MG-WR Terreon® Waste Receptacle – MG-Series

- Compatible with Express® Lavatory Systems — MG-Series
- Cover is constructed of vandal-resistant Terreon® or Terreon®RE solid surface material
- Stainless steel can
- Uses standard plastic trash can liners or optional vinyl liner
- Available in a variety of colors

Specifications

Terreon and TerreonRE Waste Receptacles, Model MG-WR, feature a solid surface cover and stainless steel can. The Terreon or TerreonRE waste receptacle cover comes equipped with support brackets and mounting hardware. Install this Waste Receptacle between Express Lavatory Systems — MG-Series and/or at the end of an alcove wall.

Construction

Cover

Constructed of Terreon, a densified solid surface material composed of bio-based resin, or TerreonRE, a densified solid surface material composed of a bio-based resin and preconsumer recycled granules. Terreon and TerreonRE are resistant to chemicals, stains, burns and impact. Surface damage can be easily repaired with everyday cleansers or fine grit abrasives. Terreon and TerreonRE are GREENGUARD® certified as low-emitting materials.

Receptacle

The receptacle is constructed of 22 gauge Type 304 stainless steel with a #4 finish.

Mounting Options

The waste receptacle is designed to be mounted between two Express Lavatory Systems — MG-Series, or between an Express Lavatory System — MG-Series and an alcove wall. The Terreon and TerreonRE covers can be modified on the jobsite to accommodate spans of 19" to 20".

Product Compliance

Listed by UL Environment to

- GreenGuard Gold

Complies with

- Requirements of CSA B45.5/IAPMO Z124

Verify all rough-in dimensions prior to installation. Consult local and national codes. Conformity and compliance to local and national codes is the responsibility of the installer.

Rough-In Views

(mm)

Optional Wall Mounting

* 20" is a maximum dimension for back of Terreon cover. Using the template provided and a carbide-tip blade, this dimension can be reduced to 19" to allow for in-field variances between Express Lav Bowls and the alcove wall. Trim area is 1/2" per side (1" max.). See top views at left and above.

Verify all rough-in dimensions prior to installation.
Consult local and national codes. Conformity and compliance to local and national codes is the responsibility of the installer.
