

Pattern: **Riviera**
AC#: **68870 - 68880**
Content: **38% Cotton, 36% Nylon, 26% Polyester**
Bleach Cleanable: **N/A**
Cleaning Code: **S**

General Cleaning Recommendation:

Don't wait: the best way to protect fabrics is to remove spills and stains from them as soon as possible. Alta® minimizes staining in protected fabrics, but cleaning may still be necessary.

Clean liquid spills quickly with a clean, dry cloth:

- For liquid spills, gently blot (don't rub) spill immediately with an absorbent cloth.
- Wipe off with clean water and a clean, dry cloth if needed.

For semi-solid spills, try to lift the spot off of the fabric:

- Working in a circular motion or removing the spill from the side is often the best means to lift spills from the fabric.
- Change towel surface frequently until spot has been transferred off of the fabric and onto the absorbent cleaning cloth. Try to avoid pressing the spill or spreading the stain.
- Wipe off with clean water and a clean, dry cloth if needed.

For semi-solid spills, try to lift the spot off of the fabric:

- If a spill does not come off with water and a clean, dry cloth, add a mild detergent mixed with water and repeat circular motion. Mild detergents such as Sport Wash, Tide Free, or Cheer Free work best.
- If a stain remains, a solvent may be needed to remove the stubborn stain. It is recommended to use odorless mineral spirits, dry cleaning fluid such as perchloroethylene or Fantastic Orange Action All Purpose Cleaner.
- Wipe off with water and a dry clean cloth. Do not rub harshly. The harder you rub when cleaning a spill, the deeper the soil can be pushed into the fibers.
- Remove all soap or cleaning agent residue from the surface with clean water.

After using a cleaning chemical on a Alta® treated fabric, the fabric should be fully flushed with water to avoid any negative effects of residue build- up from the cleaner.

For Washing Instructions:

- Do not wash in water temperature above 120 degrees.
- Do not use harsh detergents.
- Do not use fabric softeners.
- Do not use cleaner with oxidizers.
- Let air dry OR tumble dry at low temperature setting.
- Iron if Necessary.

****Alta® cleaning instructions should not replace the manufacturers cleaning instructions. Always defer to following the manufacturer's recommended care instructions and use in conjunction with the instructions above.**

The cleaning recommendations above are a guide to help in the maintenance of Arc-Com textiles.
