PAISANS

designed by Berg & Hindenes

Named after the Italian American term “paisan,” which conveys a sense of camaraderie, kinship, and friendship, this collection embodies the spirit of connection and community.

Paisans combines thoughtful craftsmanship with versatility, offering a family of chairs that seamlessly blend distinct personalities with cohesive design. Each piece is built on a shared core frame structure, creating a sense of unity while maintaining unique expressions through its three distinctive backrest designs: Smiley, Skate, and Phantom.

Berg and Hindenes, graduates of the School of the Arts in Bergen, Norway, are renowned for their industrial design expertise within the contract furniture industry. Their vision for Paisans was to create a seating solution that balances aesthetics, comfort, and environmental responsibility. The result is a lightweight yet exceptionally durable collection with replaceable parts integrated into the design, ensuring sustainability and longevity.
