

SOA

SOA

Designed with comfort and care in mind, Soa brings a sense of tranquility to healthcare environments. Embracing softer forms, from an elliptical tube frame and radiused arm caps, to a cushiony seat and back, its soothing presence creates a warm and welcoming space for everyone.

Engineered for maximum durability, the bariatric settee delivers reliable strength for high-demand use while maintaining comfort and lasting support. Paired with tandem seating and coordinating occasional tables, they foster a harmonious and functional space.

Well-suited for transitional zones and other active spaces, benches bring a refined, modern look with lasting charm. Offered in multiple sizes – with or without inline tables – they adapt easily to waiting areas, corridors, and other shared environments.

Complementary occasional tables are offered in a variety of sizes and finishes, with high-performance surface options designed to endure everyday use.

SOA COLLECTION

PRODUCT SPECIFICATIONS

Stand-alone guest, bariatric and easy-access/hip chair models offered, in addition to tandem units.

Tandem models available in two, three and four-seat combinations or as reconfigurable modular units.

Beech wood, black urethane and Corian® arm cap options.

Elliptical metal tube frame available in standard and premium finishes.

All models feature clean-outs on all sides for maintenance ease, as well as a passive-flex back and wall-saver leg design.

Corner, inline and end tables available in Beech veneer, laminate, Corian® and Fenix®.

Single, 2-seat with center table and 3-seat bench models offered.

Accompanying occasional tables available in rounded square and rounded rectangle shapes.
