponge and squeegee.
- Interim cleaning may be done by sprinkling dry powdered cleanser on a felt eraser and applying to board in a circular motion. Rinse with clean water, then dry.
- To remove crayon, scotch tape, or other stubborn materials, apply a mild solvent or paste made with scouring powder and water, then rinse and dry.

Laminate/Melamine

Scrub with Windex, Fantastik, Mr. Clean or other household soaps or detergents well dissolved in water or with a very soft cloth dampened with alcohol or a synthetic thinner. For a dull finish, rub with jeweler's rouge as a polishing agent and finish with paste wax. Remove stubborn stains with Soft Scrub. Never use abrasives.

Veneered Plywood and Solid Wood Legs

Occasional Tables, Steps collection, Easy Stool tops, Mobile Easy Carts

- General maintenance: Clean with commercial brand liquid furniture polish three to four times per year; i.e. Guardsman or Weiman Furniture Cream. Do not use water or household solvents: they will destroy the protective finish.
- For stubborn dirt/light scratches: Rub lightly with (#0000) very fine steel wool. Apply two coats of furniture cream.
- For deep scratches: Contact a commercial refinisher.

Knoll Veneer Finishes

General maintenance

Library Tables, Sawhorse Tables, Easy Tables, Creative Wall Surfaces, Storage

Regular dusting with a soft cloth will help prevent fine dust particles from becoming embedded in the finished surface. We recommend using a soft flannel cloth slightly dampened with water, followed by a dry cloth. Always wipe in the direction of the grain.

All furniture should be used in a stable, controlled atmosphere and positioned to avoid direct sunlight. The ideal climate is 65 to 75 degrees Fahrenheit with a relative humidity between 30 to 50%. Note: Knoll does not recommend waxes or oils to clean or polish veneer surfaces. These materials are not necessary and may actually dull or be otherwise detrimental to the finish of our products.

Stubborn stains

Use a very mild non-abrasive non-ammonia and non-alcohol containing soap diluted in a room temperature water solution. Apply with a soft flannel cloth, followed by a dry cloth. Always wipe in the direction of the grain. Non-ammonia based cleaners can also be used.

Spills

Spills should be wiped up promptly and wiped dry as described above. Spills should never be left on the finish overnight.

Reactions to other materials

Certain vinyl and rubber products left in contact for extended periods of time can chemically react with our wood finishes. Coasters, place mats, notebook covers, and rubber or plastic feet (found on most accessories) can also damage wood surfaces. We recommend using felt pads on all objects that come in contact with furniture. To avoid indentations caused by writing instruments always use a non-vinyl blotter or writing pad.

Powder Coat Paint

Clean with Windex or Endust using a soft cloth. Remove stains with Soft Scrub.

Fabric Surfaces

A regular maintenance program will significantly lessen soil and dirt build up or staining. Cleaning is particularly important in areas adjacent to air conditioning or ventilation systems.

- Avoid excessive heat or moisture. Never allow fabric surfaces to become wet inside the core. Room temperature should be maintained 50-85 degrees; humidity between 20-50%.
- Avoid contact with sharp edges which could puncture the surface.
- Do not handle fabric more than necessary. Avoid bending or flexing the surface.
- Grease or oil should be wiped off immediately. Remove excess grease or oil by blotting. Use hot water and mild soap to remove any remaining residue.
- Whenever possible, clean only with warm water and mild soap. Use caution when applying cleaning agents, particularly those that contain alcohol, strong alkalis, or solvents. These ingredients may react to backing or adhesives used. Always test cleaning agents in an inconspicuous place first.

FilzFelt Surfaces

See FilzFelt website for detailed maintenance and cleaning instructions. Use masking tape lint roller to remove debris. Once a year, lightly vacuum the entire surface with a clean, soft horsehair upholstery brush.

Glass

Clean with Windex, Fantastik or other non-abrasive cleaning solutions. Wipe dry with a clean cloth.

Porcelain

Clean with damp cloth using water or Windex. Do not use any abrasive detergent.

Solid Wood

Clean with dry and soft cloth. Rub smoothly with damp, lukewarm cloth. Treat stubborn stains with household soap solution or a solution with dishwashing liquid. Wipe off with clean, dry cloth. Do not use acid or abrasive detergents.

Rockwell Unscripted Fabric

Regularly clean with light vacuum with upholstery brush. For stains, use only mild, pure water-free dry cleaning solvents.

Nomad fabric

Regularly clean with light vacuum with upholstery brush. For stains, use water-based cleaning agents and foam or mild, water-free solvents. Also cleanable with bleach solution of one part household bleach to four parts water. If natural shedding occurs, trim loose fibers with a sweater shaver.

KnollTextiles fabrics

See KnollTextiles website for detailed cleaning and care instructions. Wipe all spills immediately. Brush and vacuum every three to four months. Use a foam upholstery cleaner as directed semi-annually or more frequently, if necessary. Try a hidden area to test for color fastness.

Spinneybeck Leathers

Leather develop a patina with age. Wipe all spills immediately. Do not use harsh cleaners, wax or oils, which will clog pores. Periodically wipe with a damp cloth. See spinneybeck.com for detailed cleaning and care instructions and to purchase leather maintenance kits and ink remover.

Chrome

Clean with Windex or an automotive chrome cleaner such as Semi-Chrome twice a month. Apply a coat of hard paste wax to protect against moisture.

Moving Parts

Lubricate moving parts every six months.

Swivel Mechanism

Apply a paste-type grease to swivel mechanism once a year.

Fasteners and hinges

Tighten loose fasteners or hinges once a year or as needed.

Knoll

Spinneybeck leathers are made from the top 2% of the world's finest hides, inspected numerous times during production.

After tanning, all Spinneybeck leathers are drum-dyed, a time-consuming procedure which ensures color penetration throughout the hide. Then each hide is finished in the manner which will best bring out its individual character.

Spinneybeck leathers are all full-grain aniline drum-dyed products imported from Italy.

The following is a list of Spinneybeck leathers. Leathers are grouped into five price categories referred to as "grades." The selection of approved leathers varies by product. Please refer to the application approvals matrix for more information.

Square footage requirements for Customer's Own Leather (COL) are listed on each product's pricing page. Please refer to COM Seating Process Overview for further information regarding COL.

For further information, call Spinneybeck at 1 800 482-7777.

Grades	Characteristics
U	
Vicenza	Finished cowhide, corrected grain that is slightly raised.
Volo	Finished cowhide, corrected grain, slightly raised grain texture.
V	
Acqua	Water-repellent finished cowhide, corrected grain, slightly raised grain texture.
Andes	Slightly pronounced grain, finished cowhide and enhanced grain.
Embossed	Corrected grain, aniline dyed, two-tone, heavily finished leathers breathable protective finish.
Tipped	
España	Smooth, tight grain cowhide; breathable, protective finish, enhanced grain.
Hand Tipped	Two-toned leather, lightly finished cowhide, pronounced pebble grain texture.
Maremma	Full grain textured suede with impregnated soil-resistant treatment.
Velluto Pelle	Slightly pronounced grain, finished cowhide and enhanced grain.
W	
Alaska	Pearlized-iridescent protective finish cowhide, full grain with smooth texture.
Amazon	Mid-weight, full grain cowhide; colors of the Amazonian jungle, raised grain texture.
Antique	Smooth tight grain cowhide, lightly antiqued to produce an elegant patina, enhanced grain.
Derby	Combination-tanned cowhide; full grain, lightly finished and raised grain texture.
Forte	High performance, full grain leather with slightly pronounced grain texture.
Lucente	Smooth, very tight grain cowhide; subtle sheen; light casein finish.
Sabrina	Smooth, tight and full grain cowhide with a breathable protective finish.
X	
Ducale	Embossed shrunken grain cowhide with protective finish, full grain.
Ducale Velour	Full grain-sueded cowhide, embossed shrunken grain, scotch-guarded.
Y	
Capri	Chrome-free, light protective finish, full grain cowhide.
Cervo	Full aniline, cowhide, pronounced grain texture, extremely soft and supple hand.
Copenhagen	Full aniline, 100% vegetable tanned leather, full grain.
Distressed	Aniline-dyed, paraffin wax final ironing process with a smooth finish, and full grain.
Lucca	Grain sueded, aniline dyed, velvety suede surface.
Marissa	Grain-sueded cowhide, smooth suede grain with soil resistant treatment.
Portofino	Full grain, lightly finished cowhide with a pronounced raised texture.
Riva	Slightly pronounced grain texture, water-repellent, full grain.
Saddle	Full aniline, smooth very tight grain surface takes on a rich patina over time.

Customer's Own Material (COM)/ Customer's Own Leather (COL) & KnollTextiles Fabric Application

Rockwell Unscripted

COM and COL are available where noted in the price list, pending approval. COM is priced at grade B, COL at grade U, inclusive of receiving and handling costs. See below for material requirements and process and order instructions.

Prior to order placement, submit a sample cutting to Knoll in East Greenville or through your regional Knoll office for preliminary approval (89 x 89 minimum sample for solids; if pattern, sample must be large enough to show repeat). **If COM/COL will be split upholstery, you must provide companion textile at the time of submission.** Even after preliminary approval, Knoll reserves the right to reject a COM/COL, if the material is deemed inadequate. When a COM/COL is accepted, Knoll assumes no responsibility for its appearance, durability, color fastness or any other quality after upholstered on a Knoll product. See Selling Policy for details.

Published yardage requirements are based upon Knoll 529 width material unless specified otherwise. Leather requirements are based on whole hides with a minimum of 50 square feet per hide. If the nature or pattern of a COM/COL requires additional yardage/square feet and/or additional labor charges, Knoll will notify the customer when the preliminary sample is approved.

If your COM/COL is approved, please send the required amount for the product to: Knoll, Inc., 1235 Water Street, East Greenville, PA 18041, Attn: Customer Resources. You must mark your COM/COL with the approval number and customer's name. Please allow for additional lead times of 2-3 weeks.

For standard commercial application, Creative Wall is designed to be a freestanding, self-supporting furniture product, except for select floor-anchored elements within the scope, including the Creative Wall square foot, pivot fins, and column base kit.

For seismic applications, additional anchoring might be required.

For all local building standards and codes, and additional requirements (including, but not limited to, seismic conditions) the Customer should always consult local code agencies.

Failure to properly attach Knoll products to adequate structures can lead to property damage and/or personal injury.

It is the responsibility of the Customer and its certified building contractor, structural engineer, and/or architect to specify the fasteners and method for anchoring elements to a floor or other supporting structure and to confirm that the installers have adhered to these specifications.

It is the responsibility of the Customer and its structural engineers/architects to verify that structures to which the Knoll products are intended to be attached are designed appropriately to support the product dimensions and weight, including any attached accessories that meet our specification guidelines, such as monitors and mounting brackets provided by other manufacturers.

Knoll does not accept responsibility for the attachment of any Knoll product to a Customer's site building structure or to other manufacturer's products, such as raised floors or demountable walls.

Knoll can provide product information required by structural engineers/architects to help with any evaluations or calculations, including seismic applications.

Please work with your Knoll and/or Knoll dealer representative for assistance with specification requirements and installation guidelines for both standard and seismic applications.

Creative Wall elements should not be used as loadbearing support for built architecture, including ceilings, soffits, or walls.

Example: UBS9024L24SE
 UB Unscripted Borders
 S Surfaces, Created Wall
 9024 For 90"H wall, 24"W
 (L/R) Left side or Right side
 24S Single outlet option at 24"H
 E FilzFelt
 3MM131 3mm design felt, Honig

Specification Information

To order please specify:

1. Pattern number
2. Material type
3. Material finish (if applicable)

Patterns with L have left side cutouts when facing the surface and patterns with R have right side cutouts when facing the surface. Line art shows left side.

Single outlet openings (S) come with bezel to accommodate a single duplex. Bezel is always black. See Electrical to specify duplex.

Material types:

O = Magnetized porcelain, white, writable
 C = Natural cork, tackable
 E = FilzFelt 3mm wool design felt, tackable,
 for colors visit www.filzfelt.com
