

CertainTeed *Technical Services Memo*

Subject:	Maintenance Instructions for CertainTeed Open Plan (nubby) acoustic ceiling panels		
Date:	January 10, 2024	Tel:	800-233-8990

Handling

Clean cotton gloves should be worn at all times, both during the initial ceiling assembly and any subsequent activity that may require a panel to be removed. When panels are removed they should be taken completely out of the grid and stored on a flat surface. Panels should be laid face to face to limit unnecessary soiling and damage during their temporary displacement.

Cleaning

Panels can be cleaned of dust and loose dirt particles by vacuuming with a soft brush attachment.
