

MALACHITE SLAB

A cool green marble from Canada highlighted by snowy veins flowing in all directions against a vibrant and verdant ground, evoking Nordic mountain ranges in winter. Stocked in 3/4" (2cm nominal), polished slab.

NOTES													
¹ This material is sensitive to acids including those commonly found in kitchens. Acid etching occurs in many stones, but may be less visible on lighter colors and on surfaces with a honed finish. A professionally applied surface treatment like MORE™ AntiEtch™ can prevent acid etching. ² Showers: Product must be installed in accordance with current TCNA Handbook Stone Methods. ³ Please see NSI DSDM (Dimension Stone Design Manual) for all installation instructions. Tech Note: The NSI recommends installing resin-backed stone with epoxy-based setting materials. Consult your setting materials manufacturer for specific recommendations.
