Class FM1

Features

- Includes high-pressure laminate (HPL) or wood veneer top, steel, laminate or wood end panel, steel column, and hardware for assembly and attachment to adjoining casegood.
- Top has 3mm edgeband on the perimeter and 1mm edgeband on the back.
- Glides provide 1.5"(38mm) adjustment range.
- Field assembled.

Specification Tips

- Not for use as a stand-alone casegood. Must be attached to a return or bridge.
- A separately specified Worksurface Reinforcement Channel provides worksurface reinforcement to minimize deflection. Recommended for heavily loaded worksurface applications.

To Order, Specify:

1) Product number.
2) Laminate or wood color for top.
3) Edge trim color for top (HPL only).
4) End panel trim, laminate or wood finish.
5) End panel edge color (HPL only)
6) Modesty panel trim color.

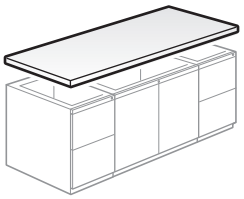
Credenza Tops

Credenza Top



JDSL
JDSW

Class FM1

Product Features

- Includes high-pressure laminate (HPL) or wood top and attachment hardware.
- Top has 3mm edgeband on user and guest edge, and 1mm edgeband on sides.
- Attaches to separately specified X Series attached lateral file(s), attached storage cabinets, attached combination units, and/or attached pedestals to create a credenza.

Specification Tips

- Not for use with X Series Desk Pedestals; modesty panel mounting holes on the side of the desk pedestal will be visible.
- Not for use with X Series Freestanding Files, storage tops are included with freestanding casegoods.
- Designing a storage credenza with attached storage pieces less than 24"(610mm)D will result in an overhang at the back of the credenza top.
- When using attached pedestals the recommended nominal depth is 24"(610mm) to minimize overhang of the top. The actual depth of a 24"(610mm)D attached pedestal is greater than other storage pieces; the recommended application is to place the pedestal(s) at the end(s) of the credenza to conceal the depth difference. 18"(457mm) nominal depth pedestals are less deep than other storage pieces and therefore not recommended.
- For a storage credenza with attached pedestals and lateral files, specify a proud front attached lateral (not inset front) to match the pedestal front.
- When designing a credenza to support a Vertical Storage Unit, both ends of credenza must be 24"(610mm)D attached pedestals.

To Order, Specify:

1) Product number.
2) Laminate or wood color for top.
3) Edge trim color for top (HPL only).
