Price list
June 2025

Knoll

Price Adjustment Summary

- February 3, 2025: Veneer (all grades): +1%
- June 2, 2025: Average +5.0%

(see next page for details and examples)

Important:

This price book is for reference only and does not reflect current list pricing. Refer to the Specification Tool for the latest pricing and product-specific details. Exceptions may apply.

PriceAdjustment Summary

Effective February 3, 2025

- Veneer (all grades): +1%

Effective June 2, 2025

- Most categories: +5.5%

Exceptions:

- Laminate Monolithic, Tiled & Beltway Inserts: +14%
- Standard Frameless Ad Up: +6%
- Table Undermount, Clamp-on & Offset Clamp-on Data Modules: +4.75%
- No change to upcharges or deductions

To calculate:

- Veneer products: apply 1% adjustment (Feb) before applying June adjustment
- Non-Veneer products: apply June adjustment only.

Estimating Updated Pricing

Product	List Price	Adjustment Steps	Final Estimate
Veneer	\$1,140	x1.01 (Feb) -> x1.055 (June)	\$1,214
Non Veneer	\$605	x1.055 (June only)	\$638

Important:

This price book is for reference only and does not reflect the current list pricing.

Due to numerous exceptions in the pricing adjustments for this product line, please consult the ***Specification Tool*** for the most up-to-date pricing and product-specific information.

644	Light Walnut
645	Dove Grey

Techwood Finish Applications:

Worksurfaces
Overhead and overdesk doors
Credenza top and door
Panel Trim
Veneer tile inserts
Table tops

Note: All Dividends Horizon products except DS2 pedestals and doublewide pedestals are painted with a textured finish excluding 613 Silver, which is available as a smooth finish only. X and Y base tables and the freestanding screen kits are always painted with a textured finish, including 613 Silver.

Note: Laminates and other finishes may vary in color due to different dye lots. Slight variations are to be expected.

Note: Worksurfaces, overhead and overdesk doors, credenza tops, and doors, and veneer tile inserts will have the same Techwood finish on the surface and the edge.

**Finish not available on laminate panel inserts*

*** Melamine worksurface finish. Worksurfaces manufactured in Melamine are available in High Pressure Laminate at a 15%upcharg. Other products are also available in High Pressure Laminate and would need to be quoted separately.*

Notes:

@	Limited Availability
(CP)	Central Palette Screen
S	Finish option

The following Central Palette Laminates feature a woodgrain textured surface for HPL only: LBA – Clear on Ash, LBB – Oak on Ash, LBC – Walnut on Ash. TFL (Melamine) versions of these laminates have a smooth surface.

Knoll Color Program Finishes

Wood Finishes

New codes begin with a three digit numeric sequence, followed by a letter suffix. Each letter suffix (A-F) represents a different combination of pore fill options and gloss levels.

Universal Gallery Panels

Specifications

Dividends Horizon

Covered L Specification

The Covered L Gallery Panel attaches directly to the end of a Dividends Horizon Panel as a return without the need for a Universal Post. Covered L applications are specified as either right or left handed and have a maximum overall width of 99". Extension can be added to create longer runs. Returns can be added to enclose a space or provide additional stability. All hardware is included.

Follow the steps below to complete a Covered L Gallery Panel specification:

- 1. Application:** Covered L (L).
- 2. Plus Dimension:** In applications where a Return is required, choose the plus dimension: left, right or none (L, R or N).
L and R add 1 ³/₁₆" to the overall width and preserves the on-module width inside the workstation.

- 3. Height:** Worksurface Height, 36" 42", 50", 57"
- 4. Width:** 16", 19", 20", 24", 30", 36", 42", 48", 54", 60", 66", 72", 78", 84", 90", 96"

Note: Widths above are the usable, on-module dimension inside the workstation, not overall dimension.

- 5. Handed:** Choose either left or right (L or R).
handedness is determined from the user's perspective within the workstation. See below.

Note: If a Plus Dimension is chosen (L or R), the handedness must match (L or R).

- 6. Adjacent Panel Height:** Choose the height of the adjacent Dividends Horizon (57, 50, 42, 36 or WH).

Note: Hi Lo applications with WH Dividends Panels are not supported.

- 7. Finish:** Choose the appropriate laminate or veneer finish.

- 8. Laminate Grain Direction:** Choose vertical or horizontal grain direction (V or H) or (~) for solid color laminate.

Note: No grain direction choice is required for solid color laminate.

Note: Woodgrain laminate is not available with grain matching in Shared T and Extension/Return Gallery Panel applications.

Note: See width limitations by finish option as referenced on the Dividends Horizon Gallery Panel Specification page.

- 9. Edgeband:** Choose any standard synthetic edge option.

Length of Run Restriction: No Covered L Gallery Panel run can exceed 96" (usable), including extensions without lateral support for stability i.e. attaching to freestanding storage or using a Gallery Panel Return.

Panels Specifications

Dividends Horizon

Covered T Specification

The Covered T Gallery Panel attaches to the end of a Dividends Horizon Panel run as a dual return without the need for a universal post. Covered T applications have widths that are specified independently and cannot exceed an overall width of 99". Extension can be added to create longer runs. Returns can be added to enclose a space or provide additional stability. All hardware included.

Follow the steps below to complete a Covered T Gallery Panel Specification:

- 1. Application:** Covered T (T).
- 2. Plus Dimension:** In applications where a Return(s) are required, choose the plus dimension: left, right, both or none (L, R, B or N). L and R add 1 3/16" to the left or right sides, B adds 1 3/16" to both left and right sides and preserves the on-module width inside the workstation.

3. Height: Worksurface Height, 36" 42", 50", 57"

4. Width 1: 16", 19", 20", 24", 30", 36", 42", 48", 54", 60", 66", 72", 78", 84", 90", 96"

5. Width 2: 16", 19", 20", 24", 30", 36", 42", 48", 54", 60", 66", 72", 78", 84", 90", 96"

Note: Widths above are the usable, on-module dimension inside the workstation, not overall dimension.

Note: No combination of Width 1 and Width 2 can exceed 96".

6. Adjacent Panel Height: Choose the height of the adjacent Dividends Horizon (57, 50, 42, 36 or WH).

Note: Hi Lo applications with WH Dividends Panels are not supported.

7. Finish: Choose the appropriate laminate or veneer finish.

8. Laminate Grain Direction: Choose vertical or horizontal grain direction (V or H) or (~) for solid color laminate.

Note: See width limitations by finish option as referenced on the Dividends Horizon Gallery Panel Specification page.

9. Edgeband: Choose any standard synthetic edge option.

Length of Run Restriction: No Covered T Gallery Panel run can exceed 96" (usable), including extensions without lateral support for stability i.e. attaching to freestanding storage or using a Gallery Panel Return.

Specifications

Dividends Horizon

Shared T Specification

The Shared T Gallery Panel application attaches to the end of a Dividends Horizon Panel run and specified as an assembly of two gallery panels without the need for a universal post. Shared T applications have widths that are specified independently up to 96" for greater planning flexibility and where the joints bisects the adjacent Dividends Horizon Panel. Extension can be added to create longer runs. Returns can be added to enclose a space or provide additional stability. All hardware is included.

Follow the steps below to complete a Shared T Gallery Panel specification:

1. **Application:** Shared T (S).
2. **Plus Dimension:** In applications where a Return(s) are required, choose the plus dimension: left, right, both or none (L, R, B or N). L and R add 1 ³/₁₆" to the left or right sides, B adds 1 ³/₁₆" to both left and right sides and preserves the on-module width inside the workstation.

3. **Height: Worksurface Height,** 36" 42", 50", 57"
4. **Width 1:** 16", 19", 20", 24", 30", 36", 42", 48", 54", 60", 66", 72", 78", 84", 90", 96"
5. **Width 2:** 16", 19", 20", 24", 30", 36", 42", 48", 54", 60", 66", 72", 78", 84", 90", 96"

Note: Widths above are the usable, on-module dimension inside the workstation, not overall dimension.

6. **Adjacent Panel Height:** Choose the height of the adjacent Dividends Horizon (50, 42, 36 or WH)

Note: Hi Lo applications with WH Dividends Panels are not supported.

7. **Finish:** Choose the appropriate laminate or veneer finish.

8. **Laminate Grain Direction:** Choose vertical or horizontal grain direction (V or H) or (~) for solid color laminate.

Note: See width limitations by finish option as referenced on the Dividends Horizon Gallery Panel Specification page.

9. **Edgeband:** Choose any standard synthetic edge option.

Length of Run Restriction: No Shared T Gallery Panel run can exceed 96" (usable), *including extensions* without lateral support for stability i.e. attaching to freestanding storage or using a Gallery Panel Return.

Universal Gallery Panels Specifications

Dividends Horizon

Extension/ Return Specification

The Extension Gallery Panel application attaches, in-line, to the end of an existing gallery panel to add length to a run. Maximum width is 78". All hardware is included.

The **Return Gallery Panels** application attaches the face of an existing gallery panel to add stability to a panel run or privacy to a workstation. Maximum width is 78". All hardware is included.

Note: Extensions and Returns are identical except for where the attach to an existing gallery panel.

Extension can be added to create longer runs. Returns can be added to enclose a space or provide additional stability.

Follow the steps below to complete an Extension/ Return Gallery Panel Specification:

1. **Application:** Extension/ Return (E).
2. **Plus Dimension:** In applications where a Return(s) are required, choose the plus dimension: left, right, or none (L, R, or N). L and R add 1 3/16" to the left or right sides, and preserves the on-module width inside the workstation.
3. **Height:** Worksurface Height, 27", 36", 42", 50", 57"
4. **Width 1 for 27"H - 50"H:** 16", 19", 20", 24", 30", 36", 42", 48", 54", 60", 66", 72", 78"
Width 1 for 57"H: 16", 19", 20", 24", 30", 36", 42", 48"(48" only available with no added dimension)

5. **Finish:** Choose the appropriate laminate or veneer finish.

6. **Laminate Grain Direction:** Choose vertical or horizontal grain direction (V or H) or (~) for solid color laminate.

Note: See width limitations by finish option as referenced on the Dividends Horizon Gallery Panel Specification page.

7. **Edgeband:** Choose any standard synthetic edge option.

Length of Run Restriction: No Shared T Gallery Panel run can exceed 96" (usable), *including extensions* without lateral support for stability i.e. attaching to freestanding storage or using a Gallery Panel Return.

Covered T with an Extension Gallery Panel to create a longer run

Attached storage or Return Gallery Panel for stability on ALL runs that exceed 96"

Universal Gallery Panels Specifications

Intermediate Specification

The Intermediate Gallery Panel application can be specified as either Freestanding or Panel Mounted.

Freestanding Intermediate Gallery Panels are specified as an off-module divider between workstations and are not connected to the Dividends Horizon slotted standard. Maximum width is 78". Extensions/ Returns cannot be added.

Dividends Horizon Freestanding Feet (DPGPFF) are offered in pairs. Two (2) pairs are required to complete the assembly and are ordered separately.

Note: Freestanding Intermediate applications are best suited for 42" and wider Gallery Panels.

Panel Mounted Intermediate Gallery Panels are specified as a divider between workstations and are connected to the Dividends Horizon Panel slotted standard. Maximum width is 78". Extensions/Returns cannot be added to intermediate gallery panels.

Dividends Horizon Gallery Panel Brackets (DPGPPB) are offered in pairs, either left or right handed. One (1) pair is required to complete the assembly and are ordered separately.

Note: Panel Mounted Intermediate applications are best suited for 16"-36" wide Gallery Panels.

Follow the steps below to complete an Extension/ Return Gallery Panel Specification:

- 1. Application:** Intermediate (I).
- 2. Height:** Worksurface Height, 36" 42", 50", 57"
- 3. Width 1:** 16", 19", 20", 24", 30", 36", 42", 48", 54", 60", 66", 72", 78"

Note: Widths above are the usable, on-module dimension inside the workstation, not overall dimension.

4. Finish: Choose the appropriate laminate or veneer finish.

5. Laminate Grain Direction: Choose vertical or horizontal grain direction (V or H) or (–) for solid color laminate.

Note: See width limitations by finish option as referenced on the Dividends Horizon Gallery Panel Specification page.

6. Edgeband: Choose any standard synthetic edge option.

Product Line	Category	Application (1)	Height (2)	Width 1 (3)	Finish (4)	Grain Direction (5)	Edgeband (6)

Follow the steps below to complete an Add Up for Covered L Gallery Panel specification:

1. Application: Covered L (L).

2. Plus Dimension: In applications where a Return is required, choose the plus dimension: 1 3/16" or none (1 or N). "1" adds 1 3/16" to the overall width and preserves the on-module width inside the workstation.

3. Add Up Height: 7", 14" and 21"

4. Width: 16", 19", 20", 24", 30", 36", 42", 48", 54", 60", 66", 72", 78", 84", 90", 96".

Note: Widths above are the usable, on-module dimension inside the workstation, not overall dimension.

5. Material: 1/4", 3/8", 1/2" Glass or 12mm PET

6. Material Finish:

- 1/2" glass options: clear, frosted, bronze or grey
- 3/8" Glass options: clear or laminated powder
- 1/4" Glass options: clear or frosted
- 12mm PET options: Slate, Pewter, Smoke, Ochre, Cobalt

7. Frame Finish: Choose a standard Knoll powdercoat finish.

Note: Add ups must be specified to match the base Gallery Panel application type.

Vertical Dividers (for flip-up overheads and open shelves)
Package of 4

DS1 VD	\$181.	\$188.	\$195.	\$204.

Ordering Information	Order Code	Included with:	Options
Pedestals	Overdesk Cabinet Example: DD2OD 48L 613 115	Overdesk Cabinet Stanchion mount overdesk cabinets included an enclosed back.	Overdesk Cabinet To specify overhead cabinet without locks, replace the "L": suffix from the pattern number with "N". For 30" to 48" wide overdesk units, Deduct \$20. For 54", 60" 66" and 72" wide overdesk units, Deduct \$40. To specify Touchdown overhead cabinet, add "E" as the 2nd to last digit of the pattern number. Example: DS3PML48EL (Add \$163 for cabinet widths of 48" or less. Add \$327 for cabinet widths for 54" or greater). Add "Y" to the end of the pattern number to specify a different finish for the door versus the case. Use P3 pricing for this dual finish option.

Ordering Information

Sliding Door Overdesk

1. Pattern Number
2. Case Finish
3. Door Finish
4. Edge Finish (laminate door only)
5. Tackboard fabric

Order Code

Sliding Door Overdesk
Example: DS3ODSS 2643021FL,613
DS3ODSS Pattern number
2643021FL
613 Silver Paint Finish
W1360 Annex Tackboard Finish

Included with:

Sliding Door Overdesk

Note: Overheads are only available in Knoll core finishes.

Note: Fabric tackboard covers from top of worksurface to bottom of lower shelf.

Options

No lock - substitute "N" for "L" at the end of pattern number, subtract \$20.

Back option for No Door units
(1)= Back covering overhead only
(2) = Back covering overhead and shelf section.

Paint Configuration Option:
Add "Y" at the end of the pattern number to specify a different paint finish on the case and fronts. P3 pricing applies on all product with dual paint finishes.

Order Code	Specification Information	Application Notes
Example: MW2-S3618-B-115 MW2 Worksurface 1 3/4" thick S Worksurface type 36 Width 18 Depth B No grommets 115 Surface finish	B: Worksurface does not include grommets Specify surface finish All worksurfaces are U.L.-listed.	18"D worksurfaces are used interchangeably in desk and panel system applications as shallow main surfaces, extensions, or credenza tops. They must be supported at each end by a pedestal, end panel, end support cantilever or cantilever bridging bracket with a maximum span of 60" between supports. All worksurfaces have threaded metal inserts at all end panel, desk support and bracket locations and pilot holes at pedestal locations. MW2- worksurfaces are supported by brackets with machine screws. Panel supported worksurfaces over 60" must be mid-span supported by MB2-C18 bracket, specified separately. 18"D worksurfaces with desk supports or filler panels do not accept pedestals.

Order Code

Stiffener
 Example: AWM1 S48
 AW1 Worksurface
 S Stiffener
 48 Type

Application Notes

Currents worksurfaces for Dividends Horizon require stiffener when the span between structural supports exceeds 36". Specify worksurface stiffeners and supports separately.

When using Dividends Horizon end support brackets, order MB3-EC18, 24 or 30.

For 90° application span, use two AWM1-S42 stiffeners.

For 96° application span, use two AWM1-S48 stiffeners.

Specification Information

Stiffener mounts 18" from front edge of worksurface and will interfere with mobile or floorstanding pedestals greater than 18" deep.

To accommodate a floorstanding pedestal greater than 18" deep at one end of worksurface, specify stiffener for 12" narrower worksurface.

To accommodate two floorstanding pedestals or double-wide at one end of worksurface, specify stiffener for 24" narrower worksurface.

Flat Brackets
1. Pattern Number

Order Code

Flat Brackets
Example: MB3-F24M
MB3 Bracket
F Bracket type
24 Bracket depth
M Machine screws

Application Notes

Flat bridging brackets attach two worksurfaces at the same height in 90 "L", VDT or end-to-end applications (in conjunction with floorstanding pedestal support)

Brackets with machine screws (suffix-M) are used with MW2- and MU1- worksurfaces.
Brackets with wood screws (suffix-W) are used with LU1- and AWM2- worksurfaces.

Flat bridging brackets are universal for freestanding or panel based planning.

Wall Mounting of Knoll Products

Wall Mounting Suggestions

The following information is provided only as a guide, and represents minimum recommendations only. Knoll does not accept responsibility for the attachment of any Knoll product to a Customer's site wall. Wall specification/construction is the responsibility of the Customer and its structural engineer/architect. Failure to properly attach Knoll products to adequate wall structures can lead to property damage and/or personal injury.

You should consult your own structural engineers and/or architects and must not rely on the information provided herein.

It is the responsibility of the Customer and its structural engineers/architects to verify that the permanent structural walls (studs, blocks, solid masonry, etc.) on which the Knoll products are intended to be mounted are designed appropriately to support the product weight, PLUS 3 lbs. per linear inch for each useable shelf length

NOTE: A cabinet's top is considered a "useable shelf" and MUST be included in the calculation of the total load for an overhead cabinet.

It is the responsibility of the Customer and its structural engineer/architects to specify the fasteners and method for attaching the Knoll supplied wall mounting cleat, bracket, frame, etc. to the supporting wall and to confirm that the installers have adhered to these specifications. For all local building standards and codes, and additional requirements (including, but not limited to, seismic conditions) the Customer should always consult local code agencies.

Wall Mounting of Knoll Products

		EXISTING CONSTRUCTION				
	NEW CONSTRUCTION	Cinder Block or Poured Concrete Masonry Wall	Wood Stud Wall, the studs being FULL HEIGHT to the roof/floor above	Wood Stud Wall, the studs being only Ceiling Height	Steel Stud Wall, the studs being FULL HEIGHT to the roof/floor above	Steel Stud Wall, the studs being only Ceiling Height
Stud Specification	Wood studs, grade #2 or better, 3 1/2" minimum width, OR Metal studs, minimum 25 gage thickness, 3 5/8" minimum width	The wall must be a minimum of 6" thick, and must be full height to the roof/ floor structure above	Wood studs must be Grade #2, or better, 3 1/2" minimum width	Wood studs must be Grade #2, or better, 3 1/2" minimum width	Metal studs must be minimum 25 gage thickness, 3 5/8" minimum width	Metal studs must be minimum 25 gage thickness, 3 5/8" minimum width
Stud Centers	Metal and wood studs must be spaced at 16" c/c maximum	N/A	Wood studs must be spaced at 16" c/c maximum	Wood studs must be spaced at 16" c/c maximum	Metal studs must be spaced at 16" c/c maximum	Metal studs must be spaced at 16" c/c maximum
Stud Height	Metal and wood studs must extend upwards, and be securely attached to the roof/ floor structure above			Wood studs must be braced above the ceiling, and be securely attached to the roof/floor structure above Affix #2 grade 'cap' across the top of the studs, then place diagonal studs from the top cap up to underside of the roof/ floor structure above		Metal studs must be braced above the ceiling, and be securely attached to the roof/floor structure above Affix metal bracing 'cap' across the top of the studs, then place diagonal studs from the top cap up to underside of the roof / floor structure above
Mounting the Knoll Supplied Cleat, Bracket, Frame, etc*	Insert a 2" X 6" wood block, #2 grade or better, [or a Danback™ flexible wood backing system] horizontally between each of the studs to accommodate the full width of the cabinet, and beyond to the next stud. Fasten the wood block to each stud using three screws at the ends of each block. (Fasten the Danback™ as directed by the manufacturer) Fasten the Knoll supplied wall mounting cleat, bracket, frame, etc directly to each wood block every 6" For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wood blocking every 6", and fasten the lower horizontal element to each wall stud, using one fastener per stud.	Fasten the Knoll supplied cabinet wall mounting cleat, bracket, frame, etc. directly to the masonry wall every 6" For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wall every 6", and fasten the lower horizontal element to the wall every 16" Replace the drywall and repair as desired. Fasten the Knoll supplied wall mounting cleat, rail, frame, etc directly to the wood block every 6" For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wood blocking every 6", and fasten the lower horizontal element to each wall stud, using one fastener per stud.	In the desired location of the cabinet mounting rail, remove an 8" high section of drywall the width of the cabinet, and beyond to the next stud. Insert a 2" X 6" wood block, #2 grade or better, horizontally between each of the exposed studs. Fasten the wood block to each stud using three screws at the ends of each block. Replace the drywall and repair as desired. Fasten the Knoll supplied wall mounting cleat, rail, frame, etc directly to the wood block every 6" For wall mounting structures that have a rectangular frame-like configuration: fasten the top horizontal element of the frame to the wood blocking every 6", and fasten the lower horizontal element to each wall stud, using one fastener per stud.	In the desired location of the cabinet mounting rail, remove an 8" high section of drywall the width of the cabinet, and beyond to the next stud. Insert a 2" X 6" wood block, #2 grade or better, horizontally between each of the exposed studs. Fasten the wood block to each stud using three screws at the ends of each block. *Graham Wall Hung Shelf	The Graham Wall Hung Shelf Bracket (and others like it) requires full support behind the full height of the bracket This should be accomplished by insertion of additional 2"X 6" wood blocking between the studs as defined above	Fasten the Knoll supplied wall mounting brackets directly to the masonry wall, using the holes provided in each bracket	The Graham Wall Hung Shelf Bracket (and others like it) requires full support behind the full height of the bracket This should be accomplished by insertion of additional 2"X 6" wood blocking between the studs as defined above	The Graham Wall Hung Shelf Bracket (and others like it) requires full support behind the full height of the bracket This should be accomplished by insertion of additional 2"X 6" wood blocking between the studs as defined above	The Graham Wall Hung Shelf Bracket (and others like it) requires full support behind the full height of the bracket This should be accomplished by insertion of additional 2"X 6" wood blocking between the studs as defined above	The Graham Wall Hung Shelf Bracket (and others like it) requires full support behind the full height of the bracket This should be accomplished by insertion of additional 2"X 6" wood blocking between the studs as defined above
Fasten the Knoll supplied wall cleat with...	#10 x 2 1/2" Grabber Woodys Screws or equiv. @ 6" c/c, screwed directly into the wood blocking	3/16" x 3 1/2" Tapcon Masonry Screws or equiv. @ 6" c/c with 1-1/4" embedment, screwed directly into the masonry wall	#10 x 2 1/2" Grabber Woodys Screws or equiv. @ 6" c/c, screwed directly into the wood blocking	#10 x 2 1/2" Grabber Woodys Screws or equiv. @ 6" c/c, screwed directly into the wood blocking	#10 x 2 1/2" Grabber Woodys Screws or equiv. @ 6" c/c, screwed directly into the wood blocking	#10 x 2 1/2" Grabber Woodys Screws or equiv. @ 6" c/c, screwed directly into the wood blocking

KnollKey Lock Program

KnollKey Lock Program General Information

Following is the KnollKey lock policy, applicable to all products.

Knoll furniture can be ordered keyed-alike or random keyed. Key-alike and random keying instructions cannot be mixed on any single order. Only one of the two instructions can be used on an individual order. When an order is submitted with mixed (key-alike and random) instructions, Knoll will release the order as key-alike only and lock cores will have to be specified separately.

Key-alike

For the convenience of the user, furniture may be keyed alike at no charge. Write "Key-alike" in the description of your purchase order for any pedestal, overhead, file or other item you wish to have keyed alike.

Using the key-alike instructions, order cores and keys as line items on your purchase order. Do NOT submit a key-alike form. The Knoll East Greenville Lock Center will select key numbers from the standard range of K 001 - K 250. Key numbers will not be repeated unless over 250 sets are ordered. Lock cores keyed-alike will ship separately from the product, ready for field installation.

There is no charge for key-alike orders if placed with the furniture order.

IF THE KEY-ALIKE ORDER IS NOT PLACED AT LEAST TWO WEEKS PRIOR TO THE FURNITURE SHIP DATE, A \$50 HANDLING CHARGE AND AIR FREIGHT CHARGES WILL APPLY.

If product is ordered and shipped random-keyed, additional lock cores for key-alike are billable.

Random-Keying

To specify product keyed-random, write "key-random" in the product description. Random-keyed product is shipped with the lock core factory installed. A shrouded key is included. Random means no effort has been made to match key numbers, or to make them different.

Keys

A Knoll shrouded key is shipped with every lock core. 250 Key numbers are available. For numbers above 250, contact Custom Product Development. Additional keys and key blanks are available. See service parts for more information.

Master Keying

Knoll locks can be controlled by means of a master key. There is no additional per-lock charge for master keying. A letter of approval from the client must accompany orders for master keys.

Installing Lock Cores

Lock cores can be installed or removed in the field by using a change key. Cores must be in the unlocked position to be removed. See service parts for change key pattern number and pricing.

Lock Distribution

All orders for key-alike lock cores/keys are packaged and shipped from the East Greenville Lock Center, regardless of where the pedestals, overhead, or other units are produced. Random keyed product will have cores factory-installed.

How to Specify Key-Alike

Following is an example of how to specify key-alike for a cluster of 10 workstations.

Step 1 - Using the project floorplan, count the number of locks in each workstation.

Step 2 - Count the number of workstations with the same quantity of locks. Group together the workstations with a like number of locks.

5 workstations with 2 locks per station
3 workstations with 4 locks per station
2 workstations with 5 locks per station

Step 3 - For the first group (5 sets of 2 locks), enter the number of workstations in the quantity column.

Qty	Pattern #	Description	Unit List	Ext. List
5				

Step 4 - Then enter the pattern number "KSPEC_ _" and add a suffix for the number of locks for that group (i.e., for 2 locks per station, add the suffix "2"). Up to 30 lock cores are available in a set (i.e., KSPEC 30).

Qty	Pattern #	Description	Unit List	Ext. List
5	KSPEC 2	Set of 2 cores/keys	N / C	N / C

Step 5 - Repeat for other groups.

Qty	Pattern #	Description	Unit List	Ext. List
5	KSPEC 2	Set of 2 cores/keys	N / C	N / C
3	KSPEC 4	Set of 4 cores/keys	N / C	N / C
2	KSPEC 5	Set of 5 cores/keys	N / C	N / C

Your Key instructions are complete.

Knoll will select key numbers for each set from 250 available numbers. Additional key numbers are available through Custom Product Development. **For additions to existing installations, specify desired key numbers in the description.**

Service Parts

Pattern #	Description	List Price
KKEY_ _ _	Shrouded Key Specify key number desired	\$11
KBLANK	Shrouded Key Blank	\$11
KSPECB_ _ _	Retrofit Universal Core/Key Specify key number desired	\$23
KCHANGE	Change Key	\$11
HLKRKMASTER*	Master Key	\$14

*Note: A letter of approval on company letterhead from the client must accompany all orders for master keys.
