

BOLT® 1

INSULATION BLOWING MACHINE

ALL YOU NEED TO SUCCEED

The BOLT® 1 is an easy-to-use, all-in-one insulation blowing machine that works with fiberglass, cellulose, and stone wool loose-fill, making it ideal for rentals, DIY, retrofits, or remodeling jobs such as attics, walls, and cavities. Cover more ground thanks to its easy tip-and-roll maneuverability. Its two-piece design and lighter weight makes for easy loading in a car or truck. The wired remote lets one person in the attic control insulation delivery while another loads the machine. Simple and safe to use, it operates on one 15 amp standard 120V outlet.

Features & Benefits

- Two-piece design
- Three processing agitators
- Easy maneuverability
- Able to blow fiberglass, cellulose, and mineral wool loose-fill
- Powered by a single 15 amp 120V circuit
- Wired remote control
- 1-yr. warranty
- 1/2-bag hopper capacity
- Flow rate of 6-7 lbs./min
- Dimensions 55.5" x 28.1" x 28.3"

Safety Features

- **Emergency Stop** – Immediately shuts down power to the motor and blowers
- **Electrical Interlock** – Prevents machine operation if hopper is not in place
- **Hopper** – Prevents access to rotating parts in the machine

MACHINE SPECIFICATIONS

Insulation	Fiberglass, Stone Wool, Cellulose
Power Requirements	Single 15 amp 120v Outlet
Fiberglass Blow Rates*	6-7 lbs./min.
Cellulose Blow Rates*	17-22 lbs./min.
Load Height	45.5"
Height	55.5"
Width	28.1"
Depth	28.3"
Weight: Approx	174 lbs.

* Rates apply to material that has been properly conditioned.

ACCESSORY OPTIONS

[2.5" x 100' Hose Package](#)

BOLT® 1

Featured Details

Sealed Air-Lock Feeder – Sealed and pressurized air flow delivers a consistent flow of conditioned fiber.

Remote Control – Gives installer the option of selecting air only or air and fiber from the point of application.

Integrated Safety Features – Emergency stop switches; electrical interlock; front, rear and side guards.

Self-Aligning Sealed Bearings – High-quality bearings are used throughout the certainTeed machine works product line. They are sealed to keep out dust and equipped with zerk fittings for proper maintenance.

Single Power Outlet – The machine will only require one standard 15 amp 120V power outlet to operate.

Lightweight And Compact – Two-piece design for easy loading, unloading and maneuvering..

*Patent nos. US8556200B2, US9592482B2, US10603672B2 and CA2726583C
