

VERONESE COLLECTION

A global exclusive for Artistic Tile, our Veronese terrazzo mixes distinctive Italian marbles from the region. Composed of 95% marble with 5% resin, this modern terrazzo is stocked in five colorways: Multicolore, Crema, Nero, Verde Perlino, and Fumo Rosato.

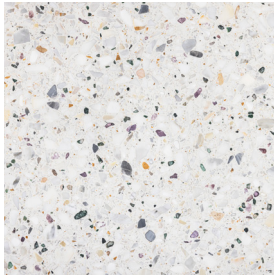

Multicolore, with chips of Arabescato Bianco marble and jewel-like green and violet Lepidolite mica. Crema, featuring Arabescato Bianco marble's softly neutral range. Nero, with classic Bianco Carrara dramatically set into ink-black resin. Verde Perlino, with marble chips in shades of Pink, Cream, and Alpine Green on a dark background. Fumo Rosato, with smoky Fior Di Bosco flecked with blush Rosa Perlino.

Available in honed 24"× 24" x 3/8" tile and 3/4" slab.

NOTES	AVAILABLE SIZES
¹ Slab - Yes, linear drain. ² This material is highly sensitive to acids. When used as a kitchen countertop, acid etching will be highly visible. Do not use this material if acid etching is a concern. For kitchen countertops, we recommend a honed finish. Expect the material to patina over time, creating a beautiful rustic/antique look. Suitable for exterior countertops in non-freeze-thaw climates. Material may yellow slightly when exposed to direct sunlight. ³ Crema and Multicolore - Discoloration may occur from smoke and fumes. ⁴ Alternate Mortar - Mapei Granirapid 2-Part System or use Ardex N23 if installing over radiant heat systems. ⁵ Alternate grout - Mapei Ultracolor Plus FA or Mapei Flexcolor CQ. Test grout color before use. Darker grout may stain. ⁶ Slab Grout Joint- 1/4" Minimum ⁷ Tech Note: Slab Installation: Refer to the NSI DSDM (Dimension Stone Design Manual) for complete installation instructions. Do not install in direct sunlight. For showers, product must be installed according to the current TCNA handbook stone methods. If returning material reseal remaining tiles in plastic wrap. Returns will not be accepted for improperly stored material. Pinholes or small voids may be visible on the tile surface before installation or may appear over time. These can be filled on-site using a matching cement-based grout or epoxy. Ardex N23 is to be used if installing over radiant heat systems. Test grout color before use, darker grout may stain.	<p>ARIS EDGE FIELD TILE 24" x 24" x 3/8" Honed 3/8" Thickness</p> <p>SLAB 48" x 120" x 3/4" (2CM) Honed</p>
