

NERO MARQUINA SLAB

Nero Marquina boasts deep, rich black hues interwoven with striking white veining, creating a dramatic and sophisticated aesthetic. Slabs with a rock finish add a unique, tactile texture, enhancing the stone's natural beauty while providing a refined, contemporary edge. Stocked in 2cm and 3cm (nominal) slabs in polished, honed, and rock finishes.

NOTES
¹ This material is sensitive to acids including those commonly found in kitchens. Acid etching occurs in many stones, but may be less visible on lighter colors and on surfaces with a honed finish. A professionally applied surface treatment like MORE™ AntiEtch™ can prevent acid etching. ² Showers: Product must be installed in accordance with current TCNA Handbook Stone Methods. ³ Please see NSI DSDM (Dimension Stone Design Manual) for all installation instructions. Tech notes: The NSI recommends installing resin-backed stone with epoxy-based setting materials or a combination of suitable primer and cement-based mortar. Consult your setting materials manufacturer for specific recommendations.
