PULL-UP TABLES

NATIONAL<sup>®</sup>

# Highly stylish and incredibly efficient.

Mariben pull-up tables combine smart design with stylish contours. Its crescent-shaped base plate allows the pull-up table to be nestled around the leg of a chair or lounge seating, enabling the surface to be closer to the user. This base design also accommodates nesting for easy storage or tiered tables. Mariben incorporates mixed materials, height adjustability, and varied shaped tops, cultivating a table solution that is practical, affordable, and flexible.

Mix and match the column color with the base plate color to create a contrasting look or utilize the same paint for a monochromatic scheme. Mariben's generously sized tops are available in round, soft rectangle, or soft D shapes that easily support a variety of activities from note taking while using a laptop to creating a handy spot for a quick bite to eat. Height adjust tables are available with laminate surfaces, while fixed height bases are also available with solid surface tops. Solid surface tops can include an optional spill groove for ease of cleaning.
